KABE 2027 Motorhome

Confidence in every journey

KABE

Confidence in every journey

For more than 65 years, KABE has built leisure vehicles for a life on the move from its factory in Tenhult, Småland. Every motorhome and van carries generations of craftsmanship, an unwavering commitment to quality, and the belief that the journey should be as rewarding as the destination. For model year 2027, we take the next step forward – pairing Scandinavian design tradition with modern engineering.

Scandinavian design sits at the heart of every KABE. Every line, every material, every function has a purpose. Our motorhomes bring together timeless form and intelligent function that simplifies daily life on the road – whether you are parked on a sun-soaked coastline or at a mountain camp-site. The result is a mobile home in a class of its own, built with genuine craftsmanship and a real feel for detail.

Comfort runs through everything we make. From the patented underfloor heating system and optimised ventilation to thoughtful layouts that create space and a sense of home – every detail is shaped around your well-being. Our motorhomes are built to travel all year, in any climate and any road condition, with the highest level of comfort.

Swedish craftsmanship is the foundation of every KABE. At our state-of-the-art factory in Tenhult, every semi- and fully integrated model is built with precision and care. Everything from insulation and heating to the electrical system and furniture construction undergoes rigorous testing. Every motorhome is engineered for the Scandinavian climate yet equally ready for long journeys south. Our goal is simple: to deliver the highest standard on the market in every price segment.

Your **safety** always comes first. KABE motorhomes are developed with a focus on both active and passive safety, for maximum confidence on the road. Modern driver assistance systems help you avoid hazards, while a robust structure protects you if an accident occurs. Add meticulous quality control and you have a safe, worry-free travel experience. With KABE, you can enjoy the freedom of a leisure home on wheels to the full.

Scandinavian design, unrivalled comfort, Swedish craftsmanship and uncompromising safety – that is KABE.

KABE – an investment in quality of life

Choosing a KABE is more than a purchase – it is an investment in quality of life. Every model is built for those who want to travel safely, securely and with care for the environment. And with the utmost thought given to your comfort once you arrive.

At KABE, we leave nothing to chance. Every detail is carefully worked out to make your motorhome life as convenient and worry-free as possible. From unique construction methods and our own joinery to clever technology and practical interior touches – all of it built on experience, innovation and a clear determination to give you the very best.

In a KABE, much of what feels like an extra is simply standard – and you notice it on every journey.

Additional details on pages 22-27.

This is why so many choose KABE!

Advanced safety systems and a robust construction for greater peace of mind on the road.

KABE Smart D 2.0 – easy-to-use control panel with full command of lighting, IP-radio, music, temperature, water and electrical systems (not for Classic).

Insulated energy windows provide a better indoor climate and lower energy consumption – year-round.

A sound-insulating ceiling lining that reduces noise and creates tranquil acoustics, even in rain and wind.

Upholstered walls in the bedroom and upholstered panels around the front windows create a cosy feel (not for Classic).

Cab seats with KABE's exclusive upholstery combine elegant design with lasting durability.

Exceptional sleeping comfort – wherever you are.

AGS II Pro automatic underfloor heating system with mixing valve distributes even warmth across the entire floor (not for Classic, included in Prime-Comfort).

Indirect lighting, ambient lighting and night lighting contribute to a welcoming atmosphere around the clock.

The belted dinette sofa with slide-out function features adjustable seats and backrests for personalised comfort (included in Prime-Comfort and Imperial).

Smart storage with generously sized garage, large storage hatches and plenty of wardrobes and overhead cupboards.

Front-wheel-drive fully integrated models feature **generous 280-litre fresh water and 150-litre grey water tanks**.

With a KABE, you simply get more of everything.

Premium at first glance

A KABE motorhome is easy to recognise – not only by its refined exterior design in its classic colours, but by what we stand for: Scandinavian design, unrivalled comfort, Swedish craftsmanship and uncompromising safety. The details are what makes the whole. You'll see once you really get to know your KABE.

KABE's expressive 3D-effect decals are unique to each model series and are designed to complement the body lines, windows, doors and hatches.

For model year 2027, the exterior graphics have been refreshed with a new semi-matt finish that reduces reflections and creates a calmer, more exclusive look, while keeping the design crisp.

Large windows and an extra-wide habitation door provide a light, airy interior. The door solutions vary between series and are chosen with great care – in Imperial, the door has a reinforced structure and a three-point lock.

Our front-wheel-drive Crown and Imperial models are built on a super-low AL-KO chassis with lowered frame rails (the rear-wheel-drive TRAQ i830 has a Mercedes chassis). This creates more space for larger fresh- and grey-water tanks, among other things. The elegant side skirt package features integrated, recessed hatches, while the rear styling reinforces the premium look.

Want to take even more with you? Choose a KABE with extra-generous storage space. Our garage and QB models offer plenty of room for bikes, tables, chairs – everything you need for a truly successful holiday.

With KABE, safety comes first. Our models are fitted with modern safety solutions that give you greater control and a more relaxed driving experience. Several models also feature advanced driver assistance systems, such as the Mercedes-Benz MP Camera, which helps you keep an eye on the road environment in real time. More information about the safety equipment can be found on pages 28-37.

At KABE, we are always moving forward – with thoughtful updates and innovations designed to elevate your comfort, security and well-being, creating a travel experience beyond the ordinary.

KABE motorhomes are built to impress – both on the road and once you arrive.

Scandinavian harmony

When you step inside a KABE, you're immediately welcomed by a sense of comfort, solid craftsmanship and elegant design. Carefully selected materials, suited to an active life on the road, bring together aesthetics and lasting durability.

The KABE interior follows Scandinavian design tradition with light, harmonious tones, natural wood and measured contrast. Joinery, flooring and cupboard doors work together to make the space feel inviting, while black hardware – handles, hooks, taps and lamps – add a modern touch. The Classic series features chrome design accents.

Every model has a seamless, sound-insulating ceiling lining that effectively reduces noise from both inside and outside, creating a calm, homely atmosphere.

Novum, Royal, Crown and Imperial have upholstered rear walls for a warmer, more inviting feel. The overhead cupboards are seamlessly integrated with the front, and for 2027 curtains give way to modern new upholstered window panels.

Lighting matters too, of course. Unlock the door and the entrance light comes on automatically – a welcoming, reassuring touch. There is also a combination of ambient and task lighting, cleverly placed switches and a dimmer on most lamps for the right light at any moment. The lighting is most easily controlled via the Smart D panel.

Our flexible living area is created by swivel cab seats with generous legroom – transforming from the driving position to relaxed seating at the table in just seconds. The cab seats are upholstered in KABE's exclusive design. Crown and Imperial feature extra-exclusive cab seats with integrated seat belts.

And the finishing touch: our fully integrated series feature an electric privacy blind in the windscreen – a simple way to create seclusion and a cosy evening feel as darkness falls. New electric blinds for the driver and passenger side windows also provide effective protection against glare while driving.

In a KABE, it is the thoughtful design that turns every journey into something quite special.

Care in every detail

It is all the small details – and the great care behind them – that make a KABE feel like home wherever you are. For us, it's about more than comfortable seating and a good night's sleep. It's also about durable, easy-to-maintain textiles and upholstery designed to meet the needs of modern motorhome living.

Our L-sofas are generously sized, with ergonomic cushions and Premium Foam padding for proper sitting comfort. The seat cushions also have a non-slip underside, so they always stay put (not for Abisko Van).

New! From 2027, our motorhomes (except for the Classic series) are updated with modern upholstered panels around the front windows. Combined with the upholstered rear walls, they create a more cohesive interior. Panel curtains are available as an option.

Let your personal taste guide your choice of upholstery fabrics. This year's collection offers a wide selection of designs – four in fabric, two in leather. In the Classic series you can choose between the new Hampshire in black or Tulsa in beige, and panel curtains are standard.

Leather upholstery comes as standard on Imperial and is available as an option on Classic, Novum, Royal and Crown.

Abisko Van has two unique collections that coordinate with the vehicle's interior design and feel: Cardiff in beige and Sheffield in modern grey.

A home to settle into – wherever you happen to be.

Room for everything the journey calls for

The lounge in KABE is designed for relaxing and spending time together, with plenty of room for people and all your belongings. Whether you want to unwind after a day on the road, gather friends around the table, or catch up on work in peace and quiet, our L-sofas always provide a comfortable spot with ergonomic seat cushions. Practical overhead cupboards with shelves inside make it easy to keep everything you bring in order.

In KABE Imperial, luxurious leather upholstery in dark grey or beige comes as standard. The smart slide-out function on the belted dinette sofa makes it easy to adjust both the seat and backrest for personalised experience. For extra travelling comfort there is also a fold-down armrest. Both are included in Prime-Comfort for Novum, Royal and Crown (not in combination with face-to-face sofa).

But the sofa in your motorhome is more than a place to relax – it also needs to keep you safe on the road. That's why we at KABE developed a smart seating solution that combines comfort with safety. All passenger seats in Classic, Novum, Royal, Crown and Imperial are equipped with deformation-resistant belt anchorages, integrated three-point seat belts and Isofix mountings. Adjustable headrests are also included (not for Classic), ensuring that both children and adults can travel safely and comfortably.

Another important safety feature is our crash frame in the dinette sofa, which helps keep passengers securely in place in the event of a collision.

Abisko Van has two adjustable seats for optimal comfort both on the road and at your destination.

To support your connected life, a wireless network router is offered as standard or as an option, depending on the model series. An external antenna for the router is included with the Advanced package. A wireless charging pad for your mobile phone is available as an option on several models. The Imperial series is equipped with KABE's exclusive Imperial Sound System, subwoofer and more powerful speakers – for a truly impressive sound experience.

Selected models feature our updated TV bracket with a smooth raise-and-lower function for a 32-inch TV, positioned between the sofa and the kitchen. The new bracket makes it easy to adjust the viewing position for a comfortable TV experience wherever you sit.

In KABE, there is always plenty of room to get together.

An inspiring kitchen

Every KABE kitchen is designed for everyday use. The layout is carefully planned, with generous storage and features that make cooking a pleasure. Clever touches give you extra workspace when you need it most, while recessed cupboard and drawer fronts have a clean, modern look. Our drawers include soft-close and central locking.

A 2027 first! An all-new convection oven, developed for KABE together with Thetford, for a smoother cooking experience on the road (available as an option on certain models). **The kitchen drawers are upgraded with a sturdy metal insert for a better fit and greater stability** (not for Classic). **Novum, Royal, Crown and Imperial also have a new, larger sink.** Its gently sloping base drains efficiently, while the generous size makes it easier to wash pots, pans and larger utensils.

The kitchen, like the rest of the motorhome, is defined by light finishes that create an airy, inviting feel, while the work surfaces are easy to maintain and suited to your everyday needs. Several thoughtful details add both comfort and ease of use: a surface-mounted mixer tap, a pull-out chopping board in carefully selected beech and a practical cutlery drawer. And just like at home, you can sort your waste into separate compartments for straightforward, responsible disposal.

Our front-wheel-drive fully integrated models provide generous capacity, with fresh- and grey-water tanks of 280 and 150 litres respectively.

Each motorhome series has a roomy Thetford fridge with a freezer compartment and, depending on the model, a two- or three-burner gas hob. Imperial has a luxurious Thetford hybrid hob.

In KABE Abisko Van, a practical 2-burner gas hob and sink combination is included – ideal for the compact kitchen.

The Imperial kitchen is a far cry from a traditional motorhome kitchen. Here we've created a kitchen space for those who value both quality and design. High-gloss, soft cream-coloured cupboard doors, Corian Savannah worktop, hybrid hob with two gas burners and an induction zone, Flexi tap and fridge with a gloss-black metallic front – finishes that radiate exclusivity and stand the test of time.

A new holder for the Nespresso coffee machine is available as an option on selected models.

In a KABE, cooking becomes a natural part of the journey – smooth, functional and enjoyable.

Sleeping comfort that takes you further

When you sleep well, the journey is better for it. In KABE, you can drift off in our comfortable beds with proper sprung mattresses, thick toppers and slatted bases that follow the body's contours. In combination with a sound-insulating ceiling liner, the perfect indoor temperature and fresh air, you'll wake up rested and ready for what comes next. Comfort you can rely on – from KABE.

Choose the layout and bed type that best suit your needs. Our QB models feature a raised Queen-size bed with smart storage drawers at the foot of the bed. Crossover models provide additional berths with a drop-down bed above the dinette (an option on Novum).

Crown and Imperial have a convenient manual double drop-down bed at the very front – perfect for occasional guests such as grandchildren or visiting friends.

The bed is more than just a place to sleep. It is where you curl up with a book or a magazine for a quiet moment. Our headboards are upholstered in soft suede-like fabric with an elegant 3D-effect. From model year 2026 onwards (except for Classic), the bedroom features upholstered walls that create a warm, inviting atmosphere.

Naturally, you will also find touches such as integrated ambient lighting in headboards, blackout curtains and sound-insulating walls and ceiling.

Night light on or off? The switch is conveniently located right by the bed. Reading lights, USB-C sockets, and our handy DuoSpot lamp with touch function in certain models are additional features.

The sturdy aluminium bed frame allows the headboard to be raised and lowered manually. An electrically adjustable headboard is available as an option and comes as standard on LQB models.

Our roomy wardrobes and overhead lockers provide plenty of space for everything you want to bring along.

Sleep well, wake rested and meet the day.

A bathroom that feels like home

A private toilet and shower are something most of us want – for everyday convenience and a greater sense of home. The clean, contemporary design that defines your KABE continues seamlessly into the bathroom.

Do you prefer a large, roomy bathroom at the rear? Or perhaps a layout with separate shower and toilet? With the latter you can easily create a private area – simply open the doors to separate the bedroom from the rest of the motorhome, providing a space for morning routines and getting dressed. KABE offers several flexible solutions, so you can choose a bathroom that suits your lifestyle and the way you travel.

