SWEDEN

# KABE 2027 Caravan

Confidence in every journey

# KABE

# Confidence in every journey

For more than 65 years, KABE has developed caravans for a life on the move from its factory in Tenhult, Småland. Each one carries generations of craftsmanship, an unwavering commitment to quality, and the belief that the journey should be as rewarding as the destination. For model year 2027, we take the next step forward – pairing Scandinavian design tradition with modern engineering.

**Scandinavian design** sits at the heart of every KABE. Every line, every material, every function has a purpose. Our caravans bring together timeless form and intelligent function that simplifies daily life on the road – whether you are parked on a sun-soaked coastline or at a mountain camp-site. The result is a mobile home in a class of its own, built with genuine craftsmanship and a real feel for detail.

**Comfort** runs through everything we make. From comfortable sofas and beds to the patented underfloor heating system, optimised ventilation and thoughtful layouts that create space and a sense of home – every detail is shaped around your well-being. Our caravans are built to travel all year, in any climate and any road condition, with the highest level of comfort.

**Swedish craftsmanship** is the foundation of every KABE. Each model is built with precision and care at our state-of-the-art factory in Tenhult. Everything from insulation and heating to the electrical system and furniture construction undergoes rigorous testing. Every caravan is engineered for the Scandinavian climate yet equally ready for long journeys south. Our goal is simple: to deliver the highest standard on the market in every price segment.

Your **safety** always comes first. Each KABE caravan is developed to give you maximum confidence and peace of mind on the road. Stable towing characteristics and well-thought-out safety features help prevent risks, while a robust construction provides protection should the unexpected happen. Add meticulous quality control and you have a safe, worry-free travel experience. With KABE you can enjoy the freedom of a leisure home on wheels to the full.

**Scandinavian design, unrivalled comfort, Swedish craftsmanship and uncompromising safety – that is KABE.**

# KABE – an investment in quality of life

Choosing a KABE is more than a purchase – it is an investment in quality of life. Every model is built for those who want to travel safely, securely and with care for the environment. And with the utmost thought given to your comfort once you arrive.

At KABE, we leave nothing to chance. Every detail is carefully worked out so that caravan life feels as easy and worry-free as possible. From unique construction methods and our own joinery to clever technology and practical interior touches – all of it built on experience, innovation and a clear determination to give you the very best.

In a KABE, much of what feels like an extra is simply standard – and you notice it on every journey.

**This is why so many choose KABE!**

**Insulated energy windows** create a better indoor climate and lower energy consumption – year-round.

**A sound-insulating ceiling lining** that reduces noise and creates tranquil acoustics, even in rain and wind.

**KABE Smart D 2.0** – easy-to-use control panel with full command of lighting, temperature, water and electrical systems (standard in Royal and Imperial).

**AGS II Pro automatic underfloor heating system** with mixing valve distributes even warmth across the entire floor (not for Estate).

**Outstanding seating and sleeping comfort** – for a great night's sleep and relaxing days, wherever you are.

**A pull-out, heated ski locker with lighting** makes it easy to store and access your skis.

**Heated drying cupboard for clothes** with a KABE-designed drip tray for boots and shoes.

**An entrance wardrobe and a heated shoe compartment**, are placed just inside the door in many models.

**A clever entrance layout** with room for a television up to 32 inches (not for CTDL or CXL floorplans).

**A ventilation hatch in the bedroom** lets in fresh air for a more comfortable sleeping climate in any season.

**Built-in extractor fan** with lighting and two speed settings.

**The best fridge ventilation on the market**, routed up through the roof, is included in several models.

**With a KABE, you simply get more of everything.**

Additional details on pages 22-29.

# Premium at first glance

A KABE caravan is easy to recognise – not only by its refined exterior design in its classic colours, but by what we stand for: Scandinavian design, unrivalled comfort, Swedish craftsmanship and uncompromising safety. The details are what makes the whole. You'll see once you really get to know your KABE.

Smooth exterior panels are standard across our caravans – a clean canvas that lets each model series' design speak for itself.

**Our 2027 Estate and Imperial models, are updated with a new semi-matt finish on the outside graphics that cuts reflections and lends a calmer, more exclusive feel – while keeping the design crisp.**

Our modern Estate caravan stands apart with a sporty profile and bold 3D-effect decals that enhance its dynamic character.

Gemstone and Royal feature a distinctive red graphic, printed directly onto the panelling, elegantly framing the windows and reinforcing the body's signature lines.

The Imperial series continues to set itself apart with an exclusive exterior. The unique 3D-decals follow the shape of the body and align with doors, windows and hatches – a design language you can both see and feel.

All KABE models have generous windows that let natural light pour in and create an open, welcoming atmosphere. A window in the door is standard across the model range, except for Estate.

The aerodynamic body shape and signature rear spoiler are engineered to reduce drag and improve the way the caravan tows.

At KABE, we are always moving forward – with thoughtful updates and innovations designed to elevate your comfort, security and well-being, creating a travel experience beyond the ordinary.

**KABE caravans are built to impress – both on the road and once you arrive.**

## Scandinavian harmony

When you step inside a KABE, you're immediately welcomed by a sense of comfort, solid craftsmanship and elegant design. Carefully selected materials bring together aesthetics and lasting durability.

The KABE interior follows Scandinavian design tradition with light, harmonious tones, natural wood and measured contrast. Joinery, flooring and cupboard doors work together to make the space feel inviting, while black hardware – handles, hooks, taps and lamps – add a modern touch.

Every model has a seamless, sound-insulating ceiling lining that effectively reduces noise from both inside and outside, creating a calm, homely atmosphere.

The lighting is thoughtfully planned out with the perfect combination of ambient and task lighting. Switches are placed within reach and most lamps have dimmers – the right light for every moment. You can easily manage the lighting from the Smart D panel.

In the entrance area, a TV bracket that accommodates a screen up to 32 inches is included. The bracket is placed just inside the door and simply swings out. In CTDL and CXL layouts, a height-adjustable TV bracket is integrated in the sofa backrest facing the kitchen.

**In a KABE, it is the thoughtful design that turns every journey into something quite special.**

# Care in every detail

It is all the small details – and the great care – that make a KABE feel like home wherever you are. For us, it's about more than comfortable seating and a good night's sleep. It is also about durable, easy-to-maintain textiles and upholstery designed to meet the needs of today's caravanning families.

Our sofas are generously proportioned with ergonomic seat cushions for proper sitting comfort. In Gemstone, Royal and Imperial, the cushions have a high-grade Premium Foam fill, and all of our cushions have a non-slip underside so that they stay in place.

Let your personal taste guide your choice of fabrics. This year's collection offers a wide selection – four in fabric and two in leather. Estate features two fabric collections paired with a modern panel curtain. Leather is standard on the Imperial series and from 2027 leather is also available as an option on all Estate, Gemstone and Royal models.

A home to settle into – wherever you happen to be.

## Fabric upholstery and panel curtain

**NEW! HAMPSHIRE (black)**  
Estate – panel curtains only

**TULSA (beige)**  
Estate – panel curtains only

**NEW! HAMPSHIRE (black)**

Panel curtain option available (Royal, Imperial)

**SOMERSET (beige)**  
Imperial (standard)  
Estate, Gemstone, Royal (option)  
Panel curtain option available (Royal, Imperial)

## Leather upholstery and curtains with pelmets

# Room for everything the journey calls for

The lounge in KABE is designed for relaxing and spending time together, with plenty of room for people and all your belongings. Whether you want to unwind after a day on the road, gather friends around the table, or catch up on work in peace and quiet, our sofas always provide a comfortable place to settle in. Smart storage beneath the seats and practical cupboards above keep everything tidy and at hand.

KABE Imperial features luxurious leather upholstery in dark grey or beige. The clever slide-out function makes it easy to adjust both the seat and backrest for the right level of sitting comfort.

The corner sofa in Royal and Imperial has height and side adjustable headrests for complete relaxation (also included in Estate and Gemstone Comfort Packages). In Gemstone, Royal and Imperial, the table is adaptable with a practical fold-out extension when more space is needed. Rounded sofa corners and discreet lighting under the overhead cupboards add to the homely feel in the caravan.

The sofa converts quickly and easily into a generous extra bed – ideal for overnight guests like grandchildren or friends visiting.

In Gemstone, Royal and Imperial, an elegant drinks cabinet is located in the entrance area, with secure storage for bottles. Our smart design also makes room for a larger TV, so that you can enjoy the entertainment without sacrificing space (not for CTDL or CXL).

**New for 2027 – connect your phone over Bluetooth and control the music in the caravan.** IP radio lets you tune in to stations from home when you are travelling abroad. Royal and Imperial series include a media centre via Smart D 2.0. Speakers in the front corner section add to the cosy atmosphere. Imperial also features KABE Imperial Sound System with subwoofer and upgraded speakers – a genuinely powerful sound experience.

Every KABE includes a router for wireless networking, so your connected life travels with you. **For 2027, every series is upgraded with an external aerial for the router.** In the entrance area of Royal and Imperial, a wireless charging pad keeps your mobile within easy reach for convenient on-the-go charging.

**In KABE, there is always plenty of room to get together.**

# An inspiring kitchen

Every KABE kitchen is designed for everyday use. The layout is carefully planned out, with generous storage and features that make cooking easier. Clever touches give you extra workspace when you need it most. In Gemstone, Royal and Imperial 2027-models, kitchen drawers are upgraded with a sturdy metal insert for a tighter, more precise fit. Soft-close drawers and central locking are standard across all model ranges.

For 2027, the kitchen in every KABE is updated with a new, larger sink that has improved drainage. The gently sloping base allows water to drain more efficiently, while the generous size makes it easier to wash pots, frying pans and larger utensils – another thoughtful detail that makes everyday life on the road a little better.

A black mixer tap, a pull-out chopping board in carefully selected beech wood, and a functional cutlery drawer are all included too. And just like at home, you can sort your waste into separate compartments for straightforward, responsible disposal.

Every KABE caravan has a large, functional Thetford fridge with freezer compartment (Estate 470 GLE and Royal/Imperial 630 TDL FK have a slimmer fridge). A Thetford compressor fridge is available as an option across the entire model range.

In the Estate kitchen, the contrast between lighter and darker materials gives the space character and warmth. An efficient three-burner gas hob is included.

The Gemstone series features overhead cupboard doors and fridge front in the warm Atlas Zeder finish – to match the rest of the caravan. Onyx and Ametist/Smaragd XL come with a practical three-burner gas hob, while the smaller models are equipped with a compact corner hob.

In Royal, every overhead cupboard – kitchen included – features elegant fronts in the colour Cashmere. The bright Light Concrete worktop lifts the whole and gives the interior a modern, current feel.

For 2027, the Royal-series is upgraded with a new hob with two separate units – one induction and one "Gas-on-Glass". The induction technology cooks quickly and efficiently with precise temperature control, and the flat surface wipes clean easily. Smaller models feature a compact unit with two gas burners and one induction zone.

The kitchen in Imperial is far from an ordinary caravan kitchen. Here we've taken premium to the next level and created a kitchen environment for those who truly appreciate quality and design. The overhead cupboards feature high-gloss, soft cream-coloured doors that pair perfectly with the Light Concrete worktop. The exclusive Flexi mixer tap and the gloss black metallic fridge front reinforce the sense of luxury. All Imperial models feature our unique hybrid hob with two separate units – one induction and one "Gas-under-Glass". The smooth glass surfaces are both practical and easy to keep clean.

**New for 2027! An all-new convection oven, developed exclusively for KABE in collaboration with Thetford, delivers more even heat distribution and faster cooking.** Standard in Royal and Imperial and available as an option on Estate and Gemstone.

Replacing the traditional microwave is a new innovative combination air fryer, microwave and oven. It brings together multiple cooking functions in a single unit, for greater flexibility in the kitchen. Conveniently positioned beneath the refrigerator, it also creates a more uniform look across the overhead cupboards. Standard on Imperial and available as an option on Estate, Gemstone and Royal.

**In a KABE, cooking becomes a natural part of the journey – smooth, functional and enjoyable.**

# Sleeping comfort that takes you further

When you sleep well, the journey is better for it. In KABE, you can drift off in our comfortable beds with proper sprung mattresses, thick toppers and slatted bases that follow the body's shape (not for bunk beds). In combination with a sound-insulating ceiling liner, the perfect indoor temperature and fresh air, you'll wake up rested and ready for what comes next. A sense of well-being you can expect from KABE – every time.

Whether you prefer single beds or a generous double, the bedroom can be tailored to suit your family. For larger groups, our clever bunk beds stack up to three levels – efficient compact living and a cosy space of their own for the youngest. USB-C sockets are integrated in reading lamps and also placed beside bunks, so the children can game or watch a film – useful on rainy holiday days.

Beneath the lift-up bed is practical storage, and several models include an external hatch so you can reach the space from outside too.

The bed is more than just a place to sleep. It is where you curl up with a book or a magazine for a quiet moment. Our headboards are upholstered in soft suede-like fabric with an elegant 3D-effect. Ambient lighting in the headboard is included across the range, and an adjustable headboard is standard in Gemstone and Royal. In Imperial, the headboard is electrically adjustable (not for E9-bed). A matching bedspread is always included.

Night light on or off? The switch is conveniently located right by the bed.

Models with the XL bed solution include our DuoSpot reading lamp with three practical switches. Royal and Imperial models also feature a smart touch switch as standard for effortless light control.

Generous bedroom wardrobes and overhead cupboards provide ample space for everything you want to bring along.

**Sleep well, wake rested and meet the day.**

## A bathroom that feels like home

A private toilet and shower are something most of us want – for everyday convenience and a greater sense of home. The clean, contemporary design that defines your KABE continues seamlessly into the bathroom.

Would you prefer a generous bathroom with a separate shower cubicle, or a clever layout where the bathroom creates a natural divide between the different areas of the caravan? KABE offers several flexible solutions, so you can choose a bathroom that suits your family's everyday life and the way you travel.

Each bathroom follows the design language of its model series. In Estate, the feeling is warm and cosy, while Gemstone, Royal and Imperial have a light, harmonious bathroom interior that flows from the rest of the caravan. Every bathroom is planned for daily use, with clever storage, practical surfaces and details that make it easy to live with.

In our TDL models, the bathroom covers the full width of the rear and includes a separate shower cubicle. A matching laminate on the wall behind the mirror and inside the shower completes the elevated look, along with elegant Neonflex LED silicone lights (not for Estate).

A separate shower cubicle is also included on several other KABE models.

An external shower outlet with both hot and cold water is included on Royal and Imperial – ideal for rinsing muddy boots or your dog after an autumn walk.

Imperial raises the bar further with Thetford's ceramic toilet bowl. For selected floorplans, the Cinderella incinerating toilet is offered as an option. A heated towel rail is standard on both Royal and Imperial.

**A KABE bathroom delivers more – around the clock.**

# Smart KABE technology close at hand

**KABE Smart D** (European Innovation Award winner) puts many of the caravan's key functions at your fingertips. The control panel has a modern look and gives a clear overview of water levels and battery voltage, plus straightforward control of lighting, air conditioning, boiler and temperature. Smart alerts flag service needs or a tripped fuse.

Simply choose the language in the menu, just like on your smartphone.

- The Linux-based **KABE Smart D 2.0** with a 7-inch high-resolution touchscreen is standard on Royal and Imperial.
- Integrated audio system with IP radio and Bluetooth. Listen to your national radio stations via the internet (new features are introduced on an ongoing basis).
- OTA updates (Over-the-Air). Software updates are delivered automatically via the internet. To use the service, a router and an active internet subscription are required.
- Fast and responsive system. Advanced CAN-Bus communication with new I/O boards and updated software ensure high performance and rapid response.

With **KABE Connect**, you have everything under control. Manage your caravan's control panel directly from your phone – whether you are relaxing on the beach or standing on a ski slope. Switch on the air conditioning, turn up the heat, or set the ambient lighting for the evening. Everything is managed through our convenient app, which you can easily download from the Apple App Store or Google Play. Connect it to your caravan using the unique QR code on the control panel and contact your KABE dealer to purchase and activate the app.

The system runs on a powerful 4G router with an internal aerial and a mobile modem. For maximum coverage, 2027 models now include an external aerial. Beyond controlling the caravan's functions from your phone, you also have access to a stable, fast internet connection on the move. KABE Connect\* is an option on Royal and Imperial.

**KABE Smart Level** (winner of the European Innovation Award) keeps track of the gas level\*\*, tyre pressure and the caravan's level of tilt. No more worrying about when the gas might run out. Correct tyre pressure improves safety and efficiency on the road. The level indicator shows how the caravan is positioned when set up – important for both comfort and the way everything works inside. KABE Smart Level is standard on Imperial and available as an option on Royal.

**From model year 2027, the 100 Ah lithium battery comes as standard across the Royal and Imperial ranges. It offers ample power reserves and low self-discharge.**

**In control – with KABE Smart technology.**

\* A 36-month subscription is included with your purchase of KABE Connect. After that, an annual fee applies for continued app access. A separate mobile data plan is also required. \*\* Requires a compatible gas cylinder, not for composite bottles.

# Built the KABE way

You recognise a KABE right away – by the design, the colour palette and the confident silhouette. The real difference, though, lies beneath the surface. In-house engineering and proprietary systems work together as a carefully considered whole, and every detail contributes to KABE's exceptional standard.

Each caravan is built on a purpose-engineered chassis for stable towing. The strong, moisture-sealed body pairs with our well-insulated heating and ventilation system to create the right conditions for comfortable year-round living, in any climate.

### Ready for every season

The European climate is demanding, from hot summers to cold winters. Our caravans are engineered to handle the weather, the road and rapid swings in temperature. Advanced body construction and our proprietary Smart Climate System, work together so that insulation, air circulation and heat keep the indoor climate stable and comfortable. Underfloor heating delivers an even temperature across the entire living area, while the layout and furniture placement facilitate efficient airflow.

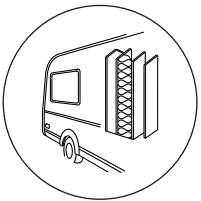

For warmer days, the efficient Dometic FreshJet FJ2600 roof-mounted air conditioner is available. The unit is quiet, low on energy use, and easily controlled via remote, the touch panel, the Dometic Climate app or directly from the KABE Smart D panel. A night mode with reduced fan speed is also included. Standard on Imperial and an option on other models.

With more than 65 years of experience, we know what it takes. We build caravans we want to travel and live in ourselves – inviting, practical, and ready for every season.

### Thoughtfully engineered. Built with care.

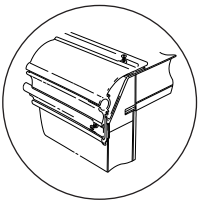

Want to know more? Continue reading on the following pages.

## SWEDISH CRAFTSMANSHIP FROM THE GROUND UP

### Strength and moisture protection – KABE iWall construction

- The body is built on the sandwich principle: exterior body panels, 36 mm Ecoprim insulation, inner body panels and a wall lining that absorbs any condensation.
- Ecoprim is a moisture-resistant material made with closed cells, so it cannot absorb any moisture.
- Aluminium panels on both sides of the Ecoprim insulation significantly reduce the impact of temperature differences.

### Double-screwed aluminium profile for superior structural integrity

- A custom-designed, extra-wide profile at the joint between roof and wall.
- The profile incorporates an air gap that ventilates the joint between wall and roof.
- A built-in awning rail is included on both sides of the caravan.
- KABE's unique iWall construction provides an unlimited number of fastening points – important for installing optional equipment.

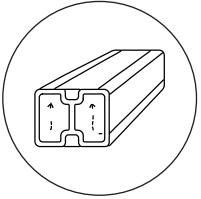

### Watertight roof joints

- First, the joint between the roof and wall is carefully sealed with elastic butyl compound.
- Next, the roof panel is folded over the wall panel – overlapped – to completely prevent leaks.
- Butyl tape is used throughout on every panel seam, overlap and screw penetration.
- Approximately 20 kg of sealing compound is used for each caravan.

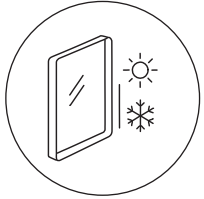

### Built for heavy loads such as large amounts of snow on the roof

- Extra beams between the longitudinal chassis rails provide a more stable floor and a chassis with extra torsional rigidity.
- Crossbeams ensure optimal stability.
- Outriggers extend from the longitudinal side rails to relieve the weight where the floor and wall are joined.

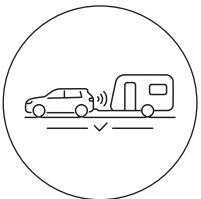

### KABE's composite profiles are built to last

- KABE uses composite profiles with integrated air channels on every part of the body that is exposed to moisture.
- A patent is pending for the KABE-designed composite profiles.
- Our composite profiles have excellent insulating properties.
- The composite profiles also improve the bond between the different parts of the body.

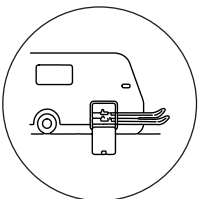

### Double-glazed, well-insulated windows throughout the caravan

- Energy windows with polyurethane frames seal against the double glass for optimal insulation.
- The window frame is insulated with built-in ventilation, which prevents condensation on the inside of the glass when the curtains are drawn at night.
- The smooth and tinted exterior window panes reduce solar gain.
- Integrated adjustable insect screens and blackout shades are included in all windows.
- All windows open continuously (except the kitchen window and the windows in our Estate models). An opening front window is standard on all models except for Estate.

### KABE Safety Driving System delivers comfortable, safe towing

- Chassis built with hot-dip galvanised steel profiles.
- An electronically controlled anti-sway system adds extra stability on the road (not for Estate, optional on Gemstone).
- Axles that provide comfortable, stable towing.
- Longer, stabilising drawbars.
- Every caravan is equipped with friction stabiliser coupling.
- Single-axle caravans feature premium-quality tyres.

### Smart and easy-to-access storage

- Pull-out, heated ski locker with built-in lighting.
- An LED indicator on the inside switch shows whether the light is on or off.
- External storage hatch with integrated airflow channels under the bed.
- The external storage hatch makes it easy to access the storage space under the bed from outside (standard in Royal and Imperial).
- Royal and Imperial layouts with twin single beds feature a loading hatch on both sides of the caravan to access the storage space.

## THE DETAILS THAT MAKE THE DIFFERENCE

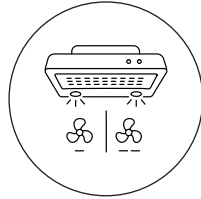

### Soft, light-reflecting ceiling lining that insulates and minimises outside noise

- KABE is the only manufacturer with a soft ceiling lining, which improves the acoustics inside the caravan.
- The soft ceiling lining reduces sound and noise from the outside (rain and wind, for example) and also improves the insulating performance of the roof.

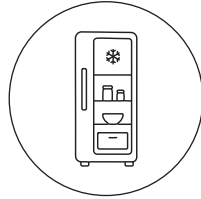

### Furniture construction and interior design shaped by solid Swedish craftsmanship

- All furniture and joinery is made in KABE's own workshop.
- Scandinavian design throughout every interior.
- Overhead cupboard doors open with a light touch.
- The kitchen drawers are equipped with soft-close and central locking.
- Robust, durable interior optimised for low weight.

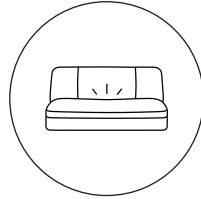

### A kitchen that feels like home

- Built-in cooker hood with lighting and two fan speeds.
- The hood has a removable grease filter for easy cleaning.
- Electric ignition on the hob.
- The market's best fridge ventilation, vented through the roof.

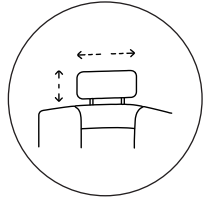

### A compact kitchen with flexible, practical design

- Integrated pull-out leaf in the kitchen table provides additional space (not for Estate models or with pedestal tables).
- Several models feature a practical pull-out wire shelf in the kitchen area.
- Generous worktop with plenty of room for meal prep and extra surface space.
- Large 167-litre fridge with freezer compartment (not for Estate 470 GLE and Royal/Imperial 630 TDL FK).

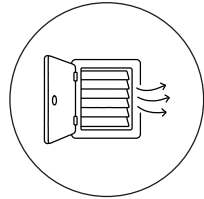

### Premium seating comfort

- Ergonomically shaped sofas filled with age-resistant, recyclable Premium Foam.
- Carefully selected upholstery fabrics with exceptional durability.
- Several upholstery collections to choose from with the option to combine curtain sets in two styles (modern panel curtains or classic curtains with a pelmet) with cushion covers.

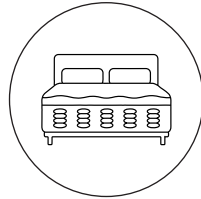

### Thoughtful sofa solutions

- Adjustable lift-up sofas make cleaning easier.
- Accent pillows are standard in Royal and Imperial.
- Slide-out function with easily adjustable seat and back cushion is standard on Imperial.
- Adjustable headrest in the corner sofa, height and side-to-side (standard in Royal and Imperial, included in Estate and Gemstone Comfort packages).
- Non-slip backing on the underside of every cushion keeps them firmly in place.
- Leather upholstery is standard on Imperial.

### Clever touches in the bedroom

- Ventilation hatch in the bedroom lets you air out the caravan quickly.
- Magazine pocket by the bedside that is easy to reposition on hook-and-loop tape.
- Under-bed storage drawer with lighting.
- Smoke alarm and residual-current breaker (RCD).

### Unbeatable sleeping comfort

- Sprung mattresses and thick toppers (not for bunk beds) ensure a good night's sleep.
- Beds with an adjustable headboard make reading in bed extra comfortable (not for Estate).
- Electric adjustable headboard (standard Imperial, included with Gemstone Comfort package and available as an option on Royal).
- Headboard with integrated ambient lighting.

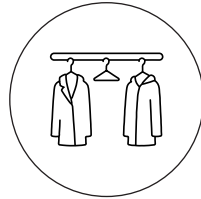

### Flexible bed design

- Beds with articulated slats adapt to the body as you rest.
- The beds have a lift-up function and are equipped with soft-close for easy cleaning under the bed.
- Under-bed drawer with proprietary convectors by the storage-hatch opening provides better heat in the sleeping area.

### Shower whenever you like

- Shower tray, water-resistant wall covering, practical pull-out hand shower and shower curtain are available in our various models.
- Several floorplans include a separate shower cubicle.
- External shower outlet with both hot and cold water (standard in Royal and Imperial).

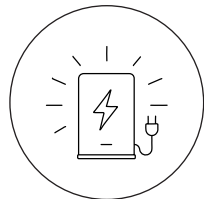

### Drying cupboard, heated shoe compartment and entrance wardrobe

- Drying cupboard with a custom-designed drip pan for drying shoes is included in several models.
- The drying cupboard has a special convector and an adjustable ceiling vent for maximum heat circulation.
- Heated shoe compartment located just inside the door.
- Entrance wardrobe with room for outerwear.