In our compact Abisko Van, the bathroom is functional, with flexible solutions such as a swivel basin to maximise space.

Each bathroom follows the design language of its model series. At the same time, it combines smart storage, practical surfaces and thoughtful solutions for effortless everyday use. For example, a pressurised water pump is included to guarantee a steady, reliable water supply.

From model year 2027, KABE is the only motorhome manufacturer to offer iNDUS ECO as standard – a modern toilet solution that requires no additives. With low water consumption, quiet operation and smart waste handling, iNDUS ECO offers excellent comfort and easier maintenance. Toilet waste is emptied together with the grey water at designated disposal stations, providing

a more hygienic solution without the need to empty a separate cassette. Perfect for those who want to travel in comfort with less environmental impact. iNDUS ECO is standard on our fully integrated models.

On selected layouts, you can upgrade to the Cinderella incineration toilet. And a heated towel rail is available as an option.

In our front-wheel-drive fully integrated models, generous fresh- and grey-water tanks provide greater convenience on the journey.

A KABE bathroom delivers more – around the clock.

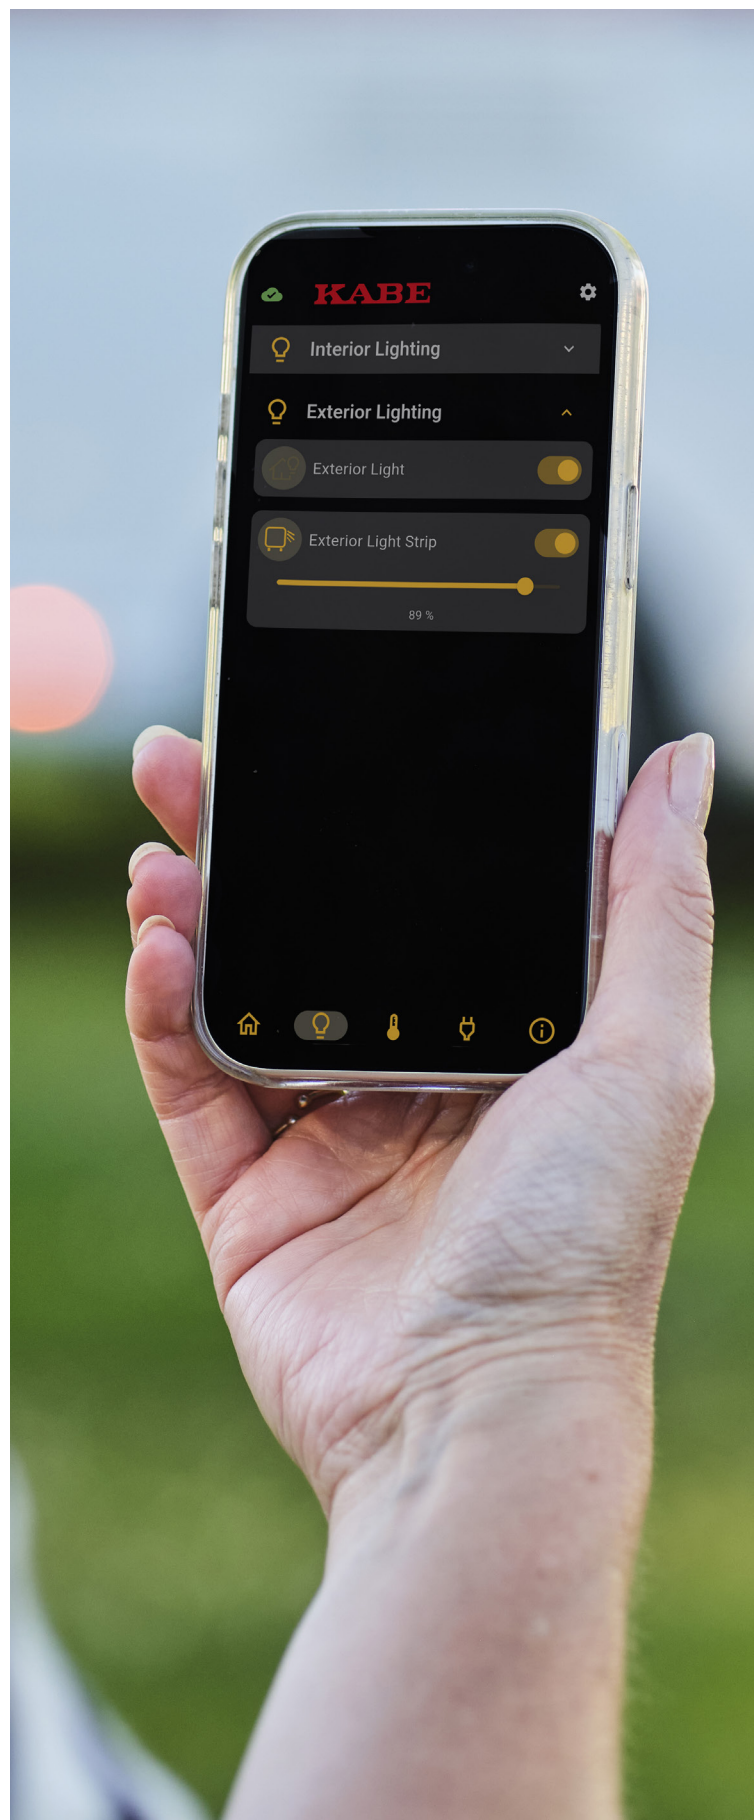

Smart KABE technology close at hand

KABE Smart D (European Innovation Award winner) puts many of the motorhome's key functions at your fingertips. The control panel has a modern look and gives a clear overview of water levels and battery voltage, plus easy management of lighting, AC, the boiler, temperature and the drop-down bed. Smart alerts flag service needs or a tripped fuse. Simply choose the language in the menu, just like on your smartphone.

The Linux-based **KABE Smart D 2.0** with a 7-inch high-resolution touchscreen is standard on Abisko Van, Novum, Royal, Crown and Imperial. The system includes:

- Integrated audio system with IP radio and Bluetooth. Listen to your national radio stations via the internet (new features are introduced on an ongoing basis).
- OTA updates (Over-the-Air). Software updates are delivered automatically via the internet. To use the service, a router and an active internet subscription are required.
- Fast and responsive system. Advanced CAN-Bus communication with new I/O boards and updated software ensure high performance and rapid response.
- 3-in-1 charger. Charger, booster and solar regulator in a single unit.

KABE Classic is equipped with an electrical system from Nord Elettronica.

With **KABE Connect**, you have everything under control. Manage your motorhome's control panel directly from your phone – whether you are relaxing on the beach or standing on a ski slope. Switch on the air conditioning, turn up the heat, or set the ambient lighting for the evening. Everything is managed through our convenient app, which you can easily download from the Apple App Store or Google Play. Connect it to your motorhome using the unique QR code on the control panel and contact your KABE dealer to purchase and activate the app.

The system runs on a powerful 4G router with an internal aerial and a mobile modem. For maximised coverage, an external antenna is available with the Advanced package (standard on Imperial). The result is a stable, fast internet connection wherever you travel. KABE Connect* is available as an option on the Novum, Royal, Crown and Imperial series.

KABE Smart Level (winner of the European Innovation Award) keeps track of the gas level**, tyre pressure and the motorhome's level of tilt. The user-friendly panel shows the gas level, so you needn't worry about running out of gas on the road. Correct tyre pressure improves safety and fuel efficiency while driving. The system also includes a level indicator that shows how the motorhome is positioned – important for comfort on site and for everything in the living area to work exactly as intended. KABE Smart Level is standard on Imperial and available as an option on the Novum, Royal and Crown series.

In control – with KABE Smart technology.

* A 36-month subscription is included with your purchase of KABE Connect. After that, an annual fee applies for continued app access. A separate mobile data plan is also required. ** Requires a compatible gas cylinder, not for composite bottles.

Built the KABE-way

You recognise a KABE right away – by the design, the colour palette and the confident silhouette. The real difference, though, lies beneath the surface. In-house engineering and proprietary systems work together as a carefully considered whole, and every detail contributes to KABE's exceptional standard.

Each motorhome and van is built on a purpose-engineered chassis for stable and secure driving. The strong, moisture-sealed body pairs with our well-insulated heating and ventilation system to create the right conditions for comfortable year-round living, in any climate.

Ready for every season

The European climate is demanding, from hot summers to cold winters. Our motorhomes are engineered to handle the weather, the road and rapid swings in temperature. Advanced body construction and our proprietary Smart Climate System, work together so that insulation, air circulation and heat keep the indoor climate even and comfortable. Underfloor heating delivers an even temperature across the entire living area, while the layout and furniture placement facilitate efficient airflow.

Our Royal models feature a double roof above the drop-down bed, providing extra comfort while helping to prevent condensation in cold conditions.

The Imperial series includes several smart heating solutions, including a heat exchanger and the ability to pre-heat the cab up to 24 hours before departure (also included in the Winter package). In Crown and Imperial, ventilated front seats with both heating and cooling are available as an option – perfect for keeping you cool on warm days and warm when the temperature drops.

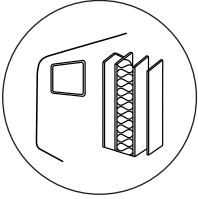

For warmer days, the efficient Dometic FreshJet FJ2600 roof-mounted air conditioner is available. The unit is quiet, low on energy use, and easily controlled via remote, the touch panel, the Dometic Climate app or directly from the KABE Smart D panel. A night mode with reduced fan speed is also included. Standard on Imperial and an option on other models.

With more than 65 years of experience, we know what it takes. We build motorhomes we want to travel and live in ourselves – inviting, practical, and ready for every season.

Thoughtfully engineered. Built with care.

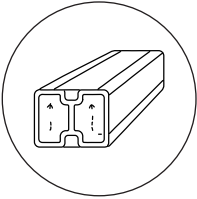

Want to know more? Continue reading on the following pages.

SWEDISH CRAFTSMANSHIP FROM THE GROUND UP

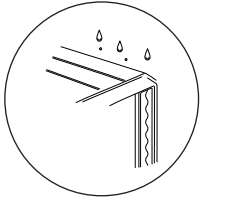

Strength and moisture protection – KABE iWall construction

- The body is built on the sandwich principle: exterior body panels, 36 mm Ecoprim insulation, inner body panels and a wall lining that absorbs any condensation.
- Ecoprim is a moisture-resistant material made with closed cells, so it cannot absorb any moisture.
- Aluminium panels on both sides of the Ecoprim insulation significantly reduce the impact of temperature differences.

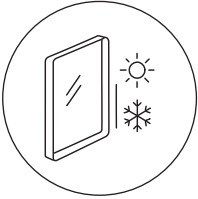

KABE's composite profiles are built to last

- KABE uses composite profiles with integrated air channels on every part of the body that is exposed to moisture.
- A patent is pending for the KABE-designed composite profiles.
- Our composite profiles have excellent insulating properties.
- The composite profiles also improve the bond between the different parts of the body.

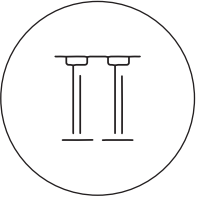

Watertight roof joints

- First, the joint between the roof and wall is carefully sealed with elastic butyl compound.
- Next, the roof panel is folded over the wall panel – overlapped – to completely prevent leaks.
- KABE's unique iWall construction provides an unlimited number of fastening points – important for installing optional equipment.

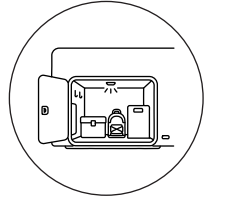

Double-glazed energy windows

- Energy windows with polyurethane frames seal against the double glass for optimal insulation.
- Smooth, tinted outer panes reduce solar gain.
- Insulated window frames with built-in ventilation help prevent condensation.
- Integrated adjustable insect screens and blackout shades are included in all windows.
- All windows open continuously (except for the kitchen window).
- Habitation door with window, gas struts and insect screen door.

Prepared for support legs and a tow bar

- All KABE motorhomes (except the Classic series and TRAQ i830) are fitted with AL-KO frame extensions and can easily be equipped with support legs and a tow bar.
- The rear-wheel-drive Imperial and Crown TRAQ i830, along with Novum TRAQ x750, stand out for their high towing capacities – an excellent choice for those who want to tow heavier loads of up to 1,980 kg, such as a horse trailer or a small car.

Generous storage space

- Generous storage space in garage and QB models, with room for bikes and holiday gear.
- An efficiently designed double floor in fully integrated front-wheel-drive models provides additional storage space.
- Smart storage in the side skirt package makes the compartments easy to load and access.
- Pull-out storage drawers are included in Imperial and Crown Prime-Comfort – easy to lift out and pack wherever you like.
- Anchorage loops keep your luggage securely in place while travelling.

All the extras that simplify everyday life

- An electric entrance step that retracts automatically when you set off.
- Remote central locking, vehicle section.
- Habitation door linked to the central locking.
- Air conditioning, vehicle section.
- An alarm indicates if the 230 V cable is plugged in at start-up.
- USB-C sockets.
- Wireless router in certain models (external antenna is available as an option).
- Wireless charging pad (not for Classic).

Furniture construction and interior design shaped by solid Swedish craftsmanship

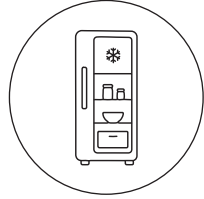

- All furniture and joinery is made in KABE's own workshop.
- Scandinavian design throughout every interior.
- Overhead cupboard doors open with a light touch.
- The kitchen drawers are equipped with soft-close and central locking.
- Robust, durable interior optimised for low weight.

Soft, light-reflecting ceiling lining that insulates and minimises outside noise

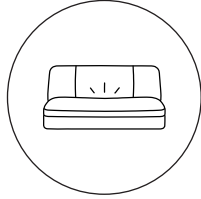

- KABE has a soft ceiling, which provides better acoustics inside the motorhome.
- The soft ceiling lining reduces sound and noise from the outside (such as rain and wind) and also improves the insulating performance of the roof.