### Smart lighting – around the clock

- Light bars with built-in spotlights.
- Royal and Imperial models have a light bar and integrated light strips in the front-lounge windows.
- Night lighting with a switch by the bed.
- Interior switch for the exterior lighting, gas and ski compartment lighting.
- Lighting inside wardrobes and in under-bed drawers.
- Modern touch switches.
- Dimmer included on most lights.

### Powerful charging for everything you plug in

- Electric box with 230 V inlet and 16 A automatic fuse with residual-current breaker, indicator lights, 230 V / 12 V sockets, TV socket for cable TV and outside TV (not for Estate).
- Indicator lights show the power supply status.
- Illuminated electrical box (standard in Royal and Imperial).
- High-capacity 25 / 30 A battery charger.

### Full control – KABE Smart D 2.0 (included in Royal and Imperial)

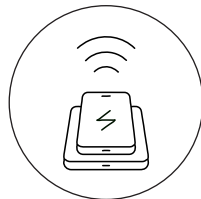

- Easy-to-operate control panel with touchscreen display.
- The electrical system monitors battery state and charges automatically when needed.
- The system tracks water levels, temperature and battery voltage.
- KABE Connect is available as an option on Royal and Imperial.

### KABE Smart Level with three key functions

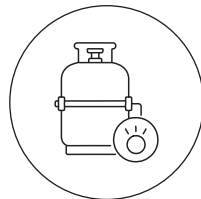

- The panel shows the gas level (when using a single gas bottle, not a composite bottle), so you never have to worry about running out unexpectedly.
- The tyre-pressure sensor helps you keep the right pressure in every tyre.
- A level indicator shows the caravan's tilt when setting up.

Standard on Imperial and an option on Royal.

### Connect and unwind

- DSP-box with Bluetooth in all models.
- Media centre is included in the Smart D 2.0 system (standard in Royal and Imperial). In Imperial, KABE's Imperial Sound System with subwoofer is also included.
- Built-in front speakers are included.
- Wireless router with an external aerial is standard in all 2027-models.
- Adjustable TV bracket in several models.
- Wireless charging pad for mobile phones in the entrance area (standard in Royal and Imperial).

### Safe, easy gas handling

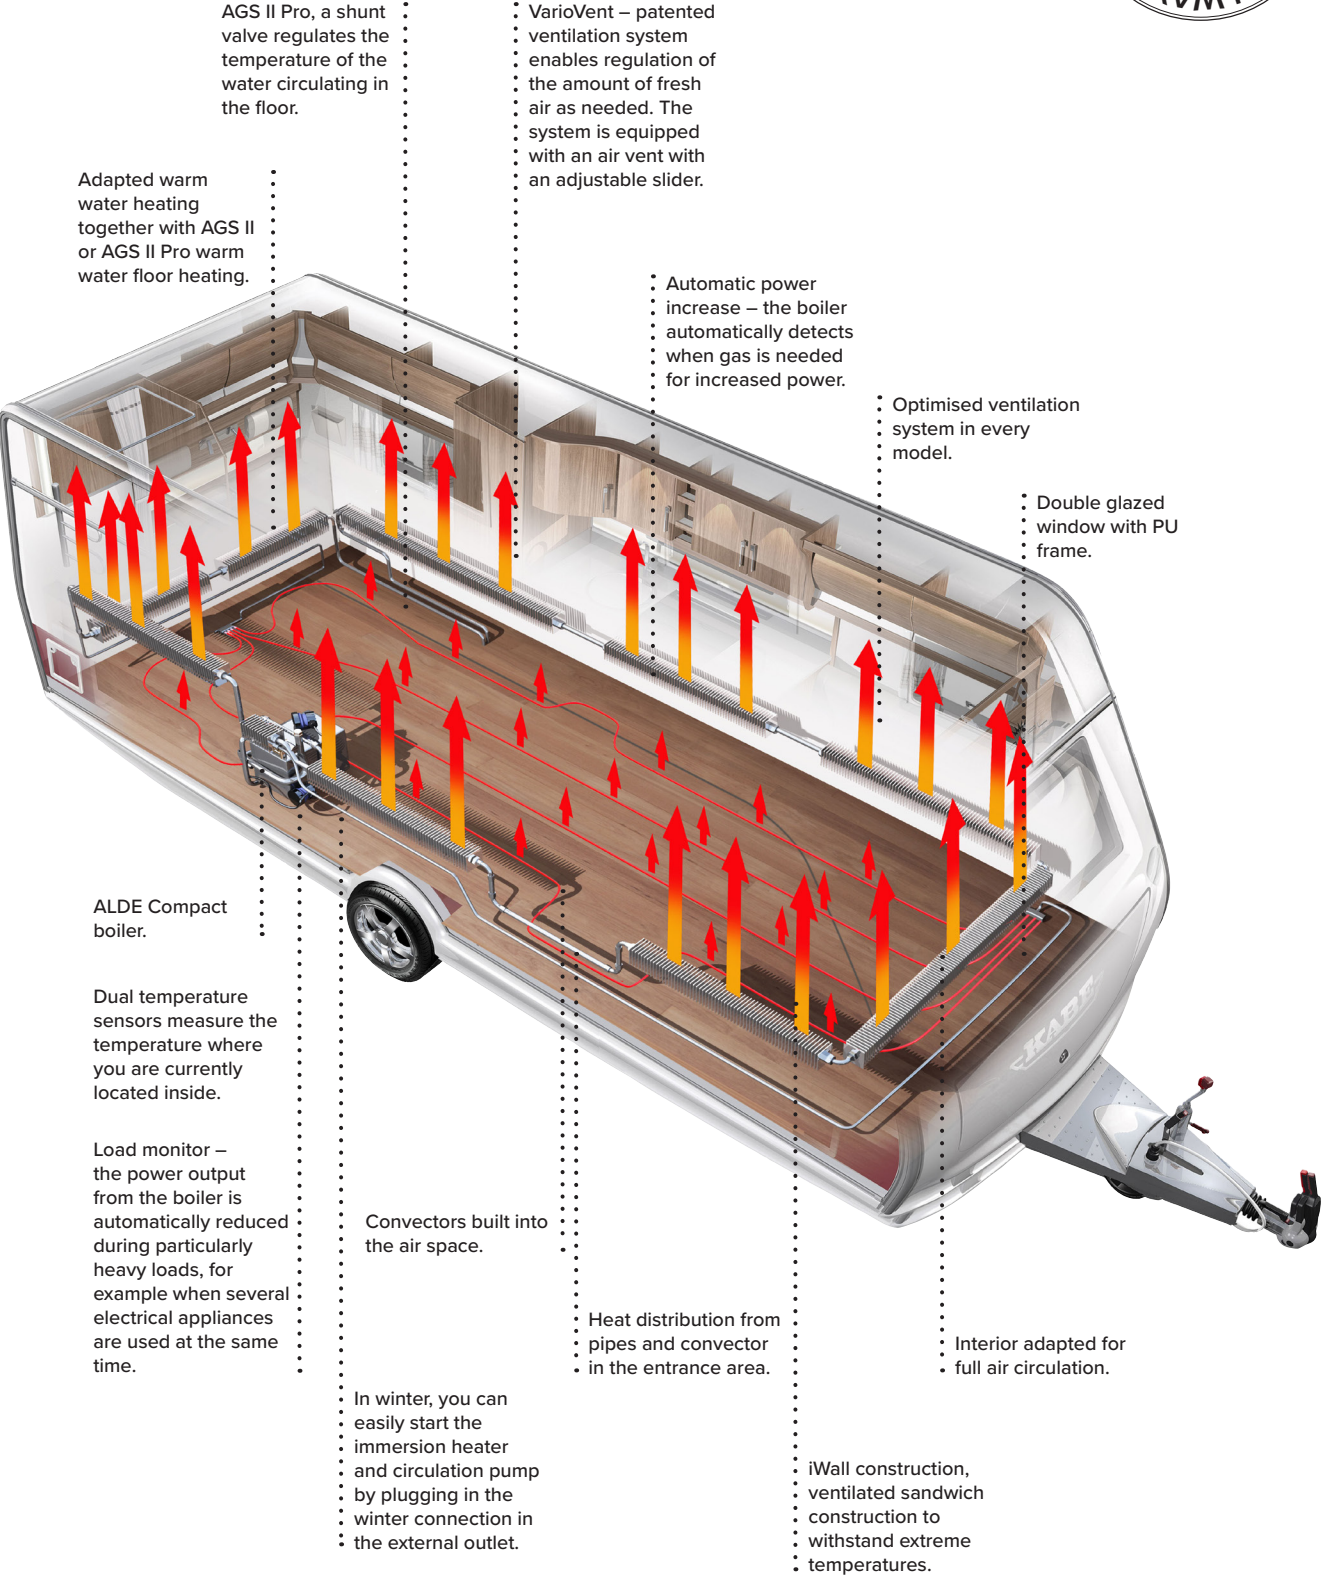

- The gas compartment is integrated into the front of the caravan.
- Space for two gas cylinders and extra storage.
- The gas compartment has a raised edge to prevent items from falling out when you open the door.
- Lighting inside the gas compartment, an exterior gas outlet for a barbecue and a leak indicator for manual checks of the gas system are included.
- Removable moulded protective mat in the gas compartment.

## KABE CARAVAN – HEATING SYSTEM

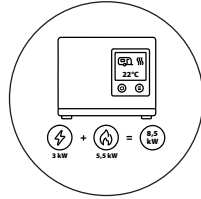

## BUILT FOR YEAR-ROUND TRAVEL

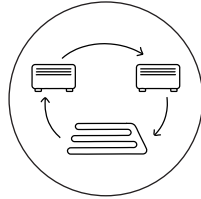

### Climate-smart technology in every KABE caravan

- ALDE Compact boiler.
- AGS II or AGS II Pro water-based underfloor heating.
- Maximised convector lengths, packed in tightly.
- Optimised ventilation system.
- Interiors designed for full air circulation.
- iWall construction.

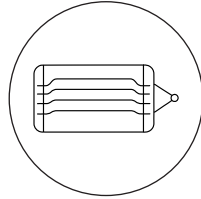

### Stable indoor temperature whatever the weather outside

- ALDE Compact 3030 boiler with touchscreen display and a 3 kW electric element, plus propane operation rated at 5.5 kW (5500 W) – giving a combined output of 8.5 kW.
- The heating system runs a 12 V circulation pump, integrated hot-water heater and separate expansion tank.
- A jacket around the gas unit maximises hot-water output.
- Several models have a roof flue for maximum operational reliability.

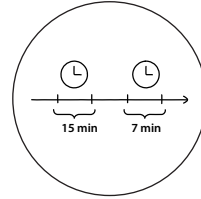

### Even heat throughout the living space

- The underfloor heating is connected to the convector system, allowing warm air to circulate throughout the entire caravan when the heat is turned on.
- The system runs on both gas and the electric element.
- KABE features extra-wide convectors under every window to draw maximum heat into the airflow and help eliminate condensation on the glass.

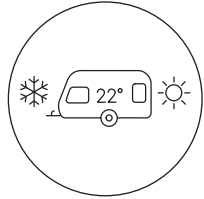

### Warm floors with KABE's AGS II

- AGS II – developed in-house and patent-pending, automatic water-based underfloor heating system with four circuits – delivers even heat across the floor.
- The heat circulates through aluminium pipes and reaches all the way to the entrance door, kitchen area and bathroom.
- Heat-distribution plates ensure even warmth across the entire floor.

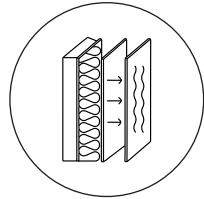

### AGS II Pro – the right underfloor heating, all the time

- With AGS II Pro (standard in Gemstone, Royal and Imperial), the under floor heating can operate independently.
- A mixing valve regulates the temperature of the water circulating in the floor.
- To reduce energy use, the system runs in timed intervals – water circulates at set intervals, reducing the load on the boiler and conserving battery power.

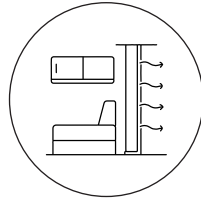

### Always a comfortable interior climate

- KABE's insulation in walls and windows keeps the caravan warm in winter and cool in summer.
- To prevent cold draughts we pay particular attention to the insulation around fresh-air intakes and heat convectors.
- The insulation ensures optimal heat exchange.
- Dual temperature sensors – one in the bedroom and one in the front lounge – allow you to tailor the heat to the area you happen to be in.

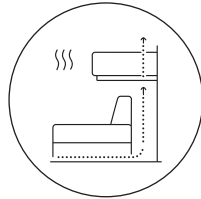

### A better indoor climate with interior metal wall panels

- KABE's sandwich construction consists of an exterior metal panel, Ecoprim insulation, interior metal panel and the wall lining.
- Heat from the radiators rises along the walls.
- The metal panel behind the wall lining is warmed by the indoor temperature, helping to prevent condensation.
- The interior metal panel distributes heat evenly across the entire wall surface – unlike plywood walls, which have virtually no heat-conducting properties.

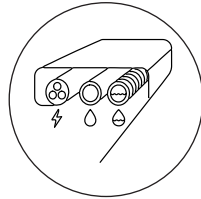

### Ventilation that guards against moisture damage

- KABE is the only manufacturer to use a breathable wall lining, which lets the warm air circulating up the walls pass through.
- Condensation at floor level is caught by the ventilating mat installed along the outer edge and is then dried out when you switch the heat on.
- KABE's wall lining also reduces noise.

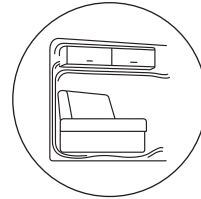

### Considered heat distribution in every corner

- KABE's construction gives the air a clear path: from the floor, under beds and sofas, up to the ceiling and through the ventilated overhead cupboards.
- KABE achieves the best and most even heat distribution on the market – not only in the living area and the rest of the interior, but also in wardrobes, bathrooms and overhead cupboards.

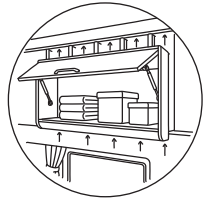

### Efficient and energy-saving details

- Maximum heat is drawn from the convector and accelerates the airflow up the wall.
- Sofa backs and cable channels are angled to keep the airflow moving freely past the windows.
- Electrical wiring, water and grey-water hoses run inside the cable channel.
- In winter the construction quickly thaws any residual water in the hoses.

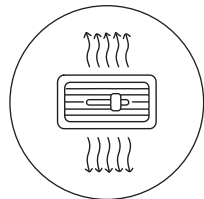

### Optimal air circulation

- The distance between sofas and beds, and the angle of the sofa backs, are precisely calculated.
- This creates an air gap that allows full airflow beneath bed boxes and beds.
- Sofa backs and the air gap by the beds warm up as the heated air travels along the wall.

### Free airflow – all the way through

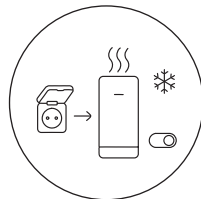

- The overhead cupboards have built-in air channels so that warm air passes freely along the ceiling-to-wall joint and on toward the middle of the caravan.
- A divider at the back of the cupboard keeps the channels open even when the cupboard is full.

### KABE's unique VarioVent – flexible fresh-air intake

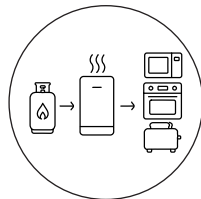

- The patented ventilation system allows you to adjust the amount of fresh air as needed.
- The system has a vent opening that is controlled by a slider.

Not included in the Estate-series.

### Ready for winter with KABE's winter setting

- The KABE winter setting is invaluable for caravans used on site during the colder months. The electric heating element and circulation pump start with a single switch. Simply connect to a 230 V mains supply via the external socket, and the winter setting activates automatically at the pre-set temperature.

### Automatic power boost and load monitoring

- The boiler senses automatically when gas is needed for extra output.
- Electric draw from the boiler is reduced automatically under particularly heavy load – for example, when several electrical appliances run at once.

# Safety in every mile

We know the road can present real challenges. Slippery surfaces, heavy rain and sudden temperature shifts are everyday conditions for many caravan owners. That's why safety is a non-negotiable priority.

Choose a KABE and you choose a caravan built in one of Europe's most advanced production facilities – engineered to deliver an enjoyable towing experience and complete confidence, whatever the weather and road conditions.

Every KABE comes equipped with our in-house developed KABE Safety Driving System – a safety package that makes towing more secure than ever. The system is based on a stable chassis with extra-long drawbars and an axle that effectively counters sway.

In Royal and Imperial models an advanced electronic anti-skid system is included as well. The system reacts within thousandths of a second when the caravan starts to sway, stabilising the whole outfit with a smooth, controlled braking input.

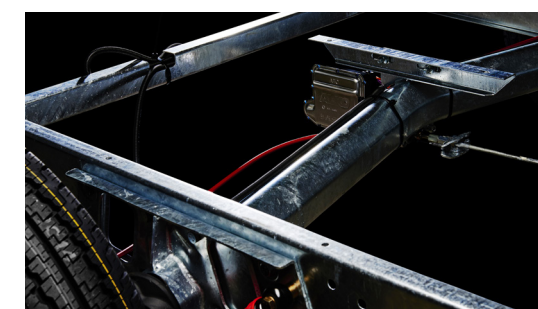

A friction stabiliser coupling has long been standard across KABE's entire model range, as have premium tyres engineered to handle the demands of the road with even better grip and stability.

**Safe all the way – and secure at every stop.**

## KABE Safety Driving System

A stable chassis built from hot-dip galvanised steel profiles, longer drawbars and anti-sway axles delivers safe, comfortable towing. The electronic anti-skid system is standard in Royal and Imperial and available as an option on Gemstone (not available for Estate).

## Extra torsion-resistant chassis – built-in stability

Additional cross-members between the longitudinal chassis rails give a more stable floor and a chassis that resists torsion. Strategically placed intermediate beams and outriggers from the side rails take the load off the body shell under heavy stress – ideal for handling heavy loads, when a thick layer of snow builds up on the roof, for instance.

## Premium tyres and friction stabiliser coupling

All KABE caravans are equipped with friction stabiliser coupling for added safety and stability on the road as well as premium tyres. Estate models are delivered with 14-inch steel wheels and 15-inch alloy wheels are offered as an option with the Design Package. Gemstone and Royal have 15-inch alloy wheels as standard while Imperial features exclusive 17-inch Diamond Cut alloy wheels (available as an option on Royal).

Models with a maximum permissible weight of 2,300 kg are equipped with 16-inch alloy wheels, while models with a maximum permissible weight of 3,500 kg have 15-inch alloy wheels.

# Tested for the real world

Every detail is the result of careful planning, thoughtful design and robust construction. To ensure that each model meets our strict standards, we test function, durability and safety extensively. In our advanced climate chamber we expose the caravans to extreme temperature differences – up to 90 degrees – to simulate real conditions year-round. We test the moisture resistance, airflow, electrical systems, structural endurance and more. All to give you a caravan you can rely on – every season, every journey.

**Built to last – year after year.**

## CLIMATE CHAMBER

Our caravans are tested under extreme conditions to guarantee durability and comfort in any climate.

## EXTREME TEMPERATURE TESTING

Each caravan is exposed to temperatures ranging from -35°C up to +55°C to perform in any climate and weather conditions.

## QUALITY CONTROL

Thermal imaging is used to confirm that the entire structure meets KABE's strict quality standards.

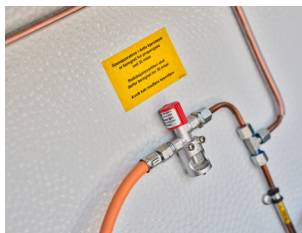

## EXCEPTIONAL WATER TIGHTNESS

Advanced techniques verify that the caravans are completely sealed and free of leaks.

## VENTILATION

Proper ventilation is essential to comfort and safety. We make sure the system performs exactly as intended.

## GAS SYSTEM

The gas system is pressure-tested for safe, efficient operation.

## ELECTRICAL SYSTEM

The electrical system and every core function are checked methodically before the caravan leaves the factory.

## DURABILITY TEST – ON THE ROAD

Our shaker rig replicates up to 100,000 km of normal driving to prove long-term durability and resistance to wear.

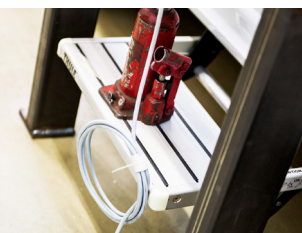

## OPTIMISED WEIGHT DISTRIBUTION

Calibrated scales balance the load precisely across the axles.

## TOWING CAPACITY

Specialised equipment measure towing performance to sharpen stability and on-road safety.

## STRUCTURAL STRENGTH

Pressure tests verify how each caravan holds up under various loads.

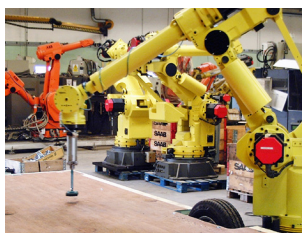

## AIRFLOW

Smoke trails reveal exactly how air moves through the caravan, allowing us to fine-tune and optimise every airflow path.

## RAIN CHAMBER

In the rain chamber, each caravan is subjected to high-pressure water to confirm a watertight seal.

## ENDURANCE TEST – BODYWORK

Every section of the bodywork is tested for structural integrity over time.

## MANUFACTURING

Modern production engineering and meticulous quality assurance run through the entire build process.

2027 model range

Which KABE suits you best? We know that everyone’s needs are different, which is why we offer four series – each with its own character and strengths. Whichever model you choose, you get a caravan built for the Nordic climate, with the year-round comfort, advanced safety systems and smart details that define KABE. Every model is generously equipped from the outset, so you get more from the very beginning.

KABE ESTATE

Our entry-level series combines smart functionality and clean design with reliable all-season performance.

KABE GEMSTONE

For those who want a flexible layout, high levels of comfort and generous standard equipment from day one.

KABE ROYAL

A complete home on wheels, offering thoughtful solutions, exceptional comfort and KABE quality in every detail.

KABE IMPERIAL

Our most exclusive series, featuring extra-spacious, lavishly equipped models. Exceptional living with a true sense of luxury.

KABE Flexline

Your caravan, your way. KABE Flexline lets you tailor your caravan to the way you travel. Use the configurator on KABE's website [www.kabe.se/en](http://www.kabe.se/en), to choose the model, layout, upholstery, equipment and options. Once you've finished, you'll receive a complete specification of your KABE, together with pricing and details of your nearest dealer.

CHOOSE YOUR LAYOUT IN 4 STEPS

1. Choose model and interior length

Our caravans are available in four series:

|          |            |
|----------|------------|
| Estate   | 473-660 cm |
| Gemstone | 473-630 cm |
| Royal    | 522-720 cm |
| Imperial | 550-940 cm |

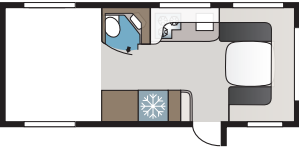

2. Choose interior width

Our models come in two interior widths:

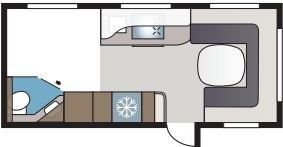

|           |        |
|-----------|--------|
| Standard  | 215 cm |
| King Size | 235 cm |

3. Choose between three floorplans

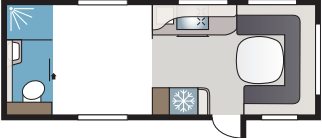

GLE: Bathroom and shower along the side in the middle of the caravan.

XL: Bathroom and shower (or DXL shower cubicle) in the rear corner.

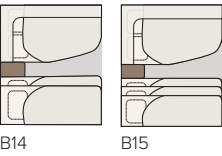

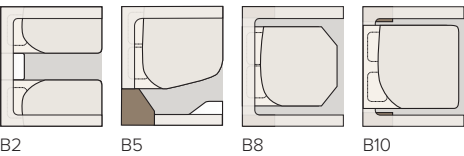

TDL: Bathroom with a separate shower cubicle spans the full width across the rear.

4. Choose between 12 Flexline options

GLE

Select a floorplan...

XL

Select floorplan...

TDL

Select a floorplan...

We also offer several clever bunk-room layouts and a wide range of other models.

# 10 strong reasons to choose KABE

## 1. Year-round comfort

KABE caravans are built to perform every season – from the coldest winters to the hottest summers. We never compromise on insulation, ventilation or heating. The body is constructed with our own iWall technology, which delivers maximum stability and protection against moisture. Every model comes equipped with the ALDE Compact 3030 boiler and water-based underfloor heating. Thoughtfully designed seating and sleeping comfort lets you relax by day and enjoy a good night's sleep. Many of the features that make your KABE ideal for year-round use are built in and not always visible at first glance, but you'll feel the difference the moment you step inside.

## 2. Superior craftsmanship

A KABE caravan is built with solid Swedish craftsmanship in every detail. Each model is developed from the ground up at our own development centre in Tenhult, Sweden. We invest continually in innovation and product development, and every model year brings something new. Production takes place in our own factory, one of the most modern in Europe. Skilled specialists handle every discipline, from electricians to joiners, and our suppliers are among Europe's leading names in their respective fields.

## 3. Value that lasts

Whichever KABE model you choose, you'll enjoy benchmark quality in its price class. Many features that come as standard on a KABE are paid extras elsewhere. We deliver thoughtful solutions and durable functionality, which is why a KABE holds its value for years to come.

## 4. Modern engineering

Every KABE includes the latest engineering, and even in standard trim ranks among the best-equipped caravans on the market. We invest heavily in forward-looking solutions to meet the challenges ahead. Our commitment has earned us several industry awards, including for ventilation and heat recovery. Everything you need for a comfortable journey is already on board. So before you compare prices, take a closer look at what a KABE actually includes.

## 5. Scandinavian design

KABE's design is inspired by the Scandinavian tradition – with light tones and natural materials that give every interior an open, airy feel. Look closely and you'll find thoughtful details such as flush-fitting drawer fronts, rounded corners and ergonomic seat cushions. Only carefully selected materials are used to create the unique KABE feel, where design and function go hand in hand. The exterior is equally refined, with timeless lines and graphics that give each KABE its own character.

## 6. Practical solutions

With more than 65 years of experience building caravans for year-round use, every KABE is packed with clever touches that make your caravanning lifestyle as easy and relaxing as it should be. From the practical illuminated ski locker and central locking for the kitchen drawers to a USB-C socket placed exactly where you need it – it's the little things that make everyday life on the road in your KABE even better.

## 7. Climate and environment

Environmental responsibility runs through everything we make. We push for a cleaner, more accountable caravan industry. KABE supports the UN Sustainable Development Goals and actively promotes fair working conditions, diversity, equality and high standards of business ethics. From the materials we choose and the way we build to energy use and emissions, the environment is part of every decision we make.

## 8. Safety and peace of mind

Buying a KABE is an investment in worry-free travel. We want you to feel confident in your caravan, which is why our authorised dealers offer a full seven-year water tightness warranty on every new model. On the road, our caravans are equipped with several active safety systems. And should an accident occur, KABE's passive safety systems are designed to protect you in a collision.