THE DETAILS THAT MAKE THE DIFFERENCE

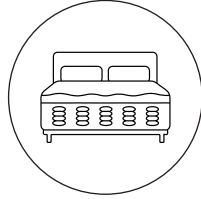

A kitchen that feels like home

- Built-in cooker hood with integrated lighting and two fan speeds.
- The hood has a removable grease filter for easy cleaning.
- Electric ignition on the hob.
- The market's best fridge ventilation.
- AES fully automatic fridge.
- Thetford fridge in every motorhome.

Premium seating comfort

- Ergonomic sofas with age-resistant, recyclable Premium Foam filling.
- Carefully selected upholstery fabrics with exceptional durability.
- The belted dinette sofa features an adjustable slide-out function (standard on Imperial and included in Prime-Comfort).
- Choose from six different upholstery collections with a coordinating padded window surround. Panel curtains for the front windows of the motorhome are available as an option.

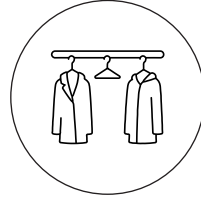

Unbeatable sleeping comfort

- Beds with articulated slats adapt to the body as you rest.
- Sprung mattresses and thick mattress toppers ensure a good night's sleep.
- Beds with an adjustable headboard for added comfort when reading in bed (not for Classic).
- The beds have a lift-up function and are equipped with soft-close for easy cleaning.
- Electric adjustable headboard (standard on all LQB models – an option on Novum, Royal, Crown and Imperial).
- Headboard with integrated ambient lighting.

Shower whenever you like

- Across the range you will find a shower tray, wet-room wall covering, a rain shower and either a folding or fixed shower screen.
- Several floor plans include a separate shower cubicle.
- A shower outlet in the garage comes as standard on Imperial and is available as an option on several models.

Drying cupboard in several models

- Drying cupboard with a custom-designed drip pan for drying shoes.
- The drying cupboard has a special convector and an adjustable ceiling vent for maximum heat circulation.

Smart lighting – around the clock

- Light bars with built-in spotlights.
- Indirect lighting above the overhead lockers.
- Night lighting with a switch by the bed.
- Interior switch for exterior lighting.
- Lighting inside wardrobes and in under-bed drawers.
- Modern touch switches.
- Dimmer included on most lights.

Full control – KABE Smart D 2.0

- Easy-to-operate control panel with touchscreen display.
- The electrical system monitors battery state and charges automatically when needed.
- The system tracks water levels, temperature and battery voltage.
- KABE Connect is available as an option.

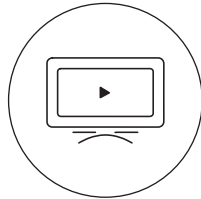

KABE Smart D 2.0 comes as standard on Abisko Van, Novum, Royal, Crown and Imperial. KABE Classic is equipped with an electrical system from Nord Elettronica.

KABE Smart Level with three key functions

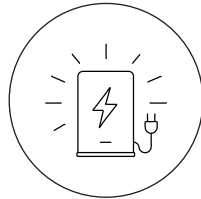

- The panel shows the gas level (when using a single gas bottle, not for composite bottles), so you never have to worry about running out unexpectedly.
- The tyre-pressure sensor helps you keep the right pressure in every tyre.
- A level indicator shows how the motorhome is positioned.

Standard on Imperial. An option on Novum, Royal and Crown.

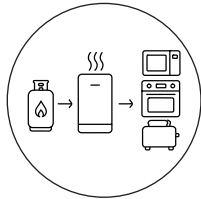

Designed for the best TV experience

- Exterior TV connection with 12 V and 230 V sockets.
- Media cabinet with a retractable TV bracket on selected models.
- Space for a height-adjustable 32-inch TV between the sofa and the kitchen – new on selected models.

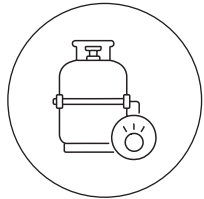

More electrical power – upgraded alternator and high-capacity batteries

- Every KABE motorhome is equipped with powerful batteries and an upgraded alternator.

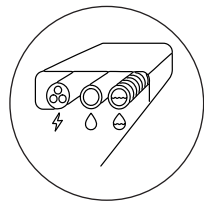

Automatic power boost and load monitoring

- Electric draw from the boiler is reduced automatically under particularly heavy load – for example, when several electrical appliances run at once (not for Classic).

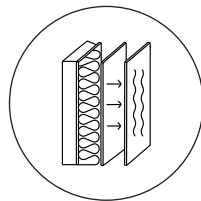

Safety on many levels

- Airbags, ABS brakes and three-point belts for both the driver and passenger.
- Leak indicator for manual checks of the gas system.
- Hose-burst valve allows you to keep the gas on while driving (included in Prime-Comfort).
- Smoke alarm in the sleeping area.
- Residual-current device (RCD).
- Crash sensor on the gas system (included in Prime-Comfort).
- Reinforced water-tank frame, battery frame, sofa frame and metal frame around the fridge.

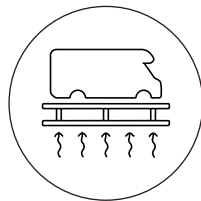

Efficient and energy-saving details

- Maximum heat is drawn from the convector and accelerates the airflow up the wall.
- Sofa backs and our unique cable channels are angled to accelerate the airflow past the windows.
- The wiring is hidden in the cable channels above the heating convectors.
- In winter the construction quickly thaws any residual water in the hoses.

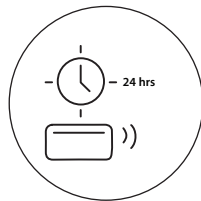

A better indoor climate with interior metal wall panels

- KABE's sandwich construction consists of an exterior metal panel, Ecoprim insulation, interior metal panel and the wall lining.
- Heat from the radiators rises along the walls.
- The sheeting behind the wall lining is warmed by the indoor temperature, helping to prevent condensation.
- The interior metal panel distributes heat evenly across the entire wall surface – unlike plywood walls, which have virtually no heat-conducting properties.

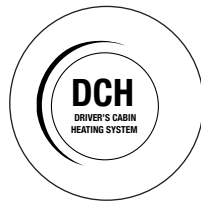

Warm drive, comfortable stay

- Every fully integrated motorhome has a heated double floor (except for TRAQ i830), which keeps the storage compartments warm and provides a more comfortable thermal climate in the living area.
- Heating convectors beneath the dashboard, the side unit and at the entrance step.
- Double glazing in the cab doors and side windows (standard on Crown and Imperial).

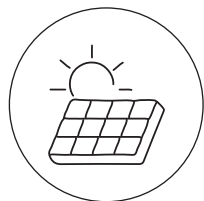

Heated cab for winter driving

- KABE motorhomes are equipped with a fuel-fired heater for the engine circuit (standard on Abisko Van and Imperial, and included with the Winter Package).
- Time control lets you warm the cab with the engine switched off, up to 24 hours before you set off.
- A heat exchanger lets you channel engine heat into the living area while driving (standard on Abisko Van and Imperial, included in the Winter Package and an option on Classic).

Driver's Cab Heating System (Crown, Imperial)

- Heated windscreen on all Imperial models (included in the Crown Winter Plus package).
- Water-based underfloor heating mat in the cab (standard on Abisko Van and Imperial, included in the Winter Package).
- Built-in convectors in the cab footwell.
- Thermal curtain at the base of the dashboard to keep out the cold.
- Convectors between the cab and the living area create a wall of warm air.
- Additional heating unit in the side cabinet, connected to the underfloor heating system.

With Imperial you get even more

- Living-area air conditioning.
- Distronic (adaptive cruise control).
- Central locking for exterior hatches.
- Inverter.
- Corian Savannah worktop.
- Imperial Sound System.
- Leather upholstery.
- Solar panel.
- Hydraulic levelling jacks.
- Built-in oven.

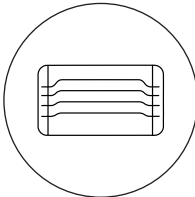

And much, much more – see page 79. Available as an option on certain other models.

BUILT FOR YEAR-ROUND TRAVEL

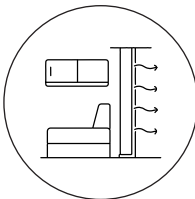

Climate-smart technology in every KABE motorhome

- ALDE Compact boiler.
- AGS II or AGS II Pro water-based underfloor heating.
- Maximised convector lengths, packed in tightly.
- Optimised ventilation system.
- Interior designed for optimal airflow.
- iWall construction.

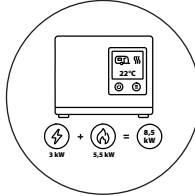

Warm floors with KABE's AGS II

- AGS II – developed in-house and patent-pending, automatic water-based underfloor heating system with four circuits – delivers even heat across the floor.
- The heat circulates through aluminium pipes and reaches all the way to the habitation door, kitchen area and bathroom.
- Heat-distribution plates ensure even warmth across the entire floor.

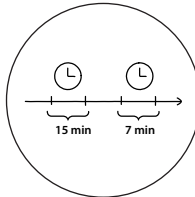

Ventilation that guards against moisture damage

- KABE is the only manufacturer to use a breathable wall lining, which lets the warm air circulating up the walls pass through.
- Condensation at floor level is caught by the ventilating mat installed along the outer edge and is then dried out when you switch the heating on.
- KABE's wall lining also reduces noise.

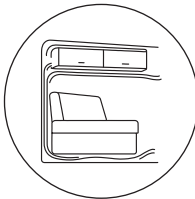

Stable indoor temperature whatever the weather outside

- ALDE Compact 3030 boiler with touchscreen display and a 3 kW electric element, plus propane operation rated at 5.5 kW (5,500 W) – for a combined output of 8.5 kW.
- The heating system runs a 12 V circulation pump, integrated hot-water heater and separate expansion tank.
- A jacket around the gas unit maximises hot-water output.

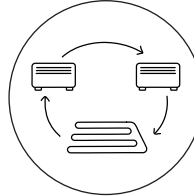

AGS II Pro – the right underfloor heating, all the time

- With AGS II Pro the underfloor heating can operate independently. Included on Abisko Van, Imperial and included in Prime-Comfort (not for Classic).
- A mixing valve regulates the temperature of the water circulating in the floor.
- To reduce energy use, the system runs in timed intervals – water circulates at set intervals, reducing the load on the boiler and conserving battery power.
- Fresh- and grey-water tanks are insulated and heated.

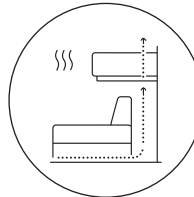

Optimal air circulation

- Our interiors are designed for optimal air circulation throughout the motorhome, even behind cupboards and sofas.
- The distance between sofas and beds, and the angle of the sofa backs, are precisely calculated.

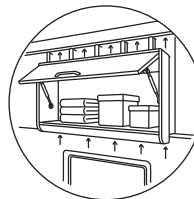

Even heat throughout the living space

- The underfloor heating is connected to the convector system, allowing warm air to circulate throughout the entire motorhome when the heat is turned on.
- The system runs on both gas and electricity.
- KABE features extra-wide convectors under every window to draw maximum heat into the airflow and help eliminate condensation on the glass.
- Convectors between the cab and living section create a wall of warm air that helps keep the cold out.