## 9. Authorised dealers and service

KABE's authorised dealers and service centres are located across Scandinavia and in several European countries. Our dealers offer expert advice and help with finance and insurance. Once you're on the road, more than a hundred authorised workshops across northern Europe are ready to provide professional service and support. Many have worked with KABE for decades, so you can travel with confidence, wherever the road takes you.

## 10. Maximum flexibility

There's a KABE for everyone. It's just a matter of finding the right size, layout and specification for you and your family. Once you've chosen a model, KABE Flexline helps you tailor it to your needs. You can easily build your KABE online with our product configurator at [www.kabe.se/en](http://www.kabe.se/en), or visit your local dealer for personal guidance.

# KABE Estate

KABE Estate is the ideal entry-level model for those looking for a practical and functional caravan – and an excellent choice for families with young children. Available in a range of sizes, it offers reliable year-round performance and all the qualities that define a KABE. With its modern design and sporty exterior, Estate is a great-value choice for anyone seeking comfort and reliability on the road.

## Standard equipment in every KABE caravan

- ▷ KABE iWall – a solid bodyshell engineered for extreme temperatures
- ▷ Knott chassis with self-adjusting brakes (Estate only)
- ▷ Smooth exterior panels with unique 3D-effect graphics
- ▷ Screen door
- ▷ 40x40 cm roof window
- ▷ Pull-out illuminated ski locker with a lockable hatch
- ▷ Well-insulated double-glazed windows
- ▷ Maximum radiator coverage (convectors) for the water-based heating system
- ▷ Optimised ventilation – efficient airflow, year-round
- ▷ Drying cupboard with a drip tray for shoes and a closable vent
- ▷ Water-based AGS II underfloor heating with ALDE Compact boiler
- ▷ Ventilation hatch
- ▷ Three-burner gas hob with electric ignition
- ▷ Extractor hood with grease filter and lighting
- ▷ Large Thetford fridge with freezer compartment (not for Estate 470 GLE and Royal/Imperial 630 TDL FK)
- ▷ Soft-close kitchen drawers plus a sink cover
- ▷ Two textile collections with ergonomic seat cushions and non-slip underside
- ▷ Accent pillows (only in the front for Estate)
- ▷ Bed with exceptional sleeping comfort, sprung mattress, topper and bedspread
- ▷ USB-C sockets in reading lamps and by bunk beds, plus a bedside magazine pocket
- ▷ Smoke alarm and residual-current device
- ▷ Gas leak detector
- ▷ Generous LED lighting with a dimmable ceiling light in the front section
- ▷ New! DSP box with Bluetooth connection to your phone
- ▷ Router
- ▷ New! External router aerial fitted as standard on every model

For a complete list of standard equipment, see pages 80-83.

Estate options are listed on pages 52-53.

# KABE Estate 2027 – smart, flexible and full of possibilities

KABE Estate is a favourite with families and travellers looking for exceptional value for money. With 6 models and 10 layouts, including bunk-room versions in two lengths, there's an Estate for almost any way of travelling. For those who prefer to travel light, there are more compact alternatives that offer the same level of comfort and thoughtful solutions.

**New for 2027!** The exterior 3D-effect graphics are updated with a semi-matt finish, a larger sink with a gently sloping base for improved drainage, a DSP box with Bluetooth and an external aerial for the router.

## An interior that elevates everyday life

Estate offers a bright, modern interior, with large kitchen and lounge windows that let daylight pour in. The overhead cupboards in Grau create a clean contrast with the darker Nussbaum Ombre finish, while black details such as taps, handles and switches add a contemporary edge.

The kitchen is well-equipped, with smart storage and a new, larger square sink fitted with a cover that doubles as extra workspace. The Elero worktop features an elegant stone-effect finish and clean lines. Perla finish on the table and side units creates a cohesive interior. The ambient lighting, with indirect light along the ceiling and upper cupboards, is warm and welcoming.

The beds have padded headboards and comfortable mattresses for restful sleep, easy reading or simply a moment to unwind. In XL models with King Size layout, the rear bed is wider with extra sleeping space.

The clean, contemporary design continues in the bathroom, with an Urban Style worktop and black details.

**For 2027, the Estate 600 GDL features an updated bathroom with a separate shower cubicle – a practical enhancement that improves both comfort and functionality on every journey.**

Our smart electrical system with a touch panel makes it easy to control everything. The TV bracket in the entrance area accommodates TVs of up to 32 inches.

Choose between Hampshire in black or Tulsa in beige.

## INTERIOR DETAILS

- **Wood laminate:** Nussbaum Ombre
- **Floor:** Dark
- **Overhead cupboard doors front/rear:** Grau, wood edging, black stripe
- **Kitchen cupboard doors:** Grau, wood edging, black stripe
- **Kitchen worktop:** Elero laminate
- **Fridge door:** Matt black
- **Table, side unit and entrance storage unit:** Lucido laminate
- **Bathroom worktop:** Urban Style laminate
- **Bathroom cupboard doors:** Nussbaum Ombre
- **Wardrobe doors (bedroom):** Grau, wood trim
- **Fabric collections:** Hampshire (black), Tulsa (beige)
- Leather is available as an option

## Design that stands out

On the outside, Estate features smooth panels, black window frames and a sporty silhouette with sweeping graphics and a new semi-matt finish for the 2027 model year. It is built on a Knott chassis with self-adjusting brakes. For 600 and 660 models, an upgraded chassis with a gross weight of 2,300 kg is available as an option.

The Estate series offers 6 models and 10 floorplans.

Estate 470 XL (XV2)

Estate 470 GLE (B2)

Estate 560 GLE (B2, B14, B15)

Estate 600 GDL (2- and 3-tier bunk beds)

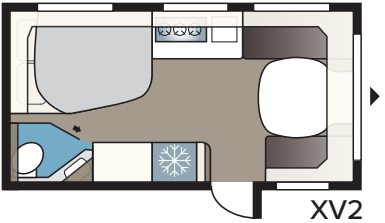

Estate 600 TDL (E2)

Estate 660 DGD (2- and 3-tier bunk beds)

15-inch alloy wheels are included in the design package.

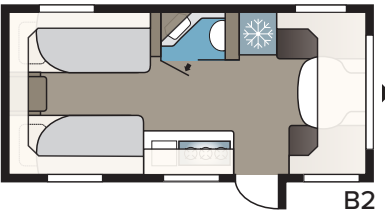

## Estate 470 XL

KABE Estate 470 is the smallest model in the Estate series – a perfect touring caravan with XL layout for one or two. Single-axle and compact, yet equipped with KABE's full year-round comfort. Choose King Size width and the rear bed is a touch wider.

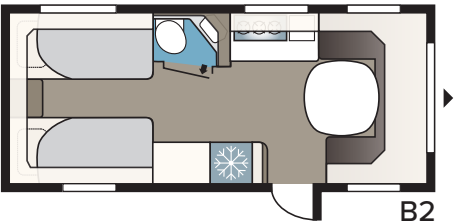

| TECHNICAL SPECIFICATION |                     |
|-------------------------|---------------------|
| Overall length          | 687 cm              |
| Overall height          | 278 cm              |

# KABE Gemstone

The Gemstone series is one of our most popular, created for those who want a little more as standard. Whether you're looking for a compact caravan, a more spacious layout, a flexible interior or a lower overall weight, there's a Gemstone to suit your way of travelling. With thoughtful design and generous standard equipment, it is an attractive choice for comfortable year-round living.

## Extra standard equipment in Gemstone

(on top of everything that is included on Estate – page 39)

- ▷ AL-KO fully galvanised steel-profile chassis with self-adjusting brakes
- ▷ Continental tyres and 15-inch alloy wheels
- ▷ Drawbar cover
- ▷ Smooth exterior panels with printed graphics and entrance door window
- ▷ D Lux windows with dark frames
- ▷ Load monitor that automatically reduces the boiler's electrical power consumption
- ▷ Dual temperature sensors
- ▷ Water-based AGS II Pro underfloor heating with mixing system
- ▷ Heated shoe compartment
- ▷ Corner hob in smaller models: Briljant 470 XL, Smaragd 540 GLE, Ametist 560 GLE, Safir 600 GLE and Safir 600 TDL
- ▷ Kitchen drawers with new robust metal inserts and flush-fitting drawer fronts
- ▷ Choose from four fabric collections with Premium Foam cushions
- ▷ Curtains with pelmets and front corner shelves
- ▷ Accent cushions in the front and rear
- ▷ Pull-out extension leaf for the dining table
- ▷ Aluminium bed frame with 6 cm mattress topper and adjustable headboard
- ▷ Bunk bed curtain
- ▷ Dimmer for the front lighting panel, kitchen ambient lighting and night lighting
- ▷ KABE VarioVent – our unique ventilation system
- ▷ External electrical connection box
- ▷ Power monitor
- ▷ External gas connection for a barbecue in the gas compartment

For a complete list of standard equipment, see pages 80-83.

Gemstone options are listed on pages 52-53.

# KABE Gemstone 2027 – more from the start

KABE Gemstone is for those who want style and function in one package. The series brings clever solutions, thoughtful interior design and an impressive level of standard equipment from the outset. Space for a larger TV in the entrance area adds everyday convenience. A window in the entrance door helps create a bright, airy and welcoming interior.

**New for 2027:** a larger sink with improved drainage, upgraded kitchen drawers with a sturdy metal insert for a tighter fit, an external router aerial and a DSP box with Bluetooth connection to your phone. Ametist 560 XL is updated with a practical L-shaped kitchen.

## Smart year-round living

The interior is defined by the warm-brown Atlas Zeder finish, set against pale Grau overhead cupboard doors and a light floor. In the kitchen, Atlas Zeder is also used on the upper cupboard doors and fridge front, while the worktop, table and side-unit surfaces feature the modern Lucido laminate. Behind the kitchen worktop, the easy-to-clean Perla laminate continues a bit up the wall.

The kitchen offers exclusive details like a new, larger square sink, a black mixer tap, a cutlery drawer and a beech chopping board, all for your cooking pleasure. In the smaller models, an corner three-burner hob with a split lid provides additional worktop space. A new combined airfryer, microwave and oven installed under the fridge is available as an option, or you can choose Thetford's brand new convection oven.

Ergonomic seat cushions with Premium Foam filling provide outstanding seating comfort. The Comfort package includes adjustable headrests with both height and side adjustment – perfect for relaxing or entertaining guests. Non-slip undersides keep the cushions firmly in place. Choose your favourite from four fabric collections or upgrade to leather (available as an option).

XL models with King Size layout offer a wider rear bed for extra sleeping space.

## Function meets finesse

KABE Gemstone comes with a practical electrical system with touch panel, several USB-C sockets (including by the bunk bed) and plenty of clever storage. In the entrance area, you'll find an elegant drinks cabinet with horizontal bottle storage and a slim wardrobe for outerwear.

The bathroom features a durable, stylish worktop in Urban Style laminate. On our TDL models, the same concrete-look finish carries through to the shower and the wall behind the mirror.

With AGS II Pro, the underfloor heating runs as a separate circuit. A mixing valve regulates the water temperature, and interval control helps reduce energy consumption. Other practical touches include a lockable water tank cap and an opening front window, both are included with the standard equipment.

## An exterior with a clear identity

Outside, Gemstone stands out with 15-inch wheels, smooth panels and distinctive styling. Engineered for year-round use, at home wherever you make a stop.

The Gemstone series offers 9 models and 19 layouts.

Onyx 630 TDL

Onyx 630 TDL has a separate sleeping area with two bed options: twin singles or a transverse double bed. The roomy bathroom with a separate shower cubicle covers the full width across the rear. A well-planned kitchen and a comfortable front lounge complete the layout. Easy handling with single-axle design and everything that defines a KABE.

# Options for Estate and Gemstone

**Elevate your everyday.** All KABE models come well-equipped from the start. But sometimes you want to add a little extra polish – to make the caravan more personal, more comfortable. That's why we offer a selection of our most requested options, fitted at the factory before delivery. Additional options can be added at a later time.

## ESTATE DESIGN PACKAGE

15-inch alloy wheels      Window in the entrance door      Drawbar cover      Heki II roof window

## ESTATE COMFORT PACKAGE

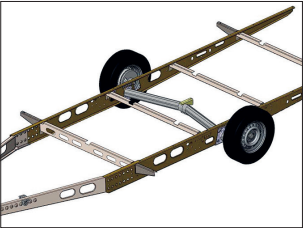

Shelves in upper cupboards on the side and rear (standard in front)      Adjustable headrest      External storage hatch (not for 660 DGDL) – E2 and B2 layouts include an additional storage hatch on the door side (not for 470 GLE)      Heated towel rail

## GEMSTONE COMFORT PACKAGE

External storage hatch – E2 and B2 layouts include an additional storage hatch on the door side      Adjustable headrest      Heated towel rail      Electrically adjustable headboard

## CHASSIS

**Gross weights**  
2,300 kg maximum gross weight for 600 and 660 single-axle models.  
In this case, 16-inch alloy wheels are fitted.