Considered heat distribution in every corner

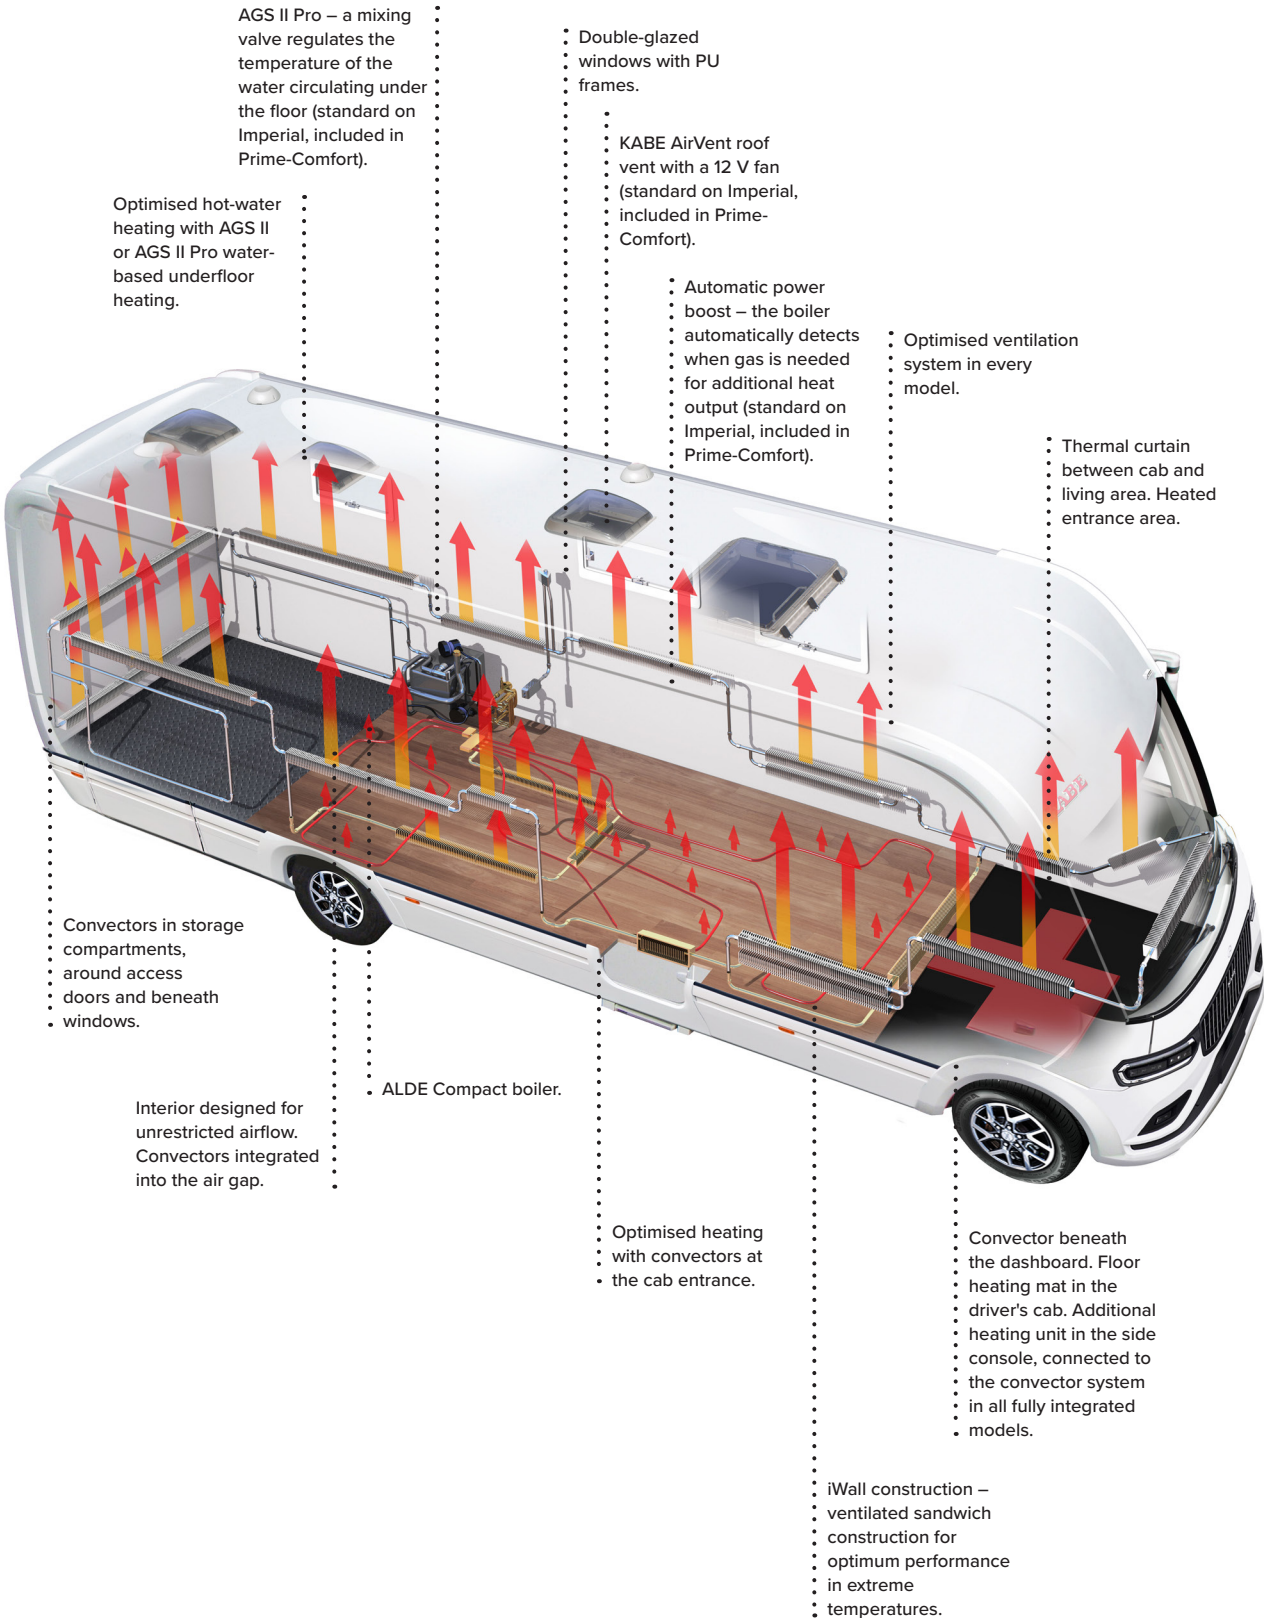

- KABE's construction gives the air a clear path: from the floor, under beds and sofas, up to the ceiling and through the ventilated overhead cupboards.
- KABE achieves the best and most even heat distribution on the market – not only in the living area and the rest of the interior, but also in wardrobes, bathrooms and overhead cupboards.

Free airflow – all the way through

- Sofas and beds are positioned away from the walls, creating an air gap that allows unrestricted airflow beneath the beds and under-bed drawers.
- The sofa backrests and the air gap behind the beds are warmed as hot air flows along the wall.
- The overhead cupboards have built-in air channels that allow warm air to flow freely along the ceiling-to-wall joint and towards the centre of the motorhome.
- A divider at the back of each cupboard keeps the air channels open, even when the cupboard is full.

KABE MOTORHOME – HEATING SYSTEMS

Safety in every mile

We know the road can present real challenges. Slippery surfaces, heavy rain and sudden temperature shifts are everyday conditions for many motorhome travellers. That's why safety is a non-negotiable priority.

Choose a KABE and you choose a motorhome or van built in one of Europe's most advanced production facilities – engineered to deliver an enjoyable driving experience and complete confidence, whatever the weather and road conditions.

KABE has long set the standard for safe travel – and now we are taking the next step. With enhanced body construction and new safety solutions, we continue to raise the bar for safety, even in the event of a collision.

Passive safety – built to protect

At KABE we combine advanced construction with robust materials for maximum crash protection.

A solid body: the cab and living section are connected by a heavy steel structure for greater torsional stiffness. The walls and front are built on the sandwich principle for maximum stability.

A solid A-pillar: cast in a single piece for extra protection.

Reinforced joints: heavy steel plates and F-shaped aluminium profiles create a strong overall structure.

A crash-safe dinette sofa: a metal strip and notches hold the cushion securely in place. A built-in steel frame protects both passengers and water tanks in a collision.

A crash-protected refrigerator: on critical models the installation is reinforced with a steel beam.

Battery protection: a sturdy metal bracket secures the battery even under heavy strain.

A folding table: the tabletop folds forward (or lifts out in the Abisko Van) to create more space and improve safety for passengers in the belted dinette.

Active safety – to avoid accidents

KABE motorhomes are equipped with advanced safety systems that help you stay in control in any situation. Modern vehicle design and technical solutions give you a safer, more relaxed driving experience.

Safe all the way – and secure at every stop.

KABE and Mercedes-Benz at the centre

In KABE series built on Mercedes-Benz (Abisko Van, Novum, Royal, Crown and Imperial), both safety and technology are enhanced by the innovative MP Camera. The advanced camera technology reads speed-limit signs, among other things, and tracks lane position in real time – for safer driving, every mile of the way.

The MP Camera works alongside several active and passive safety systems that run constantly in the background and give you instant feedback, for instance when changing lane or braking. Intelligent Speed Assist comes on every model, as standard or as an option depending on the model. Active Lane Keeping Assist is standard across all Mercedes-based series.

Every Mercedes-based KABE model is also equipped with a broad range of safety features:

- Heavy Duty engine
- Active Brake Assist
- Headlight Assist
- Rain sensor
- Side Wind Assist (not for tandem-axle models)
- Attention Assist

In addition, Abisko Van includes parking sensors and blind-spot monitoring.

For those who want even more, the Advanced Plus package is available for Novum, Royal and Crown. It includes:

- Thermotronic climate control in the cab
- LED main and dipped beam headlights (standard on Crown)
- High beam assist (not for Crown)

Fully integrated tandem-axle models have a standard gross vehicle weight of 5,500 kg, providing both a higher payload and greater stability.

For extra comfort on the road, Mercedes' adaptive cruise control, Distronic (standard on Imperial and included in the Advanced Package), automatically helps you maintain a safe distance from the vehicle ahead. It's especially useful on motorways and in slow-moving traffic.

Smart technology and driving pleasure in perfect harmony

Safety combined with modern technology and a well-considered driver environment. Our motorhomes have an elegant front design, outstanding comfort and a broad range of connected features. From 2027, every Mercedes-based KABE model comes with the 9G-Tronic automatic transmission, optimised for the needs of a motorhome with smooth gear changes, low fuel consumption and reduced emissions.

MBUX is an intelligent infotainment system with voice control, an intuitive 10.25-inch touchscreen and smart features for navigation, entertainment and communication. MBUX includes:

- Intelligent voice control with AI learning
- 3D graphics and real-time navigation
- Bluetooth hands-free connectivity
- Real-time navigation and traffic information (option)

The system is easily controlled via the touchscreen or the touch controls on the leather steering wheel.

A reversing camera, Keyless Start and electrically adjustable, heated door mirrors add further driving comfort. Some features are available as options.

Safety in focus – with the help of modern technology.

AL-KO chassis – greater driving comfort

Thanks to our partnership with Mercedes-Benz and chassis supplier AL-KO, we build our motorhomes on one of the most advanced platforms on the market. The chassis are specially developed with optimised suspension and damping for a stable, car-like driving experience.

In KABE's fully integrated model series, the super-low AL-KO chassis creates more space between the upper and lower floors, allowing for larger fresh- and grey-water tanks and additional storage for holiday gear. The updated side skirt package has integrated hatches with an elegant design. TRAQ i830 with rear-wheel or four-wheel drive has a different chassis.

The Novum, Royal, Crown and Imperial series are also prepared for a range of practical options – HY4 hydraulic levelling jacks (standard on Imperial), a tow bar, ClickFix mechanical jacks and a rear load carrier.

For those who want extra driving comfort, two suspension systems are available as options: AL-KO X2 and X4 air suspension for two- and three-axle vehicles. X2 rear air suspension provides a smoother ride that is noticeable throughout the vehicle, and the rear ride height can be adjusted – perfect for ramps, such as a ferry ramp. X4 is full air suspension, front and rear, for maximum ride comfort and a quieter cabin (X2 only on TRAQ i830). The front and rear can be raised and lowered independently and a useful levelling function is also included.

AL-KO Comfort Drive ACD is available as an option on two-axle models in Heavy specification and uses active dampers that adapt to changing driving conditions. The result is quieter driving, greater stability, more precise steering and clearly improved ride comfort.

KABE + Mercedes-Benz + AL-KO – a perfect partnership

More space – more possibilities!

Want to bring more on your journey? Choose a KABE with generous storage space. Our garage and QB models have room for bikes, tables and chairs – everything you need for a great trip. A bike rack is available as an option.

Our fully integrated models make efficient use of the double floor*, and on front-wheel-drive models the space between the floors is especially generous. In the Travel Master i830 LQB, you can access the storage area directly from the garage. Pull-out storage drawers are standard on Imperial and included in Crown Prime-Comfort – easy to lift out and pack wherever it suits you.

Anchorage points keep your luggage securely in place, and integrated storage hatches provide easy access.

* TRAQ i830 has a higher chassis, which affects the available storage space.

Built on Fiat Ducato

KABE Classic is built on the latest Fiat Ducato chassis, which combines dependable engineering with a car-like feel. A powerful 140 hp engine comes as standard, and 180 hp is available as an option.

KABE Classic comes with a smooth 8-speed automatic transmission that provides an easy, comfortable drive and is perfectly matched to the motorhome's 740 length. A comprehensive safety package is standard from model year 2027 – featuring Driver Drowsiness Detection, Intelligent Speed Assistance, Traffic Sign Recognition and Lane Keeping Assist.

Modern infotainment for the whole journey

The right entertainment makes every journey more enjoyable. KABE Classic comes with a Pioneer media player and a large 9-inch touchscreen. It supports both wireless and wired Apple CarPlay and Android Auto – so you can easily mirror your phone, use apps and control features straight from the screen.

Split Screen Mode lets you view maps while controlling music or other functions. The sound system is also optimised for a first-class experience.

The multimedia player includes:

- DAB + digital radio
- Wireless Apple CarPlay and Android Auto
- Bluetooth, Wi-Fi and AUX connectivity

Driving pleasure and peace of mind in a smart format.

Tested for the real world

Every detail is the result of careful planning, thoughtful design and robust construction. To ensure that each model meets our strict standards, we test function, durability and safety extensively. In our advanced climate chamber we expose the motorhomes to extreme temperature differences – up to 90 degrees – to simulate real conditions year-round. We test the moisture resistance, airflow, electrical systems, structural endurance and more. All to give you a motorhome you can rely on – every season, every journey.

Built to last – year after year.

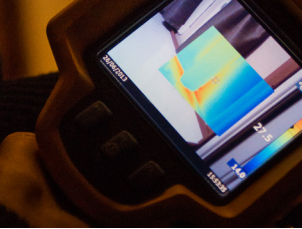

CLIMATE CHAMBER

Our motorhomes are tested under extreme conditions to guarantee durability and comfort in any climate.

EXTREME TEMPERATURE TESTING

Each motorhome is exposed to temperatures ranging from -35°C up to +55°C to perform in any climate and weather conditions.

QUALITY CONTROL

Thermal imaging is used to confirm that the entire structure meets KABE's strict quality standards.

EXCEPTIONAL WATERTIGHTNESS

Advanced techniques verify that the motorhomes are completely sealed and free of leaks.

VENTILATION

Proper ventilation is essential to comfort and safety. We make sure the system performs exactly as intended.

GAS SYSTEM

The gas system is pressure-tested for safe, efficient operation.

ELECTRICAL SYSTEM

The electrical system and every core function are checked methodically before the motorhome leaves the factory.

DURABILITY TEST – ON THE ROAD

Our shaker rig replicates up to 100,000 km of normal driving to prove long-term durability and resistance to wear.

OPTIMISED WEIGHT DISTRIBUTION

Calibrated scales balance the load precisely across the axles.