## BODY

ATC – anti-skid system (not for Estate)

Electric entrance step (not for Estate 470 GLE)

Heki II roof window (not for Estate)

## KITCHEN

Fitted carpet (not for Estate)

Compressor fridge

**New!** Combined air fryer, microwave and oven under the fridge (installed in the worktop in Estate 470 GLE)

**New!** Thetford convection oven

## LOUNGE

Cornwall leather upholstery  
• Front lounge  
• Front lounge and mid-dinette

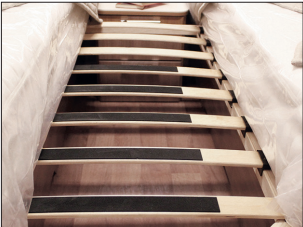

## BEDROOM

Somerset leather upholstery  
• Front lounge  
• Front lounge and mid-dinette

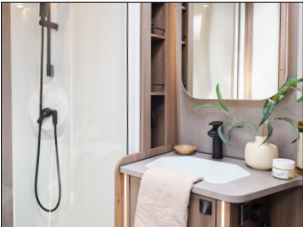

Curtain for 2- and 3-tier bunk beds (Estate only)

Grand Lit – convert two single beds into a double (GLE B2-layout only)

## BATHROOM

Mirrored TDL bathroom (Safir 600 TDL and Onyx 630 TDL with E2- and E8-floorplan)

## CLIMATE / HEAT

Air conditioning – Dometic Fresh Jet FJ2600

## ELECTRICAL / TECHNICAL

DuoControl – automatic gas changeover with crash sensor that cuts the gas supply on impact at 3.5 G. Approved for gas operation while driving across Europe.

## ADDITIONAL OPTIONS

Direct drain – grey-water tank bypass (not for Safir 600 TDL)

# KABE Royal

With Royal, much of it comes as standard. The series is perfect for those who want to stay at the forefront of caravan technology and who have high expectations when it comes to comfort and quality. In addition to everything that's included in the Gemstone series, you get even more – including the advanced KABE Smart D 2.0 electrical system, which comes as standard on every Royal model. KABE Royal is an excellent choice for those looking for a spacious holiday home on wheels for year-round use, with plenty of opportunities to create a style of their own.

For 2027, you can choose from four textile collections, or upgrade to one of two exclusive leather upholstery options.

## Choose KABE Royal and you get even more!

(in addition to what's already included on Estate on page 39 and Gemstone on page 44)

- ▷ External storage hatches
- ▷ Electronic stability system – ATC (anti-skid control)
- ▷ HEKI II roof window
- ▷ External light strip along the full length of the entrance side (Royal only)
- ▷ New! Hob with two separate units – one induction and one "Gas-on-Glass" (smaller models feature a compact unit with two gas burners and one induction zone)
- ▷ New! Built-in Thetford convection oven – developed exclusively for KABE
- ▷ Height- and side-adjustable headrests
- ▷ External shower connection
- ▷ Heated towel rail with timer
- ▷ External electrical connection box with 230 V / 12 V sockets and switched lighting
- ▷ Front and rear speakers
- ▷ Integrated lighting strips at every window
- ▷ KABE Smart D 2.0 electrical system with media centre
- ▷ Wireless charging pad
- ▷ Central vacuum system

For a complete list of standard equipment, see pages 80-83.

See our options on pages 76-79.

## KABE Royal 2027 – comfort in a class of its own

KABE Royal has it all – and then some. The interior has a warm, exclusive feel, where light tones and elegant black accents come together in perfect harmony.

### New this year:

- Induction and gas hob in all models
- Larger sink with improved drainage
- Upgraded kitchen drawers with solid metal inserts
- 630 TDL FK features an optimised new layout
- DSP box with Bluetooth – audio control via Smart D 2.0
- External aerial for the router as standard
- Royal 560 XL, 600 XL and 780 TDL are updated with an L-shaped kitchen

### INTERIOR DETAILS

- Wood laminate: Atlas Zeder
- Floor: Light
- Overhead cupboard doors front/rear: Cashmere
- Kitchen cupboard doors: Cashmere
- Kitchen worktop and splashback: Light Concrete laminate
- Fridge door: Matte black metallic
- Accent wall: Cashmere
- Table and side unit: Latte laminate
- Entrance storage unit: Light Concrete laminate
- Bathroom worktop: Light Concrete laminate
- Bathroom cupboard doors: Atlas Zeder (Cashmere doors for TDL-models)
- Wardrobe doors (bedroom): Atlas Zeder
- Fabric collections: Hampshire (black), Tulsa (beige), New Haven (darkbrown), Tucson (brown)
- Leather is available as an option

### Attention to every detail

Every Royal comes with a unique TV solution. A wall-mounted bracket in the entrance area swings out to accommodate a TV of up to 32 inches (TV is not included). In the CTDL and CXL layouts, a height-adjustable TV bracket is integrated into the backrest of the sofa.

The Royal kitchen has clean lines and a refined finish. It includes a new hob with two induction zones and two gas burners in separate units. Smaller models have two gas burners and one induction zone. A brand new Thetford convection oven with a glass front is also included. Every Royal has a large Thetford fridge with freezer compartment (except 630 TDL FK, which has a slimmer fridge). Compressor fridge is available as an option.

Our front-kitchen (FK) models feature a kitchen filled with natural light from the skylight in the front of the caravan, plus extra-generous worktops.

The bedroom is built for proper rest with a padded suede-effect headboard, solid sprung mattresses and thick mattress toppers. Touch switches are standard. Royal bathrooms feature Light Concrete worktops. In TDL models, the laminate extends into the shower and onto the wall behind the mirror.

In XL models with King Size layout, the rear bed is wider for increased sleeping comfort. The bathroom remains just as spacious as in the standard layout.

In the entrance area, a drinks cabinet with horizontal bottle storage sits alongside a slim wardrobe with two practical drawers below.

Also included:

- Wireless charging pad
- Media centre via KABE Smart D 2.0
- Lockable water tank cap

### Tailored options

Royal comes with exclusive 15-inch alloy wheels as standard, while 17-inch wheels are available as an option.

KABE Smart Level is also available as an option.

**New! B2 and E2 layouts feature additional storage space under the bed on the door side, with a practical external hatch for easy access.**

15 models and 44 layouts – Royal gives you plenty of options!

Royal 740 CTDL (E2, E5, E8, E9)

Royal 780 BGXL (XV2, DXL)

Royal 780 TDL (E2, E5, E8, E9)

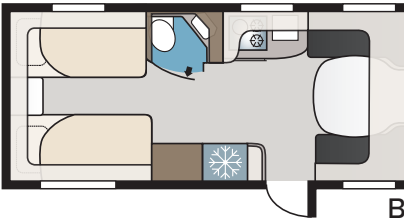

## Royal 520 XL

This model is built after our popular single-axle Smaragd 520 XL, with a similar layout and Royal's more exclusive finishes. The Royal series brings upgraded equipment and interiors, including a new induction and gas hob in the kitchen. A double bed and the bathroom are located in the rear. King Size width adds a little more room to the bed.

| Rear XV2               | 190 x 149/127 cm    |

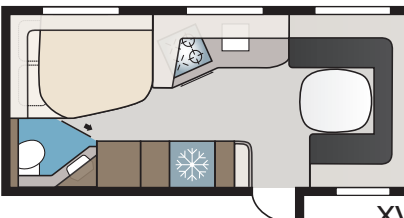

## Royal 540 GLE

Royal 540 GLE gives you a practical sleeping area with two separate single beds. The compact kitchen includes a brand new built-in convection oven and a smaller hob with two gas burners and one induction zone – ideal for travellers who like to cook. Single-axle for easy handling on the road and when you arrive at your destination.

### TECHNICAL SPECIFICATION

| Bed space KS – Front   | 225 x 141/127 cm       |
| Rear B2                | 196 x 88 + 186 x 88 cm |

## Royal 560 XL

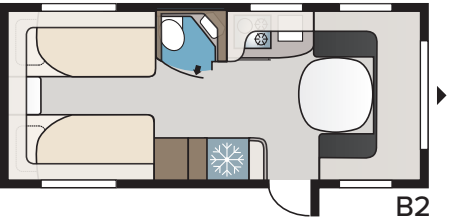

A compact favourite. Royal 560 XL delivers the same comfort and specification as the larger models in the range, in a convenient single-axle format. Bedroom, bathroom, kitchen and lounge – everything you need for life on the road. Upgrade to King Size width for extra room and a larger rear bed.

The practical L-shaped kitchen comes standard as of 2027.

| B15                       | 196 x 129/102 + 188 x 63 + 2 x 196 x 68 cm |

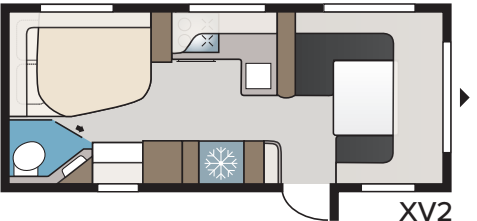

## Royal 600 XL

Royal 600 XL pairs a well thought out design with a little more floor space than the 560 XL, but the same generous standard equipment. The optional DXL layout adds a separate shower cubicle. The rear bed has extra room thanks to King Size width. Single-axle, easy to tow and easy to manoeuvre.

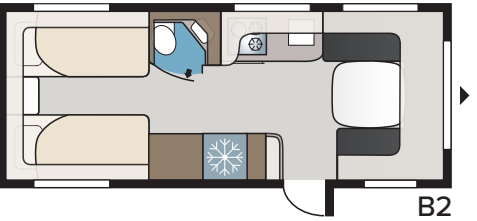

The practical L-shaped kitchen comes standard as of 2027.

| TECHNICAL SPECIFICATION |                  |

| Living area KS          | 14,1 m²          |
| Bed space KS – Front    | 225 x 177/150 cm |
| Rear XV2                | 190 x 149/127 cm |
| DXL (option)            | 190 x 140/118 cm |

## Royal 600 CXL

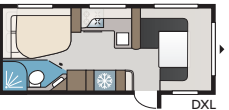

Royal 600 CXL has an open, generous layout with real flexibility. The L-shaped kitchen, the spacious lounge and the height-adjustable TV bracket in the backrest of the sofa make it easy to reshape the space around what you need. When the TV isn't in use, it tucks neatly into the backrest (TV is not included). The pop-up table has a fold-out extension for a larger surface. The DXL separate shower cubicle is available as an option. The model has King Size layout with a total width of 250 cm.

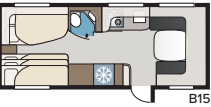

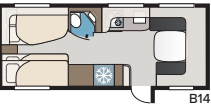

## Royal 600 GLE

Royal 600 GLE delivers travel comfort for the whole family – a roomy floorplan with four interior configurations. The kitchen features the new induction and gas hob, combining outstanding cooking performance with effortless cleaning. Single-axle construction, available in standard or King Size width.

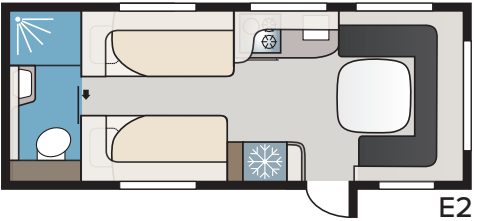

| TECHNICAL SPECIFICATION |                                        |

### Royal 600 TDL

Our smallest TDL model can be configured with two single beds, a double or bunk beds. The bathroom with a separate shower cubicle covers the full width in the rear. 2027 models feature the new induction and gas hob. A compact, flexible single-axle solution for travellers who want to travel light without giving up comfort.

### Royal 630 GLE

Plenty of ways to get it right. Royal 630 GLE offers four floorplans with different bed configurations. Whether you prioritise single beds, a double or more room for the children, you can shape the caravan to suit your family. Choose easy-to-handle single axle or a steady tandem axle, depending on how and where you travel.

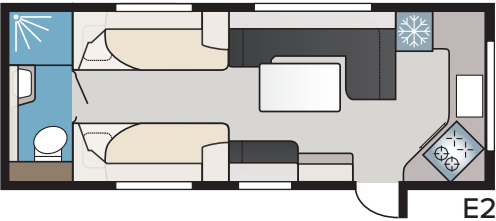

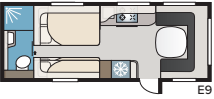

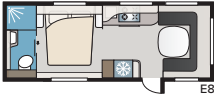

| TECHNICAL SPECIFICATION |                                            |

### Royal 630 TDL

Royal 630 TDL is cleverly designed for family life, with a separate sleeping area that offers two single beds, a double in several versions, or a children's bunk room. The generous bathroom with separate shower cubicle covers the full width in the rear. One of this year's highlights is the new induction and gas hob in the kitchen. Easy to manoeuvre single axle or robust tandem – the choice is yours.

| TECHNICAL SPECIFICATION |                             |

### Royal 630 TDL FK

In Royal 630 TDL FK, the kitchen takes centre stage. A unique layout places it at the front of the caravan, with the lounge moved towards the middle. The new hob lifts the cooking experience to new heights. In the rear you have the same clever Flexline options as the 630 TDL. Travelling regularly on winding roads or longer routes? With its agile single axle, the model is easy to manoeuvre, both on the road and at the camp-site.

Updated with a slightly more spacious sofa in the entrance.

| TECHNICAL SPECIFICATION |                             |

| E9                      | 196 x 140 + 2 x 196 x 60 cm |

### Royal 740 CTDL

Royal 740 CTDL takes the at-home feeling to another level. A large, luxurious bathroom with a separate shower cubicle and an elegant L-shaped kitchen with our unique hybrid hob – induction and "Gas-under-Glass" in two separate units. The extra-spacious lounge features a smart TV bracket integrated into the backrest between the lounge and kitchen (TV not included). The practical pop-up table gives you extra space – the two main leaves draw apart to make room for the extension. Tandem axle provides better weight distribution and stability when you are traveling with a higher load.

### Royal 780 BGXL

Royal 780 BGXL is built for larger families. A comfortable, well planned layout with a double bed for the adults, practical bunk beds for the children, two separate lounges and a generous bathroom. The King Size width provides genuine breathing room throughout the caravan. Tandem-axle construction adds stability and travel comfort, especially on longer journeys. DXL separate shower is available as an option.

| TECHNICAL SPECIFICATION |                                 |

### Royal 780 TDL

Royal 780 TDL – a tandem-axle best-seller with options to match. Choose from four bed layouts: two single beds, a double, a transverse double, or bunks. The generous bathroom runs across the entire width in the rear and creates a private, separate part of the caravan, with plenty of room for the shower, toilet and basin. The kitchen highlight is the new combination hob with two gas burners and two induction zones.