TOWING CAPACITY

Specialised equipment measure towing performance to sharpen stability and on-road safety.

STRUCTURAL STRENGTH

Pressure tests verify how each motorhome holds up under various loads.

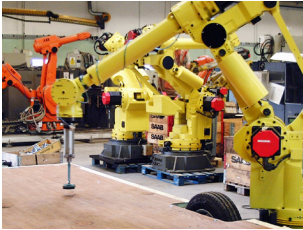

AIRFLOW

Smoke trails reveal exactly how air moves through the motorhome, allowing us to fine-tune and optimise every airflow path.

RAIN CHAMBER

In the rain chamber, each motorhome is subjected to high-pressure water to confirm a watertight seal.

ENDURANCE TEST – BODYWORK

Every section of the bodywork is tested for structural integrity over time.

MANUFACTURING

Modern production engineering and meticulous quality assurance run through the entire build process.

2027 model range

Which KABE suits you best? We know needs differ, because we all travel differently and want different things. That is why we offer six distinct model series – each with its own character and strengths. Whichever motorhome or van you choose, you can trust that it is built for the Nordic climate, with KABE's renowned year-round comfort, advanced safety systems and a host of smart solutions. Every model is generously equipped – so you get more, whichever KABE you choose.

KABE Abisko Van

Smart, agile and ready for new adventures. The Abisko Van is a compact, thoughtfully designed van built for carefree travel all year round. With its easy-to-manoeuve 6.97-metre length, it delivers everything you expect from KABE: a consistently high standard, smart solutions and top-class Mercedes-Benz technology. For those with particular transport needs, the model is available with twin rear wheels, giving a total permitted gross train weight of up to 7 tonnes, ideal for a horse trailer, work equipment or a boat. A white exterior with 3D decals comes as standard. Grey metallic is available as an option.

Page 44

KABE Classic

KABE Classic is our entry-level motorhome range, built on the latest Fiat Ducato chassis. With a powerful 140 hp engine, a responsive 8-speed automatic transmission and practical overall length of 7.40 metres, Classic offers impressive driving dynamics and a car-like driving experience. The Classic range pairs robust construction with reassuring year-round comfort and practical features included as standard.

New for 2027! The Crossover models x740 LXL and LGB, with a King Size width of 2.45 metres and an extra drop-down bed, join the range.

Page 50

KABE Novum

A versatile semi-integrated model, built on Mercedes-Benz with an AL-KO chassis. Full KABE specification and a 3.5-tonne gross vehicle weight, can be driven on a standard category B licence. The Novum Compact, with 720 length, is especially easy to manoeuvre. The Novum x750 can be equipped with a comfortable drop-down bed above the dinette (available as an option). And the rear-wheel-drive Novum TRAQ x750 offers even greater stability and traction.

You can also choose increased gross vehicle weight of 4.5 tonnes (4.1 tonnes for TRAQ) for higher payload. The Prime-Comfort package offers a generous level of both practical features and extra comfort.

Page 58

KABE Royal

The KABE Royal is a semi-integrated motorhome that combines first-class equipment, high flexibility and real driving pleasure. With a King Size width of 2.45 metres and an additional drop-down bed, it offers generous space in several practical layouts. The Royal range is built on a Mercedes-Benz Sprinter base with an AL-KO chassis, the perfect choice for anyone who demands the most from every aspect of their motorhome. The Prime-Comfort package raises the comfort level even further.

Royal is available in 810 and 910 lengths.

Page 64

KABE Crown

The KABE Crown is our fully integrated premium range, with standard specification that goes beyond the ordinary. Crown is designed for those who want the best, in a format more agile than the very largest models. The range is recognised for thoughtful comfort and smart functionality in every detail.

The KABE Crown is built on a Mercedes-Benz base with the latest technology and a specially adapted AL-KO chassis (TRAQ i830 has a Mercedes chassis).

Crown is available in 780, 790, 830 and 880 lengths.

Page 70

KABE Imperial

The KABE Imperial is our flagship, a fully integrated motorhome created to meet the very highest demands. With generous dimensions and exclusive detailing, the Imperial offers a holiday home well beyond the ordinary. Front-wheel-drive models are built on Mercedes-Benz with a specially adapted AL-KO chassis, delivering a first-class driving experience and exceptional overall comfort (TRAQ i830 has a Mercedes chassis).

Car-like comfort and safety meet cutting-edge technology, for a luxury range that surpasses almost anything else on the road.

Imperial is available in 790, 830, 880 and 930 lengths.

10 strong reasons to choose KABE

1. Year-round comfort

KABE motorhomes are built to perform every season – from the coldest winters to the hottest summers. We never compromise on insulation, ventilation or heating. The body is constructed with our own iWall technology, which delivers maximum stability and protection against moisture. Every model comes equipped with the ALDE Compact 3030 boiler and water-based underfloor heating. Many of the features that make your KABE ideal for year-round use are built in and not always visible at first glance, but you'll feel the difference the moment you step inside.

2. Superior craftsmanship

A KABE motorhome is built with solid Swedish craftsmanship in every detail. Each model is developed from the ground up at our own development centre in Tenhult, Sweden. We invest continually in innovation and product development, and every model year brings something new. Production takes place in our own factory, one of the most modern in Europe. Skilled specialists handle every discipline, from electricians to joiners, and our suppliers are among Europe's leading names in their respective fields.

3. Value that lasts

Whichever KABE model you choose, you'll enjoy benchmark quality in its price class. Many features that come as standard on a KABE are paid extras elsewhere. We deliver thoughtful solutions and durable functionality, which is why a KABE holds its value for years to come.

4. Modern engineering

Every KABE includes the latest engineering, and even in standard trim ranks among the best-equipped motorhomes on the market. We invest heavily in forward-looking solutions for the challenges ahead, an approach that has earned us several industry awards, including for ventilation and heat recovery. Everything you need for comfortable living on the road is already on board. So before you compare prices, take a closer look at what a KABE actually includes.

5. Scandinavian design

KABE's design is inspired by the Scandinavian tradition – with light tones and natural materials that give every interior an open, airy feel. Look closely and you'll find thoughtful details such as recessed drawer fronts, rounded corners and ergonomic seat cushions. Only carefully selected materials are used to create the unique KABE feel, where design and function go hand in hand. The exterior is equally refined, with timeless lines and graphics that give each KABE its own character.

6. Practical solutions

With more than 65 years of experience building motorhomes for year-round use, every KABE is packed with clever touches that make your mobile lifestyle as easy and relaxing as it should be. From plenty of practical storage to central locking on the kitchen drawers or a USB-C socket placed exactly where you need it – it's the little things that make everyday life on the road in your KABE even better.

7. Climate and environment

Environmental responsibility runs through everything we make. We push for a cleaner, more accountable motorhome industry. KABE supports the UN Sustainable Development Goals and actively promotes fair working conditions, diversity, equality and high standards of business ethics. From the materials we choose and the way we build to energy use and emissions, the environment is part of every decision we make.

8. Safety and peace of mind

Buying a KABE is an investment in worry-free travel. We want you to feel confident in your motorhome, which is why our authorised dealers offer a full seven-year watertightness warranty on every new model. On the road, our motorhomes are equipped with several active safety systems. And should an accident occur, KABE's passive safety systems are designed to protect you in a collision. Our robust body, solid construction and steel frames that hold the battery and water tanks in place are just a few examples.

9. Authorised dealers and service

KABE's authorised dealers and service centres are located across Scandinavia and in several European countries. Our dealers offer expert advice and help with finance and insurance. Once you're on the road, more than a hundred authorised workshops across northern Europe are ready to provide professional service and support. Many have worked with KABE for decades, so you can travel with confidence, wherever the road takes you.

10. Maximum flexibility

There's a KABE for everyone. It's just a matter of finding the right size, layout and specification for you and your family. Once you've chosen a model, KABE Flexline helps you tailor it to your needs. You can easily build your KABE online with our product configurator at www.kabe.se/en, or visit your local dealer for personal guidance.

KABE Abisko Van

Travel Master Abisko Van 690

When you want to keep life simple and let the adventure take centre stage, the KABE Abisko Van is the perfect choice. A smart, compact van built in Sweden with comfort and safety on a par with a passenger car.

Despite its agile dimensions, the Abisko Van is a fully equipped premium-class motorhome with everything that defines KABE. Built on the Mercedes-Benz Sprinter it offers a modern, well-equipped driver environment together with advanced safety systems and connected features. The model has rear-wheel drive combined with a 9G-Tronic automatic transmission, delivering a stable, responsive driving experience.

Want to add a personal touch and give your vehicle a tougher look? The Off-Road Package is available as an option – distinctive exterior styling, 18-inch wheels and tyres, wheel-arch extensions and a front bar.

Standard equipment in the KABE Abisko Van

- ▶ Built on a Mercedes-Benz Sprinter A3 – 5,000 kg chassis
- ▶ Mercedes 4-cylinder diesel engine, 170 hp, Euro VI emissions class
- ▶ 9G-Tronic automatic with rear-wheel drive (4WD with 190 hp is available as an option)
- ▶ Electric parking brake
- ▶ Thermotronic – ACC air conditioning
- ▶ Attention Assist
- ▶ Active Brake Assist
- ▶ Fuel-fired heater for the engine circuit
- ▶ Cruise control
- ▶ Driving Light Assist
- ▶ Intelligent Speed Assist and Traffic Sign Recognition
- ▶ Lane Departure Warning / Active Lane Keeping Assist
- ▶ Parking sensors and blind-spot monitoring
- ▶ MB cab seats with lumbar support and protection for the seat base
- ▶ Thermal insulation in the driver's cab
- ▶ MBUX navigation with reversing camera
- ▶ 100 Ah lithium battery, 40 A battery charger and load monitor
- ▶ KABE Smart D 2.0 electrical system with IP radio
- ▶ Router
- ▶ Wireless charging pad
- ▶ TV bracket at the front and USB-C sockets at the sleeping area
- ▶ Crash sensor on the gas system – Monocontrol
- ▶ Gas filter, gas leak indicator, smoke alarm and residual-current device
- ▶ Sliding door with exterior lighting above and central locking
- ▶ Aluminium bed frame, tailored bedspreads and an upholstered headboard
- ▶ Two upholstery collections with matching cab seats and scatter cushions
- ▶ Remis blackout blinds (also in the cab)
- ▶ Compressor fridge and crash frame for the worktop and fridge
- ▶ 20/83-litre fresh water tank
- ▶ AGS II Pro automatic underfloor heating system
- ▶ KABE AirVent
- ▶ Heated mat in the driver's cab, with convectors at the entrance step and a thermal curtain at the base of the dashboard
- ▶ Heat exchanger – VVX
- ▶ ALDE diesel boiler
- ▶ Mini Heki ventilated roof hatch with insect screen and blackout blind
- ▶ Fixed roof window with blackout blind

The full standard equipment list can be found on pages 94-99.

Options and packages are listed on pages 48-49.

KABE Abisko Van 2027 – freedom front and centre

The KABE Abisko Van has an open, airy interior with a raised roof and a full 196 cm of standing height in the living area. Four belted seats and flexible sleeping arrangements make it equally suited to spontaneous trips and longer adventures. In short, it is a van for anyone who wants to combine freedom, driving pleasure and year-round peace of mind.

The interior is crafted in our own joinery in Tenhult – with ample storage on the move and generous space to relax and socialise when you stop. The Atlas Zeder décor is contrasted by fresh white inner walls and ceiling, a light floor, overhead cupboard doors in pale grey and kitchen worktop finished with Perla laminate.

The two twin single beds at the rear convert easily into a roomy double bed. The sleeping area has touch-controlled reading lights, and the bathroom features a swivel basin that frees up room to shower.

The Mercedes cab seats are trimmed in KABE design and, together with the large roof window, create a welcoming driving environment. The roof window comes with a blackout blind and an upholstered lighting strip. Exterior lighting above the sliding door adds reassurance when you arrive after dark.

The ALDE diesel heater comes as standard, delivering efficient, dependable warmth – even when off-grid. A lithium battery and the KABE Smart D 2.0 electrical system with touch panel are also included as standard.

Air conditioning is available as an option in combination with the solar panel option. Twin wheels and ALDE Flow for the 3030 Plus boiler are also offered as options.

The Abisko Van comes in crisp Camper White, with a white front, a white electric awning and KABE's distinctive 3D-effect decal set. Tenorite Grey is available as an option – an elegant blue-grey metallic finish with a black awning.

Special features of KABE Van

KABE Van features additional heating when the doors are opened, along with insulation surrounding the entire living area – even behind the structural profiles. Combined with the generous interior headroom and the double floor with integrated fresh- and grey-water tanks, it creates a comfortable and practical living environment all year round.

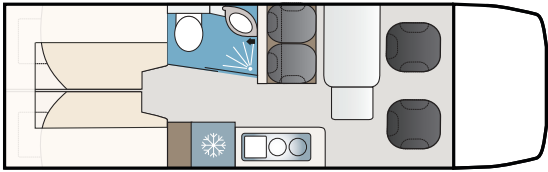

The KABE Abisko Van's distinctive year-round comfort

The KABE Abisko Van is built for the Nordic climate, with advanced insulation and water-borne heating throughout. A double floor – with insulation from both sides – protects water pipes and water tanks from cold and frost. The AGS II Pro water-based underfloor heating system, with four loops, spreads even warmth all the way to the door, the kitchen and the bathroom.

Insulation is injected into the walls, roof and cavities to eliminate cold zones and create a pleasant indoor climate. Three warm-air zones help prevent cold draughts at the transition between the cab and living area, the entrance step and the rear doors. Together with KABE's insulated window frames and optimised air circulation, the result is an even, comfortable indoor climate all year round – whatever the temperature outside.