The practical L-shaped kitchen comes standard as of 2027.

| TECHNICAL SPECIFICATION |                             |

# KABE Imperial

Imperial is KABE's most exclusive series – developed for those looking for a caravan firmly positioned in the premium segment. Advanced engineering, carefully considered comfort features and design at the highest level – all meet here.

The difference is clear from the outside. A smooth, elegant exterior and distinctive 3D-effect graphics with a new semi-matt finish for 2027 give Imperial a refined, understated presence. Step inside and the experience is pure luxury with richer materials and generous standard equipment. Included as standard are KABE Smart D 2.0 electrical system, the unique hybrid hob with induction and "Gas-under-Glass", a combined air fryer, microwave and oven, a ceramic flush toilet, air conditioning, a custom sound system, KABE Smart Level with three practical functions, and two exclusive leather collections.

Imperial is built for every season – wherever you want to go, however you want to travel.

## Our Imperial caravans include the most comprehensive standard equipment

(in addition to what's included in Estate p. 39, Gemstone p. 44 and Royal p. 55)

- ▷ Diamond Cut 17-inch alloy wheels
- ▷ Exterior 3D-effect graphics in the classic KABE colours
- ▷ HEKI II skylight with integrated lighting strip
- ▷ Dometic FreshJet FJ2600 air conditioner
- ▷ KABE AutoDrain (automatic water-system drainage)
- ▷ Hybrid hob with separate induction and "Gas-under-Glass" units (two induction zones and two gas burners)
- ▷ New! Combined air fryer, microwave and oven – installed beneath the fridge
- ▷ Leather upholstery (choose from two collections)
- ▷ Slide-out sofa
- ▷ Electrically adjustable headboard (not available for the E9 bed)
- ▷ Swivel flush toilet with ceramic bowl
- ▷ New! Mains water connection as standard
- ▷ KABE Imperial Sound System – subwoofer and upgraded speakers
- ▷ KABE Smart Level (gas level indicator, tyre-pressure monitor and caravan level indicator)

For a complete list of standard equipment, see pages 80-83.

See our options on pages 76-79.

## KABE Imperial 2027 – premium, all the way

KABE Imperial is our most comprehensively equipped caravan, created for those who want the very best. The series has a distinctive exterior design with 3D-effect graphics and exclusive 17-inch Diamond Cut wheels. Inside, a light colour palette, innovative details and carefully selected materials create an atmosphere of refined luxury.

The Atlas Zeder finish with warm brown tones combine with light Cashmere cupboard doors and a light floor. Black-chrome details such as handles and hooks add contrast and a modern touch. The integrated lighting creates an inviting atmosphere and the Heki II skylight fills the caravan with daylight.

### Model year 2027 highlights:

- Exterior 3D-effect decals with a new semi-matt finish
- Larger sink with improved drainage
- Upgraded kitchen drawers with solid metal inserts
- 630 TDL FK features an optimised new layout
- DSP box with Bluetooth – audio control via Smart D 2.0
- External aerial for the router is standard
- Mains water connection as standard in Imperial
- Imperial 560 XL, 600 XL and 780 TDL are updated with an L-shaped kitchen

### Interior with a timeless character

The sofa is upholstered in exclusive leather and fitted with comfortable, adjustable headrests. Smart TV solutions are always included (TV is not included).

At the entrance, a drinks cabinet with horizontal bottle storage sits alongside a slim wardrobe with two drawers at the base. For entertainment and ambience, Imperial includes a media centre with IP radio, DSP box and Imperial Sound System. The latest generation of Dometic air conditioning – Fresh Jet FJ2600 – keeps the interior cool when summer days get hot (see page 22).

### Exclusive kitchen, harmonious bedroom and bathroom

The kitchen cupboards feature Sabbia High Gloss doors in a soft cream tone. The unique hybrid hob with two separate units – induction and "Gas-under-Glass" – beneath a smooth glass surface is easy to keep clean. In 2027 models, the microwave is replaced with a combined air fryer, microwave and oven, placed below the fridge to free up overhead storage and keep the kitchen's design intact.

### INTERIOR DETAILS

- Wood laminate: Atlas Zeder
- Floor: Light
- Overhead cupboard doors front/rear: Cashmere
- Kitchen cupboard doors: Sabbia High Gloss
- Kitchen worktop and splashback: Light Concrete laminate
- Fridge door: Gloss black metallic
- Accent wall: Cashmere
- Table and side unit: Latte laminate
- Entrance storage unit: Light Concrete laminate
- Bathroom worktop: Light Concrete laminate
- Bathroom cupboard doors: Atlas Zeder (Cashmere fronts for TDL-models)
- Wardrobe doors (bedroom): Atlas Zeder
- Leather collections: Cornwall (dark grey), Somerset (beige)

In XL models, the DuoSpot reading lamp features three buttons for individual light control. Touch switches are standard. XL models with King Size layout give you a wider bed. In our spacious TDL bathrooms, the shower wall and wall behind the mirror are finished in the same material as the worktop.

### Intelligent engineering

Imperial includes **KABE Smart D 2.0**, our intelligent electrical system. Add the KABE Connect option and you can operate the caravan's functions straight from your phone. A wireless router and external aerial are included. See pages 20-21.

**KABE Smart Level** is integrated in the KABE Smart D panel and features three essential functions. The system tracks the gas level so you know when a bottle is running low (applies to standard gas bottles, not composite bottles). It monitors tyre pressure for safer, more fuel-efficient towing. It also displays the caravan's tilt when you set up on site, so you can level the caravan for full comfort and proper appliance function.

**New! B2 and E2 layouts** feature additional storage space under the bed on the door side, with a practical external hatch for easy access.

The Imperial series includes 12 models and 41 floorplans.

Imperial 560 XL (XV2)

Imperial 600 XL (XV2, DXL)

Imperial 600 CXL (XV2, DXL)

Imperial 630 TDL (E2, E5, E8, E9)

Imperial 630 TDL (tandem-axe)

Imperial 630 TDL FK (E2, E5, E9)

Imperial 740 TDL (E2, E5, E8, E9)

Imperial 740 CTDL (E2, E5, E8, E9)

Imperial 780 DGLE (B10)

Imperial 780 TDL (E2, E5, E8, E9)

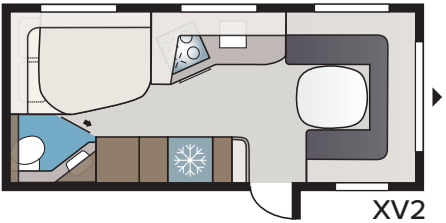

Imperial 880 BTDL

Imperial 880 TDL (E2, E5, E8, E9)

Imperial 1000 TDL (E2/DL, E2/DU, E3/DL, E3/DU, E5/DL, E5/DU, E8/DL, E8/DU, E9/DL, E9/DU)

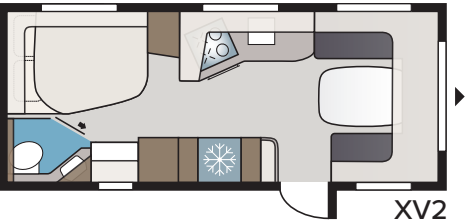

## Imperial 560 XL

A compact favourite in full Imperial trim. The 560 XL carries the same comfort and finish as the larger Imperial caravans in a more manageable single-axe format. Specify the King Size layout with 250 cm width for a larger rear bed and more room throughout the interior.

The practical L-shaped kitchen comes standard as of 2027.

### TECHNICAL SPECIFICATION

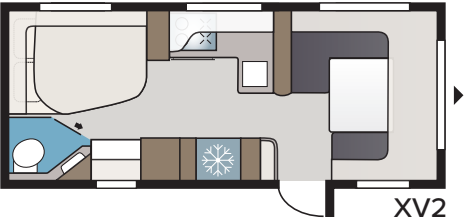

|                        |                     |
|------------------------|---------------------|
| Overall length         | 770 cm              |
| Overall height         | 278 cm              |
| Overall width Std.     | 230 cm              |
| Overall width KS       | 250 cm              |
| Body length            | 645 cm              |
| Interior body length   | 550 cm              |
| Interior height        | 196 cm              |
| Interior width Std.    | 215 cm              |
| Interior width KS      | 235 cm              |
| Living area Std.       | 11,8 m <sup>2</sup> |
| Living area KS         | 12,9 m <sup>2</sup> |
| Bed space Std. – Front | 205 x 179/150 cm    |
| Rear XV2               | 190 x 129/102 cm    |
| Bed space KS – Front   | 225 x 179/150 cm    |
| Rear XV2               | 190 x 149/127 cm    |

## Imperial 600 XL

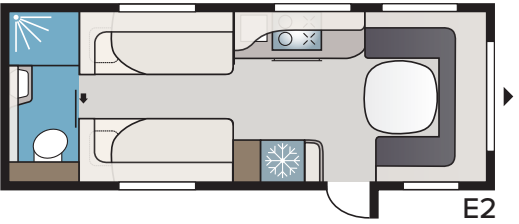

Imperial 600 XL is compact luxury with a touch more space than the 560 XL and full Imperial standard specification. One of the highlights is the hybrid hob with two separate units – induction and "Gas-under-Glass". Choose between extra storage (XV2) or the DXL layout with a separate shower cubicle. Single-axe with King Size layout – the model is easy to handle on the road and on site.

The practical L-shaped kitchen comes standard as of 2027.

## Imperial 600 CXL

The Imperial 600 CXL pairs an intelligent layout with full 250 cm King Size width. An L-shaped kitchen, a generous lounge, and a height-adjustable TV bracket in the sofa backrest towards the kitchen let you shape the space to your lifestyle. When the TV is not in use it stows away out of sight (TV is not included). The pop-up table has a fold-out leaf for extra surface when needed. A separate shower cubicle (DXL) is available as an option.

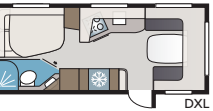

## Imperial 630 TDL

Imperial 630 TDL is built for life on the road, with a separate sleeping area that can be configured with two single beds, a double, a transverse double, or bunk beds. The full-width rear bathroom includes a separate shower cubicle. Single axle for easy handling, or robust tandem axle – the choice is yours.

| E9                    | 196 x 140 + 2 x 196 x 60 cm |

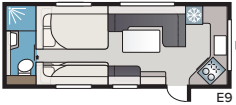

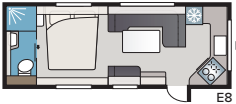

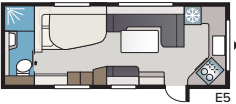

## Imperial 630 TDL FK

In the Imperial 630 TDL FK, the distinctive kitchen is located in the front and the lounge area towards the centre. At the rear, the model features the same clever layout as the 630 TDL. The agile single axle ensures smooth, easy handling on the road.

Updated with a slightly more spacious sofa in the entrance.

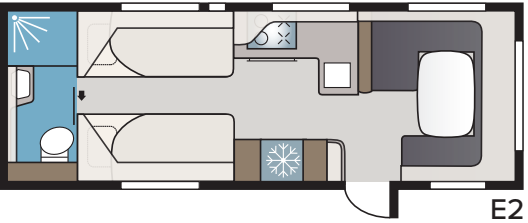

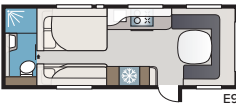

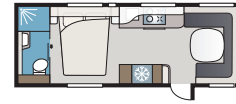

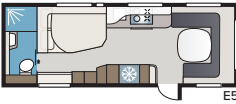

| TECHNICAL SPECIFICATION |                             |

| E9                      | 196 x 140 + 2 x 196 x 60 cm |

## Imperial 740 TDL

Imperial 740 TDL offers a well-planned, generous layout. The spacious bathroom includes a separate shower cubicle and a large wardrobe with plenty of storage space. KABE's Flexline system lets you tailor the caravan to your needs – for larger families or occasional overnight guests. The model has a tandem axle for secure towing.