INTERIOR DETAILS

- Wood laminate: Atlas Zeder
- Floor: Light
- Overhead cupboard doors front/rear: Cashmere
- Kitchen cupboard doors: Cashmere
- Kitchen worktop: Perla laminate
- Table: Perla laminate
- Bathroom worktop: Light Concrete laminate

KABE Classic

Travel Master Classic 740, x740

Welcome to KABE Classic – an affordable, well-equipped model range with modern features, year-round capability and Swedish craftsmanship in every detail. Classic is built on the popular Fiat Ducato chassis and pairs a 140 hp engine with an 8-speed automatic transmission. With its easy-to-manoeuvre 740 length, the range delivers stable road holding and a car-like feel behind the wheel.

Distinctive 3D-effect decals in KABE's classic colours, together with the grey-finished driver's cab, give the motorhome an exterior that feels contemporary yet enduring.

In model year 2027, we introduce two new Crossover models with a drop-down bed and a market-unique total width of 245 cm for maximum comfort.

Standard equipment in KABE Classic

- ▶ Fiat Ducato chassis 3,650 kg (also available with 3,500 kg)
- ▶ 140 hp Fiat engine with 8-speed automatic transmission
- ▶ **New! Fiat safety package included on 2027 models**
- ▶ Exterior 3D-effect decals

The full standard equipment list can be found on pages 94-99.

Options and packages are listed on pages 56-57.

KABE Classic 2027 – value and year-round capability

KABE Classic is a semi-integrated motorhome in the 3.5-tonne class that can be driven on a standard category B licence.

Three layouts are available: LXL with a double bed, plus LGB and T with twin single beds.

New for 2027! Classic Crossover is a spacious, flexible motorhome with LXL and LGB layouts, a unique total width of 245 cm and a practical drop-down bed.

From model year 2027, the Fiat Safety Package is included as standard – Driver Drowsiness Detection, Intelligent Speed Assistance, Traffic Sign Recognition and Lane Keeping Assist.

INTERIOR DETAILS

- Wood laminate: Nordic Oak
- Floor: Light
- Overhead cupboard doors front/rear: Light beige
- Kitchen cupboard doors: Light beige
- Over cab locker door: Light beige
- Kitchen worktop and splashback: Latte laminate
- Accent wall: Nordic Oak
- Table and side unit: Latte laminate
- Entrance side unit: Latte laminate
- Bathroom worktop: Urban Style laminate
- Bathroom cupboard doors: Light beige
- Wardrobe doors (bedroom): Light beige
- Fabric collections: Hampshire (black), Tulsa (beige)
- Leather is available as an option

Travel with light and space around you!

The modern Nordic Oak décor forms the foundation of the interior with the floor, walls, table, worktops and Plexiglas surfaces all coordinated in matching tones. The overhead cupboard doors have a light beige finish that, together with handles and interior details in high-gloss chrome, creates a bright, harmonious interior.

The L-shaped sofa provides comfortable seating, whether you're travelling or relaxing over a meal at your destination. Every seat cushion has a non-slip underside to keep it in place. An important KABE safety feature is the integrated impact frame in the dinette sofa, which helps prevent the passenger from sliding beneath the seat belt in a collision.

Classic has a well-equipped kitchen with practical work surfaces and plenty of storage in cupboards and drawers. Soft-close drawers come as standard. A lid that fits over the sink creates a larger uninterrupted work surface for cooking and food preparation. A surface-mounted mixer tap is included, and the worktop in glossy Latte laminate is easy to wipe down and keep clean.

The 2027 models have a new, larger sink with a gently sloping base for better drainage and more room for washing pots, frying pans and larger utensils.

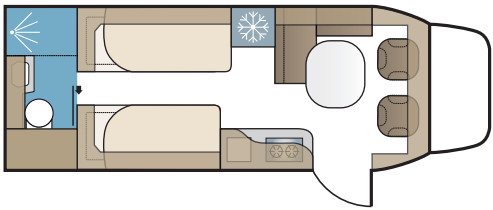

The kitchen accent wall is finished in the Atlas Zeder décor, while lighting beneath the worktop adds a welcoming touch. There is a roomy Thetford fridge with freezer compartment, and you can add our newly developed Thetford convection oven (available as an option).

Choose the bedroom layout that best suits you and your family – twin single beds or a double bed. The Crossover models feature a drop-down bed above the dinette – a clever solution for extra overnight guests. A cosy upholstered headboard with practical reading lights above is included in every Classic.

The bright, airy design carries into the bathroom, where you'll find a proper shower. The range features a swivel flush toilet with exterior emptying.

A few additional items that raise the comfort level in the KABE Classic are a reversing camera, electrically adjustable door mirrors, a roomy garage and a reliable electrical system. The cab seats are trimmed in KABE design to coordinate with your chosen upholstery.

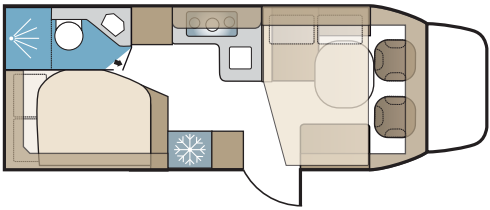

TM Classic 740 T

Classic 740 T offers plenty of space for comfortable travel. The large rear bathroom extends across the full width of the vehicle and houses both a shower and storage. The twin single beds in the sleeping area provide flexibility, and the living area has an inviting L-shaped sofa beside a functional kitchen. An excellent choice if you value a well-planned layout and functional solutions.

TECHNICAL SPECIFICATION

Interior length, living area	4856 mm
Interior width	2238 mm
Interior height	1960 mm
Overall length	7400 mm

Overall height	2850 mm
Sleeps (incl. dinette)	2 - 4
Driver + number of passengers	1 + 3
Rear bed	1940 x 780 + 1790 x 780 mm
Dinette bed	1640 x 1175 / 1065 mm
Storage opening W/H	670 x 1335 + 660 x 375 mm

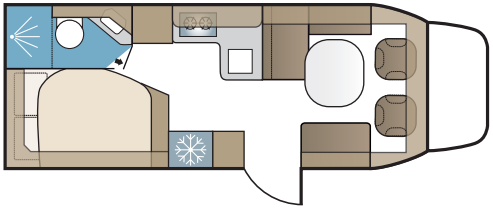

TM Classic x740 LXL

The new Classic x740 LXL is a flexible Crossover model based on the same layout as the 740 LXL, but with an even roomier interior thanks to its generous width. A drop-down bed at the front provides two extra berths without compromising the living space during the day. At the rear is a comfortable sleeping area with a double bed and a separate bathroom with shower. The L-shaped kitchen offers ample worktop space and smart storage, while the welcoming seating area at the front is a natural place for meals and socialising.

TECHNICAL SPECIFICATION

TM Classic 740 LXL

Classic 740 LXL is a spacious, intelligently designed model with a comfortable rear double bed and a separate bathroom with shower. The practical L-shaped kitchen provides generous worktop space and plenty of storage for everything you need day to day. At the front, you'll find a spacious seating area where you can relax in comfort – both on the road and once you've reached your destination.

TM Classic x740 LGB

In the new Classic x740 LGB Crossover model we take comfort a step further with an extra-wide body that creates an even roomier living environment. The practical drop-down bed at the front provides two extra berths without taking up living space during the day. At the rear are raised twin single beds with a generous storage space beneath, easily accessed via the exterior hatch. The centrally positioned bathroom with shower is opposite the kitchen. At the front is a spacious, inviting seating area.

KABE Novum

Travel Master Novum c720, x750

KABE Novum is a lightweight 3.5-tonne motorhome – affordable and full of clever solutions. The range is built on the Mercedes-Benz Sprinter with a specially adapted AL-KO chassis, and comes in two lengths: 720 cm (Compact) and 750 cm (Crossover). For those who want greater payload, a 4.5-tonne gross vehicle weight is available as an option.

Every Novum model offers high comfort from the start, and the generous Prime-Comfort package raises the standard further still. Novum Compact is a slightly shorter, narrower model with particularly agile handling, ideal both on the open road and on site. For Novum x750 you can choose a practical drop-down bed as an option.

Novum TRAQ x750 LGB completes the range with rear-wheel drive, high towing capacity and excellent road stability. The Off-road package gives the model an even more powerful, adventurous character, with a distinctive exterior, front bar, all-terrain tyres and special wheels among other touches.

Standard equipment in KABE Novum

- ▶ Built on the Mercedes-Benz Sprinter
- ▶ AL-KO chassis 3,500 kg (TRAQ x750 MB chassis)

KABE Novum 2027 – smart, flexible and full of possibilities

Choose a compact model for easy manoeuvring and low weight, a spacious x750 with two additional berths and generous living space – or the rear-wheel-drive TRAQ x750 for greater towing capacity and enhanced off-road capability. Whichever model you select, you'll enjoy functional solutions, exceptional comfort and a modern motorhome built for an active life on the road.

The interior is defined by KABE's exclusive Atlas Zeder décor, paired with latte coloured laminate table tops, light concrete look worktops and light walls and floor – an interior that creates space and calm.

New to the Novum kitchen is a larger sink with a gently sloping base for better drainage, plus upgraded kitchen drawers with a sturdy metal insert. The cupboard doors and drawers feature soft-close and are fitted with black handles. With the Dometic hob and the roomy Thetford fridge with its integrated freezer compartment, the kitchen is designed for everyday life and holidays alike.

The L-shaped sofa keeps you comfortable for the whole journey. The cushions have Premium Foam padding and a non-slip underside. Choose from four fabrics collections, so the interior reflects your personal style. Leather upholstery is available as an option.

From model year 2027, every Novum is updated with a light matching colour on the upper cab storage and upholstered window panels around the habitation windows, giving the interior a more contemporary feel.

The Mercedes cab seats feature KABE's exclusive design.

The bedroom adapts easily to your needs – choose two twin single beds or a double. An upholstered headboard and soft wall surfaces create a cosy feel. A black reading light and KABE's smart touch panel for the lighting are also included.

Every Novum has a proper bathroom with shower. The reliable Lilie pressure water pump ensures a steady supply, and ALDE Flow for the 3030 Plus boiler is available as an option for extra hot-water comfort.

Tailor your Novum to your needs

Our optional packages make it easier than ever to tailor your Novum and create a home that fits your family's lifestyle – see pages 86-89.

The Novum TRAQ x750 LGB is an excellent choice if you own horses and want to tow a horse trailer. The motorhome combines outstanding driving comfort with extra towing capacity, and its rear-wheel-drive design delivers stable, secure handling even under heavy loads.

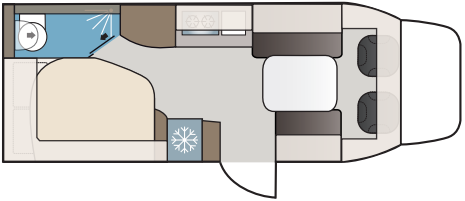

New to Novum! The new FlexiStorage option is a practical storage package with a tool board for the garage wall and two clever storage bags to keep your holiday equipment in order. The new rectangular exterior garage hatch gives you easy access to the storage space.

For the 2027 Novum range, the Winter package now includes convectors around the driver's and passenger's seats!

INTERIOR DETAILS

TM Novum c720 LXL

The Novum Compact c720 LXL is a slightly more compact model with particularly agile handling and everything you expect from KABE. A comfortable double bed sits at the rear alongside a bathroom with shower. The practical straight kitchen is centrally positioned, with the refrigerator opposite by the entrance, keeping everything within easy reach. Up front, the face-to-face seating area creates a welcoming atmosphere. A drop-down bed above the dinette is available as an option.

TECHNICAL SPECIFICATION

Interior length, living area	4392 mm
Interior width	2050 mm
Interior height	1960 mm
Overall length	7158 mm
Overall width	2238 mm
Overall height	2905 mm
Sleeps (incl. dinette)	2 - 4
Driver + number of passengers	1 + 3
Rear bed	1960 x 1320 / 1000 mm
Dinette bed	1970 x 1130 / 840 mm
Drop-down bed (option)	1730 x 1020 / 900 mm
Storage opening W/H	793 x 600 mm

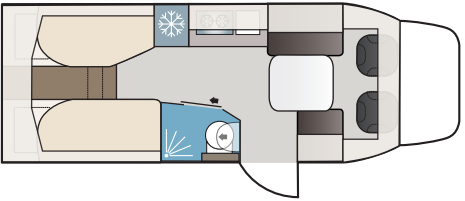

TM Novum x750 LXL

The KABE Novum x750 LXL includes everything you need for a relaxed, functional holiday home – all year round. At the rear are a comfortable double bed and a bathroom with shower. The L-shaped kitchen offers smart solutions for cooking and storage. Above the dinette there's room for a practical drop-down bed – a popular option that provides two extra berths.

TECHNICAL SPECIFICATION

Interior length, living area	4680 mm
Interior width	2238 mm
Interior height	1960 mm
Overall length	7445 mm
Overall width	2390 mm
Overall height	2905 mm
Sleeps (incl. dinette)	2 - 4
Driver + number of passengers	1 + 3
Rear bed	1960 x 1320 / 1000 mm
Dinette bed	2150 x 1280 / 862 mm

The Off-Road Package includes a practical rear ladder for easier access, while reinforcing the vehicle's rugged appearance.

KABE Royal

Travel Master Royal x810, x910

The Royal series offers fully equipped motorhomes from the outset – ideal if you want modern technology, exceptional comfort and great flexibility. At 245 cm wide, Royal offers a sense of space no other motorhomes can match.

Built on the Mercedes-Benz Sprinter, Royal comes in two lengths: 810 cm and 910 cm. The Crossover layout, with its drop-down bed above the dinette, provides two additional berths without compromising the living space during the day. The custom AL-KO chassis provides road stability and outstanding driving comfort. A spacious cab and smart features make everyday life easier – whatever the season or destination.

Standard equipment in the KABE Royal

(in addition to the Novum standard equipment listed on page 59)

- ▶ King Size width – 2.45 m (Royal, Classic x740)
- ▶ AL-KO chassis 4,500 kg / AL-KO tandem chassis 5,200 kg
- ▶ DRL
- ▶ 92-litre fuel tank
- ▶ Roomy 167-litre Thetford fridge with a freezer compartment
- ▶ Electric drop-down bed above the dinette
- ▶ Electric headboard (LQB models only)

Prime-Comfort

- ▷ Advanced package
- ▷ Design package
- ▷ 170 hp engine
- ▷ Royal exterior styling
- ▷ Built-in oven (integrated into the kitchen worktop)
- ▷ Automatic underfloor heating system – AGS II Pro
- ▷ 150 Ah lithium battery
- ▷ 40 A battery charger
- ▷ Load monitor

The full standard equipment list can be found on pages 94-99.

Additional packages and options are listed on pages 86-93.

* Not included in combination with the option face-to-face sofa.

KABE Royal 2027 – first-class comfort as standard

Life should be practical – without compromising on style. In the Royal 2027, smart function and elegant design meet in perfect balance. At a unique 2.45 metres wide, the Royal series offers an impressive sense of space you notice the moment you step inside.

New for 2027 models: a larger sink with improved drainage, plus upgraded kitchen drawers with sturdy metal inserts for an improved fit. Royal is updated with upholstered panels around the front windows, like those in the bedroom, and a light matching colour on the upper cab storage. The Winter package now includes convectors around the driver's and passenger's seats!

INTERIOR DETAILS

- Wood laminate: Atlas Zeder
- Floor: Light
- Overhead cupboard doors front/rear: Cashmere
- Kitchen cupboard doors: Cashmere
- Over cab locker door: Atlas Zeder
- Kitchen worktop and splashback: Light Concrete laminate and Latte with Plexiglas on the wall
- Accent wall: Cashmere
- Table and side unit: Latte laminate
- Entrance side unit: Light Concrete laminate
- Bathroom worktop: Light Concrete laminate
- Bathroom cupboard doors: Atlas Zeder
- Wardrobe doors (bedroom): Atlas Zeder
- Fabric collections: Hampshire (black), Tulsa (beige), New Haven (dark brown), Tucson (brown)
- Leather is available as an option

The warm Atlas Zeder décor sets the tone for the interior, complemented by modern black design details. The kitchen features recessed cupboard doors and drawers, while the light worktop adds both space and an elegant look. With the new roomy square sink, a black surface-mounted mixer tap, a Dometic hob and a Thetford fridge, cooking becomes a real pleasure.

The Prime-Comfort package includes a fold-down armrest for the dinette sofa, and the belted seat has a slide-out function – ensuring a comfortable, safe journey. You can adjust the angle of both the seat and the backrest. The sofa construction also stops you sliding under the belt in a collision. The face-to-face sofa option creates an open, sociable seating area, and in some models there is room for a height-adjustable 32-inch TV between the sofa and the kitchen (TV not included).

The Royal series offers four textile collections, and luxurious leather upholstery is available as an option. The seat cushions have a non-slip underside that keeps them in place on the move.

At KABE, outstanding sleeping comfort is always a natural part of the whole. The bedroom has an upholstered suede-effect headboard and walls clad in matching material, creating a cosy feel and a clean look without curtains. The beds have sprung mattresses, thick mattress toppers and comfortable, responsive slatted bases. In several models the headboard can be raised or lowered as needed. Modern black reading lamps and touch-operated switches are also included.

Crossover – smart bed solution for overnight guests

Our Royal models provide two additional berths with the electric drop-down bed above the dinette.

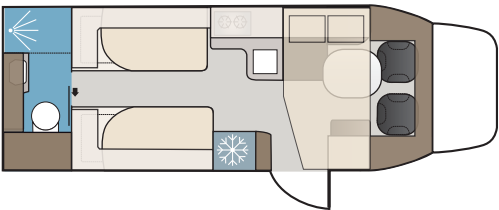

Sleep soundly through the night, and come morning the bed folds neatly away to make room for breakfast around the table. The drop-down bed is integrated flush with the ceiling – both practical and elegant.

The bathroom naturally complements the rest of the interior. The Lilie pressure water pump provides an especially reliable water supply.

The Mercedes cab seats feature KABE's exclusive upholstery and, together with the grey thermal curtain, create a unified driving environment. Passengers in the belted dinette seats travel safely and comfortably, thanks to Isofix mounts and adjustable headrests.

Additional options include KABE Smart Level with a gas-level sensor, tyre-pressure monitoring and a levelling display, as well as the Distronic adaptive cruise control in the Advanced package.

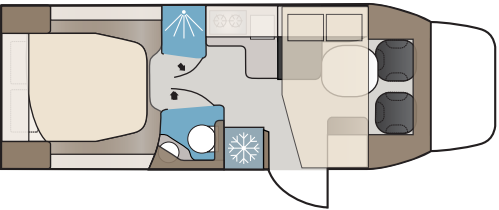

TM Royal x810 LT

The KABE Royal x810 LT ranks among our most popular Crossover models, with twin single beds and a spacious rear bathroom with a separate shower. In the bathroom, the worktop laminate continues onto the wall behind the mirror and into the shower creating a cohesive look. The large seating area sits conveniently beside the kitchen – ideal when you want to enjoy cooking, good company and the meal all at once.

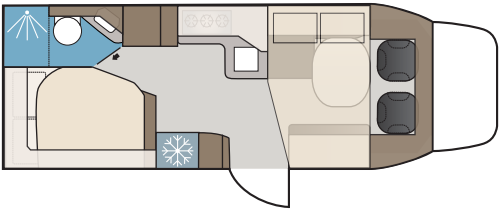

TECHNICAL SPECIFICATION	
Interior length, living area	5190 mm
Interior width	2316 mm
Interior height	1960 mm

TM Royal x810 LQB

Thoughtful and spacious – the KABE Royal x810 LQB has a large, centrally positioned double bed at the rear and an electric drop-down bed above the dinette for two more. The bathroom and shower are on either side in the centre, and opening the doors creates a private bedroom area. Generous seating and an L-shaped kitchen make this a holiday home with something extra.

Storage opening W/H	2 x 690 x 995 mm

TM Royal x810 LGB

The KABE Royal x810 LGB is inspired by the LQB layout. It features raised twin single beds above a generous garage easily accessed from outside. KABE's generous standard equipment comes as a matter of course, with smart features designed for life on the road. The L-shaped kitchen, spacious five-person seating area and the separate shower and toilet provide genuine comfort – however long the journey.

TECHNICAL SPECIFICATION

In our Royal models, the electric drop-down bed provides additional sleeping accommodation at the touch of a button.

KABE Crown

Travel Master Crown i780, i790, i830, i880

The front-wheel-drive models in the Crown range are now built on the newly developed super-low AL-KO chassis, its frame rails lowered by 9 cm for greater stability and room for larger water tanks and holiday gear. The rear-wheel-drive TRAQ i830 is built on a different chassis.

KABE Crown combines car-like handling with high comfort, advanced technology and innovative solutions that make both driving and life at your destination easier and more enjoyable. Inside, exclusive joinery, comfortable sofas and beds and a intelligently designed interior enhance every journey. The range is available in several well-planned layouts, so finding a model to suit your needs and your travel style is simple.

The KABE Crown is, quite simply, a motorhome that excels in every respect.

Standard equipment in the KABE Crown

(in addition to what is included in Novum p. 59 and Royal p. 65)

- ▶ AL-KO chassis 4,500 kg / AL-KO tandem chassis 5,500 kg (TRAQ i830 has a Mercedes-Benz chassis)
- ▶ Painted front bumper and white aluminium roof trim
- ▶ Electric windscreen blind and electric sun blinds for the cab side windows
- ▶ Manual drop-down bed above the dinette
- ▶ 20/280-litre fresh-water tank (20/200-litre for TRAQ i830)
- ▶ Heating package at the passenger seat
- ▶ Heki II roof window with insect screen and blackout blind
- ▶ Additional heating unit in the side cabinet, connected to the underfloor heating system
- ▶ Driver and passenger seats with integrated seatbelts
- ▶ Turntable/pull-out rail for gas cylinders
- ▶ New! Indus Eco – a modern toilet system without the need for additives
- ▶ The TRAQ i830's high gross train weight allows a towing capacity of up to 1,980 kg

Prime-Comfort

- ▷ **Advanced package**
- ▷ **Design package**
- ▷ 170 hp engine (190 hp for TRAQ i830)
- ▷ Royal exterior styling
- ▷ Built-in oven positioned above the fridge (i790 integrated into the worktop)
- ▷ AGS II Pro automatic underfloor heating system
- ▷ 150 Ah lithium battery
- ▷ 40 A battery charger
- ▷ Load monitor
- ▷ Lighting in under-bed storage compartment
- ▷ Wardrobe lighting
- ▷ Wireless charging pad
- ▷ Gas filter
- ▷ Crash sensor on the gas system (Monocontrol)
- ▷ Motion sensor exterior lighting
- ▷ Armrest for the dinette sofa
- ▷ 6 cm mattress topper – not for garage models LGB/LQB
- ▷ Slide-out sofa
- ▷ Electric drop-down bed above the dinette
- ▷ Ladder for the drop-down bed
- ▷ KABE AirVent
- ▷ Tinted double-glazed windows – D-Lux grey metallic
- ▷ Pull-out side access storage drawers

The full standard equipment list can be found on pages 94-99.

Additional packages and options are listed on pages 86-93.

KABE Crown 2027 – technology and design in perfect balance

The KABE Crown has everything you could wish for. Built for Nordic conditions, this fully integrated, year-round motorhome combines the highest standards of technology and design. The wide habitation door makes stepping in easy and lets more light into the vehicle. Unlock the door and the entrance light comes on – a welcoming touch.

Inside, the Atlas Zeder décor with a warm brown tone is complemented by overhead cupboard doors and kitchen cabinets in lighter shades. The roof window lets in plenty of daylight, giving the whole living area a wonderful sense of openness. The kitchen is thoughtfully planned with generous worktop space – every detail chosen with care, with function and comfort in your leisure home in mind.

New for 2027 are a larger sink and upgraded kitchen drawers with sturdy metal inserts.

Sleep as well as at home in the KABE Crown. Upholstered suede-effect headboard and soft wall surfaces, high-quality mattresses, ambient lighting, reading lamps and smart touch switches all make for restful nights. The aluminium bed frame is sturdy, and an electrically adjustable headboard is available as an option (standard on LQB).

Comfortable behind the wheel – at ease on site

The Mercedes cab seats feature KABE's exclusive upholstery, while seat heating or cooling is available as an option for year-round comfort. The windscreen has an electric blind for privacy, and electric sun blinds for the cab side windows are included too. A grey thermal curtain in the lower cab helps keep the indoor climate more even.

The L-shaped sofa offers plenty of comfortable seating, and luxurious leather upholstery is available as an option. The Prime-Comfort package includes a slide-out function at the belted dinette, with adjustable seat and backrest plus a fold-down armrest. Isofix and individually adjustable headrests are included. The dinette sofa is engineered to hold the passenger safely in place in a collision – a key part of KABE's approach to safety. Together, they create secure, comfortable seating for every passenger.

Reading lights with USB-C sockets are positioned throughout the interior, and specific models have room for a height-adjustable 32-inch TV between the sofa and the kitchen (TV not included).

For 2027, Crown models are updated with new modern upholstered panels around all the front windows.

New! KABE is the only motorhome manufacturer to offer INDUS ECO as standard – a modern toilet system without the need for additives. With low water consumption, quiet operation and smart waste handling, you get superior comfort, easier maintenance and a more sustainable, cost-effective way to travel.

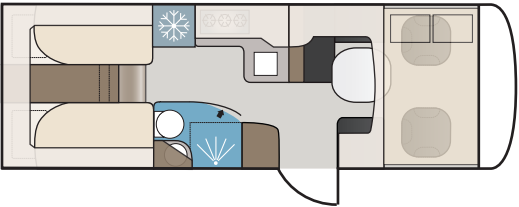

The extra-deep storage compartments in the double floor provide plenty of room for larger water tanks and holiday equipment. The gas locker features a handy turntable or pull-out rail (depending on the model), making heavy gas bottles much easier to handle.

Options include ALDE Flow for the 3030 Plus boiler for even greater hot-water comfort, Distronic adaptive cruise control (included in the Advanced package), and KABE Smart Level for easier levelling and better control of the vehicle.

INTERIOR DETAILS

TM Crown i780 LGB

A smart single-axle model with room to spare. The raised twin single beds at the rear create space for a substantial storage area beneath, easily accessed from outside via the large side hatch. The living area has a practical L-shaped kitchen, a bathroom with shower and a comfortable seating area. Perfect for those who want to travel in comfort – without compromising on holiday luggage.

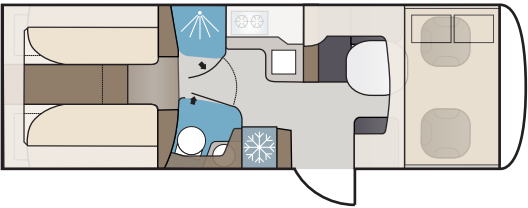

TECHNICAL SPECIFICATION	
Interior length, living area	5064 mm
Interior width	2180 mm
Interior height	1960 mm
Overall length	7820 mm
Overall width	2329 mm
Overall height	3065 mm
Sleeps (incl. dinette)	2 - 6
Driver + number of passengers	1 + 3
Rear bed	1960 x 780 + 1960 x 700 mm
Dinette bed	2060 x 1175 / 555 mm
Drop-down bed	1880 x 1220 mm
Storage opening W/H	2 x 945 x 1170 mm

TM Crown i830 LGB

No need to compromise on living space – beneath the raised twin single beds at the rear is a substantial storage area, easily accessed via a large exterior hatch on the outside. The layout also includes a well-equipped L-shaped kitchen with ample storage, a comfortable seating area at the front and a bathroom with shower. Comfortably sleeps up to six people.