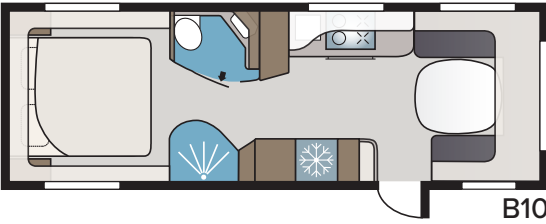

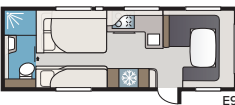

| TECHNICAL SPECIFICATION |                             |
|-------------------------|-----------------------------|
| Overall length          | 880 cm                      |
| Overall height          | 278 cm                      |
| Overall width KS        | 250 cm                      |

| E9                      | 196 x 140 + 2 x 196 x 60 cm |

## Imperial 740 CTDL

The Imperial 740 CTDL takes the feeling of home to another level. A large, luxurious bathroom with a separate shower cubicle, an elegant L-shaped kitchen, and an extra-roomy lounge area. The adjustable TV bracket is built into the backrest of the sofa between the kitchen and the lounge (TV is not included). The clever pop-up table with a fold-out leaf adds surface area when needed. Tandem axle for better weight distribution and stability with heavy loads.

| TECHNICAL SPECIFICATION |                                        |
|-------------------------|----------------------------------------|
| Overall length          | 880 cm                                 |

| Bed space KS – Front    | 225 x 220/140 cm                       |
| Rear E2                 | 2 x 196 x 88 cm                        |
| E5                      | 196 x 140/118 cm                       |
| E8                      | 199 x 156/118 cm                       |
| E9                      | 196 x 140 + 2 x 196 x 60 cm            |
| TV max size             | 750 x 430 x 60 mm (TV is not included) |

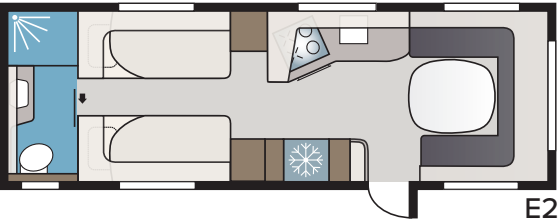

## Imperial 780 DGLE

In Imperial 780 DGLE, the shower and toilet are placed on opposite sides of the middle aisle, making it easy to create a private space. Close the doors to separate the bedroom from the social area in the front. The Flexline B10 floorplan adds an extra-wide, comfortable double bed in the rear. Tandem axle construction provides a stable ride.

| TECHNICAL SPECIFICATION |                  |
|-------------------------|------------------|
| Overall length          | 940 cm           |
| Overall height          | 278 cm           |
| Overall width KS        | 250 cm           |
| Body length             | 815 cm           |
| Interior body length    | 720 cm           |
| Interior height         | 196 cm           |
| Interior width KS       | 235 cm           |
| Living area KS          | 16,9 m²          |
| Bed space KS – Front    | 225 x 175/150 cm |
| Rear B10                | 196 x 156 cm     |

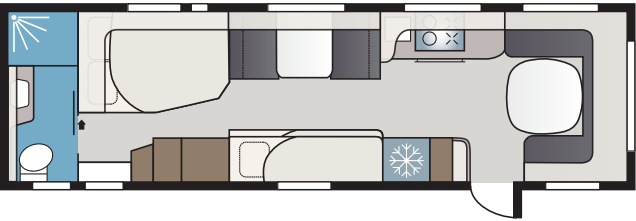

## Imperial 780 TDL

The Imperial 780 TDL is a roomy tandem-axle model with real flexibility. Choose from four bed configurations: two singles, a double, a transverse double, or bunk beds for the children. The full-width rear bathroom with separate shower cubicle creates a private zone of its own. The kitchen has everything you need on the road, and the lounge seats the whole party – for meals, conversation and downtime.

The practical L-shaped kitchen comes standard as of 2027.

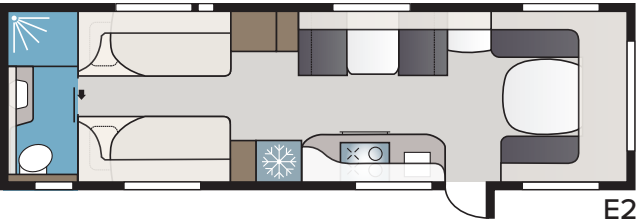

| TECHNICAL SPECIFICATION |                             |

| Bed space KS – Front    | 225 x 184/169 cm            |
| Rear E2                 | 2 x 196 x 88 cm             |
| E5                      | 196 x 140/118 cm            |
| E8                      | 199 x 156/118 cm            |
| E9                      | 196 x 140 + 2 x 196 x 60 cm |

## Imperial 880 BTDL

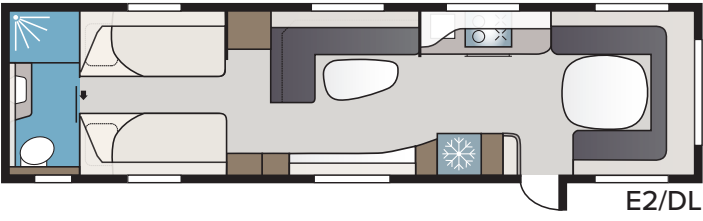

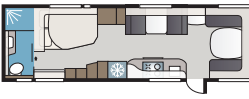

Imperial 880 BTDL features four to five bed spaces with the option to add more. With the front seating area and dinette converted into beds, the layout offers up to seven berths – ideal for larger families or groups travelling together. The solid tandem axle makes it an excellent choice for long journeys.

| TECHNICAL SPECIFICATION |                  |
|-------------------------|------------------|
| Overall length          | 1040 cm          |
| Overall height          | 278 cm           |
| Overall width KS        | 250 cm           |
| Body length             | 915 cm           |
| Interior body length    | 820 cm           |
| Interior height         | 196 cm           |
| Interior width KS       | 235 cm           |
| Living area KS          | 19,3 m²          |
| Bed space KS – Front    | 225 x 161/136 cm |
| Rear                    | 196 x 140 cm     |
| Dinette                 | 191 x 88 cm      |
| Double bunkbed          | 2 x 196 x 68 cm  |

## Imperial 880 TDL

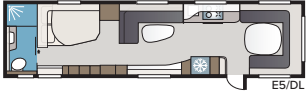

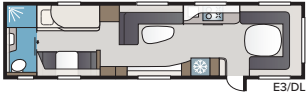

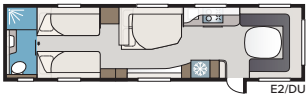

Imperial 880 TDL provides the whole family with flexible sleeping comfort. The base layout offers four to five sleeping spaces, with four Flexline options to choose from: two singles, a double, a transverse double, or bunk beds. Add a large bathroom with a separate shower, a well-equipped kitchen and a generous lounge. Tandem axle, for safe long-distance towing with lots of holiday equipment.

## Imperial 1000 TDL

Imperial 1000 TDL features a full 22 m² of living space – our largest caravan and an exceptional holiday home. With our Flexline options, the possibilities for tailoring the interior are almost endless. Generous space, unmatched comfort and carefully considered design throughout. Tandem-axle construction keeps the caravan stable, whether you are towing on country roads, motorways, or winding mountain passes.

| TECHNICAL SPECIFICATION |                             |
|-------------------------|-----------------------------|
| Overall length          | 1160 cm                     |

# Options for Royal and Imperial

**Make your KABE truly your own.** We know how important it is to feel at home – especially when you're on the move. Every KABE leaves the factory generously equipped, with many features included as standard that are extras elsewhere. But no two journeys are the same, and no two owners have exactly the same preferences. Tailor your caravan to suit your lifestyle. Explore the full range of options and create a KABE that reflects your own style. Factory-fitted options are installed before delivery, although additional equipment can always be added later.

## CHASSIS

17-inch alloy wheels (standard on Imperial)

Electric entrance step

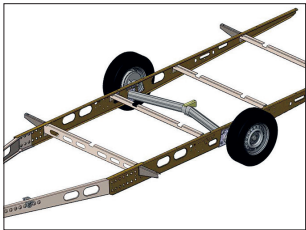

Tinted windows

Panoramic front window (KS-models only, standard on FK-models)

Tandem axle is standard in the European markets for specific models

Gross weights

- 2,000 kg (standard in Europe)
- 2,300 kg (single-axle 600-630)\*
- 2,650 kg (standard in Europe)
- 2,800 kg (standaard in Europe for 880-models)
- 3,500 kg\*\* (standaard in Europe for 1000-models)

\* Delivered with 16" rims  
\*\* Delivered with 15" rims

Entrance door with tinted window

## KITCHEN

Fitted carpet

**New!** Shelf for pod coffee machine (selected models only)

Compressor fridge with 12 V compressor, large fridge area and generous freezer (for off-grid use, a large battery and solar panel are recommended)

**New!** Combined air fryer, microwave and oven installed under the fridge (installed in the worktop in FK- models, standard on Imperial)

## LOUNGE

Free-standing pedestal for the table, not available with sofa-bed (standard on FK-models, not for 540 GLE)

Cornwall leather upholstery

- Front lounge
- Front lounge and mid-dinette (standard on Imperial)

Somerset leather upholstery

- Front lounge
- Front lounge and mid-dinette (standard on Imperial)

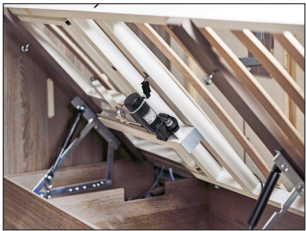

Pop-up table with fixed pedestal and a fold-out leaf for extra surface area (standard on CXL and CTDL models)

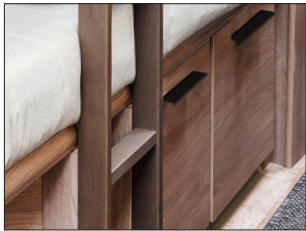

## BEDROOM

Grand Lit – convert two single beds into a double (GLE B2-layout only)

Electric adjustable headboard (not for E9- bed, standard on Imperial only)

Drawer storage under bunk bed (B14, E9)

## BATHROOM

Shower instead of console (DXL) 600 XL, 600 CXL, 780 BGXL

Shower pump (TDL-models)

Shower fan (TDL, 780 DGLE)

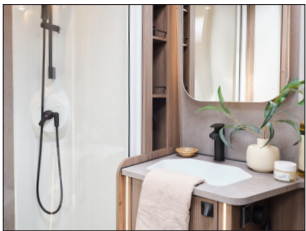

Cinderella incineration toilet (all TDL-models and 780 DGLE)

Cinderella is a modern, environmentally responsible toilet with high capacity and proven reliability. High-temperature incineration reduces paper, urine and waste to a small amount of ash – roughly a cupful per person per month. Clean, hygienic, and odour-free.

Thetford toilet with ceramic bowl (standard on Imperial)

Mirrored TDL bathroom available with Flexline E2 and E8 (not for 630 TDL FK, 880 TDL with E8-solution and not in combination with Cinderella toilet)

Wooden shower floor – (TDL, DXL)

**New!** FanTastic roof vent – efficient ventilation for a comfortable indoor climate

## CLIMATE / HEATING

Air conditioning – Dometic Fresh Jet FJ2600 (standard on Imperial)

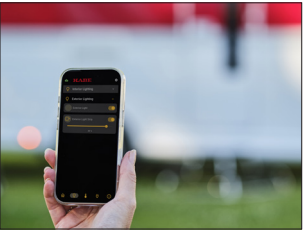

150 W solar panel – with a strong aluminium frame and aerodynamic spoilers that cut wind noise on the move (for off-grid use we recommend the larger battery and solar panel options)

ALDE Flow with 3030 Plus boiler

With ALDE Flow you can shower with hot water for as long as you like. It is a separate hot-water tank linked to the glycol heating system. Fresh water is pre-heated before it reaches the boiler's main tank, giving a constant supply of hot water at the taps.

KABE Connect

With the app, you can remotely control your caravan's control panel from anywhere!

KABE Connect\* is built around a 4G router with internal aerial and a mobile modem. An external aerial is standard in 2027-models. As well as controlling heating, lighting, and keeping an eye on caravan functions and alarms from your phone, you also get reliable wireless internet on the road.

\* With your purchase of KABE Connect, a 36 month subscription is included. After 36 months, you will pay a yearly fee for the use of the app. A separate mobile data subscription is also required.

## ELECTRICAL / TECHNICAL

130 Ah AGM battery (standard for Estate and Gemstone in European markets)

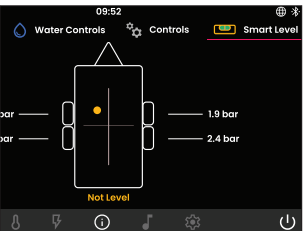

Booster (charge support while towing)

DuoControl

DuoControl is a built-in automatic gas changeover with pressure regulator and a crash sensor that triggers at 3.5 G. On impact the gas supply shuts off instantly to prevent leaks. The system is approved across Europe for running gas appliances on the move.

KABE Smart Level (standard on Imperial)

KABE Smart Level makes life in your KABE that bit easier!

The KABE Smart D panel includes KABE Smart Level and its three practical functions. It shows the gas level (with a standard gas bottle, not a composite bottle), so the gas does not run out unexpectedly on the road. The tyre-pressure sensor keeps your tyres at the correct pressure, for safer and more fuel-efficient towing. And the level indicator shows how the caravan is sitting on site – important for both comfort and proper appliance function.

**New!** Subwoofer (standard on Imperial)

Electricity meter in the mains box with lighting

150 Ah lithium battery

Motor mover system  
• Tandem axle  
• Single axle

E&P LevelC hydraulic levelling system

E&P's intelligent levelling system levels the caravan automatically in a matter of minutes at the touch of a button. Six hydraulic legs deliver stability and added peace of mind.

Pressurised water pump

Mains water connection (standard on Imperial)

## ADDITIONAL EQUIPMENT

## ECO PACKAGE – Stretch your off-grid stays in any location, with no worries about the power supply!

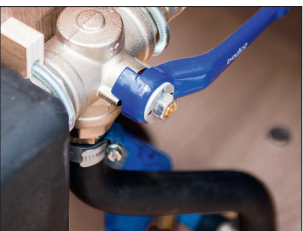

150 Ah lithium battery with battery sensor – longer-lasting than the standard battery

**New!** FanTastic roof vent – efficient ventilation for a comfortable indoor climate

Solar panel – generate your own power

Direct drain – grey-water tank bypass (not for Royal 600 TDL, standard on Imperial)

Water purification system – ALDE AquaClear UV-C (with ALDE Compact 3030 boiler)

Effective water purification that protects gently and cleanly. It removes unwanted viruses and bacteria, pesticides and chemicals. Water is disinfected by UV-C light from LEDs, then passes through an activated carbon filter, leaving it odourless and clean-tasting.

70 litre water tank (not for 600 TDL, 630 TDL, 630 TDL FK, 780 BGXL)

# Standard equipment

What others call extras, we call standard. Every KABE leaves the factory generously equipped, with considered details that make travel both safe and comfortable – every day, all year round.