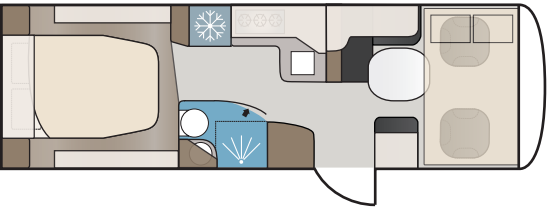

TECHNICAL SPECIFICATION

TM Crown TRAQ i830 LQB

The TRAQ i830 LQB combines the best of both worlds: a spacious, smart layout with rear-wheel drive. Twin rear wheels deliver an impressive train weight of up to 7 tonnes – perfect for towing heavier trailers such as a horse trailer or small car. A generous Queen-size bed is at the rear, with a drop-down double bed at the front. Together with the dinette converted into a bed, the model offers up to six berths. With its L-shaped kitchen, smart storage and room to spare, you travel in style.

TECHNICAL SPECIFICATION

Drop-down bed	1880 x 1220 mm
Storage opening W/H	2 x 945 x 1170 mm

TM Crown i880 LQB

A spacious model with a well-thought-out living area. The large L-shaped kitchen sits directly beside the dinette, creating a welcoming social space. Further back, the shower and toilet are positioned opposite each other, and at the very rear is a centrally positioned Queen-size bed. A comfortable home on the road – for those who want a little more of everything.

KABE's rear-wheel-drive TRAQ models offer high towing capacity and stable handling – ideal for horse trailers.

The Prime-Comfort Package includes a built-in Thetford oven above the fridge.

KABE Imperial

Travel Master Imperial i790, i830, i880, i930

Imperial is KABE's most exclusive model range, defining the very highest level of premium motorhome travel. Every detail has been developed with maximum comfort, advanced technology and uncompromising safety in mind – both on the move and once you've reached your destination.

An elegant interior with beautifully crafted joinery, luxurious leather upholstery and advanced comfort equipment delivers a first-class experience throughout. Hydraulic levelling jacks, a reversing camera and a navigator come as a matter of course. The kitchen is fully equipped and designed for those who enjoy cooking. In the bedroom, you can choose a Queen-size bed, and a spacious bathroom is included in every layout. KABE is the only motorhome manufacturer to offer the INDUS ECO toilet solution as standard in fully integrated models!

The front-wheel-drive models are built on Mercedes-Benz with a super-low AL-KO chassis and tandem axles at the rear for a stable, safe and comfortable drive. TRAQ i830 models have a rear-wheel-drive Mercedes-Benz chassis. On the outside, the Imperial range is distinguished by exclusive 3D-effect decals, integrated hatches and a design that clearly expresses its position at the very top of the KABE range.

Premium equipment as standard on KABE Imperial

(in addition to what's included in Novum p. 59, Royal p. 65, Crown and Prime Comfort p. 71)

- ▶ AL-KO tandem chassis 5,500 kg (TRAQ i830 has a Mercedes-Benz chassis)
- ▶ 170 hp Mercedes-Benz engine (190 hp MB engine for TRAQ i830)
- ▶ Thermotronic – automatic climate control (ACC)
- ▶ Fuel-fired heater for the engine circuit
- ▶ Distronic – adaptive cruise control (distance to the vehicle in front)
- ▶ Intelligent Speed Assistance and Traffic Sign Recognition
- ▶ Leather steering wheel
- ▶ Chrome radiator grille
- ▶ Alloy wheels
- ▶ MBUX navigation
- ▶ Heated windscreen
- ▶ Two 150 Ah lithium batteries
- ▶ Inverter
- ▶ Imperial Sound System
- ▶ Router
- ▶ Ambient lighting
- ▶ Electric locking for the kitchen worktop
- ▶ Built-in oven
- ▶ Glass shower door (i880 and i930)
- ▶ Two leather upholstery collections (and four textile options)
- ▶ Scatter cushions
- ▶ Tailored bedspreads
- ▶ Dometic Fresh Jet FJ2600 – living area air conditioning
- ▶ Solar panel
- ▶ Heating mat in the cab with convectors at the entrance step
- ▶ Heat exchanger – VVX
- ▶ Central locking on multiple exterior hatches
- ▶ Shower outlet in the garage
- ▶ Hydraulic levelling jacks
- ▶ Induction hob with two gas burners
- ▶ KABE Smart Level
- ▶ Electrically opening passenger-side window

The full standard equipment list can be found on pages 94-99.

Additional packages and options are listed on pages 86-93.

KABE Imperial 2027 – new heights of luxury

The KABE Imperial is a year-round motorhome in which the very best comes as standard. You get a premium experience in every detail – high comfort, advanced technology and exclusive material choices, right from the first moment.

The interior has a warm, welcoming feel, with light contrasts and clean detailing, while the cab and living area merge naturally into an elegant, unified whole.

The driving environment is distinguished by KABE's exclusive leather upholstery and cab seats with integrated seatbelts.

INTERIOR DETAILS

- Wood laminate: Atlas Zeder
- Floor: Light
- Overhead cupboard doors front/rear: Cashmere
- Kitchen cupboard doors: Sabbia High Gloss
- Kitchen worktop and splashback: Corian Savannah and Latte with Plexiglas on the wall
- Accent wall: Cashmere
- Table and side unit: Latte laminate
- Entrance side unit: Light Concrete laminate
- Bathroom worktop: Light Concrete laminate
- Bathroom cupboard doors: Atlas Zeder
- Wardrobe doors (bedroom): Atlas Zeder
- Leather collections: Cornwall (dark grey), Somerset (beige)

The kitchen in the Imperial range combines elegant design with practical functionality and generous work surfaces. High-gloss kitchen cupboard doors, the Corian Savannah worktop and well-considered details make for a well-equipped cooking space. Every model has an induction hob with two gas burners, a large square sink, a Flexi mixer tap and a separate built-in oven above the spacious Thetford fridge (in the i790 the oven is integrated into the worktop). The i910 models feature a handy drop-down shelf for the coffee maker.

New for 2027 are a larger sink with better drainage and upgraded kitchen drawers with a sturdy metal insert. Upholstered panels around the front windows, matching those in the bedroom, give the interior a timeless feel.

There is space for a height-adjustable 32-inch TV between the kitchen and the sofa (TV not included).

The L-shaped sofas have a slide-out function with adjustable seat and backrest, plus a fold-down armrest. Isofix belt anchorages and adjustable headrests are included, and the seat is designed to help prevent you from sliding beneath the seat belt in a collision.

Upholstered walls in the bedroom create a snug, homely feel. Reading lamps in black chrome and touch switches with a dimmer function set the right mood for an evening's rest. An electrically adjustable headboard is standard on LQB models (available as an option on LGB).

Choose between a spacious bathroom or a separate shower and toilet. The second option turns the doors into room dividers, giving you a private sleeping area when they are open.

The new INDUS ECO toilet system comes as standard – a modern toilet solution that requires no additives.

The Lillie pressure water pump keeps the water supply steady and reliable.

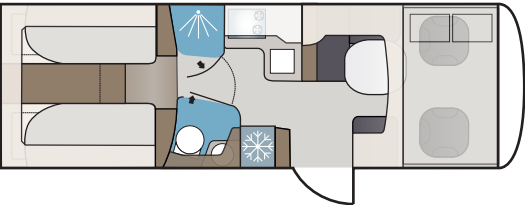

Equipped to the limit – and then some

The Dometic FreshJet FJ2600 air conditioner keeps it pleasantly cool on hot summer days. The Imperial series is also more connected than ever, with KABE Smart D 2.0, a wireless router and a charging pad as standard. KABE Smart Level keeps you informed of gas level, tyre pressure and the vehicle's level at all times. Distronic adaptive cruise control ensures safe, relaxed driving.

Winter Package Plus – extra comfort below zero

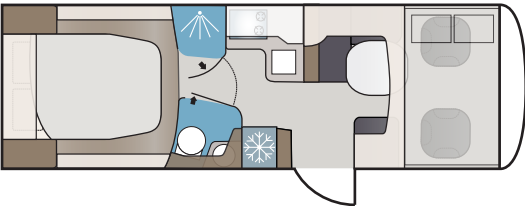

The package includes a heated steering wheel and Mercedes-Benz electric auxiliary heating that warms the cab quickly. The perfect upgrade for year-round travel.

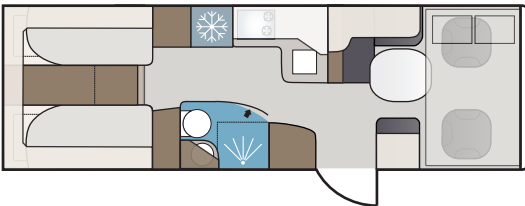

TM Imperial i790 LGB

The Travel Master Imperial i790 LGB shares the same compact luxury concept as the i790 LQB – but adds raised twin single beds at the rear. This model also has a drop-down double bed above the cab. The L-shaped kitchen provides a practical, well-designed cooking space. Separate toilet and shower compartments on opposite sides in the centre of the vehicle create a private dressing area when the doors are opened. The pull-out wardrobe beside the fridge is another welcome touch.

TM Imperial i790 LQB

Compact luxury with room for many. The smallest model in the Imperial range – yet fully equipped for travel at the highest level. A generous Queen-size bed sits at the rear, with a drop-down double bed above the cab. With the dinette converted into a bed, the model offers up to six berths. An L-shaped kitchen, separate toilet and shower in the centre, and a handy pull-out wardrobe beside the fridge make the most of every square metre.

TM Imperial i830 LGB

This model is built for those who want to travel smart without compromising on comfort. Raised twin single beds at the rear create generous storage space beneath, easily accessed from outside. A practical L-shaped kitchen with generous cupboards and drawers, together with a bathroom with shower, makes this a motorhome where everyday life and holidays run seamlessly – with all the standard equipment you expect from Imperial.

TM Imperial i830 LQB

The Imperial i830 LQB offers a spacious layout with a comfortable, centrally placed Queen-size bed at the rear and a drop-down double bed above the cab. A bathroom with shower comes as standard, and the large L-shaped kitchen offers plenty of smart storage solutions that make life on the road easy – whether you're away for the weekend or on a longer trip.

TM Imperial TRAQ i830 LGB

The rear-wheel-drive TRAQ i830 LGB is ideal for towing heavier trailers, such as a horse trailer or a small car – up to 1,980 kg. Twin rear wheels provide a total train weight of 7 tonnes. The layout is based on the i830 LQB (below), but with raised twin single beds and generous storage space beneath at the rear. All the Imperial series upgrades are included, of course, and with up to six berths you can travel in safety and comfort.

TM Imperial TRAQ i830 LQB

The TRAQ i830 LQB offers a spacious layout with rear-wheel drive. Perfect for towing heavier trailers, up to 1,980 kg, without compromising on comfort. Twin rear wheels provide a total train weight of 7 tonnes . A generous Queen-size bed sits at the rear, with a drop-down double bed above the cab. In total, the model offers up to six berths. A practical L-shaped kitchen, ample storage and a comfortable seating area complete a layout equipped to Imperial standard throughout.

Dinette bed	2060 x 1175 / 555 mm
Drop-down bed	1880 x 1220 mm
Storage opening W/H	2 x 945 x 1170 mm

TM Imperial i880 LGB

The Imperial i880 LGB is a unique motorhome with extra room to move – perfect for those who want plenty of space in both the kitchen and the living area. There are raised twin single beds at the rear, a separate toilet and shower on either side of the central aisle, a substantial L-shaped kitchen and plenty of smart storage. The seating area at the front provides ample room for socialising and meals, while a drop-down bed above adds two additional berths without affecting the daytime living space.

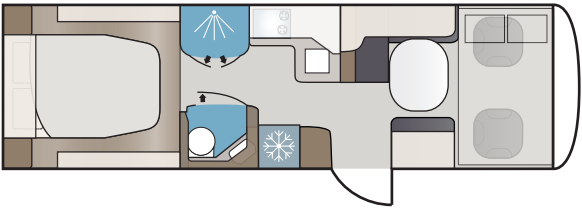

TECHNICAL SPECIFICATION	
Interior length, living area	6060 mm
Interior width	2180 mm
Interior height	1960 mm
Overall length	8822 mm
Overall width	2329 mm
Overall height	3065 mm
Sleeps (incl. dinette)	2 - 6
Driver + number of passengers	1 + 3
Rear bed	2000 x 780 + 2000 x 700 mm
Dinette bed	2060 x 1175 / 835 mm
Drop-down bed	1880 x 1220 mm
Storage opening W/H	2 x 945 x 1170 mm

TM Imperial i930 GB

The Imperial i930 GB is one of KABE's largest fully integrated models, for those who want both space and a premium feel. The raised twin single beds at the rear create practical storage space beneath, easily accessed via a large external hatch. The updated, elegant curved kitchen reinforces the exclusive feel. With even more generous proportions in the seating area, exceptional comfort in every detail and full KABE standard, this is a motorhome that takes long-distance travel to a whole new level.

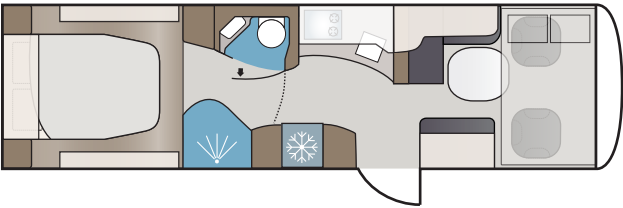

TECHNICAL SPECIFICATION	
Interior length, living area	6564 mm
Interior width	2180 mm
Interior height	1960 mm
Overall length	9320 mm
Overall width	2329 mm
Overall height	3065 mm
Sleeps (incl. dinette)	2 - 6
Driver + number of passengers	1 + 3
Rear bed	2000 x 780 + 2000 x 700 mm

Storage opening W/H	945 x 1170 + 885 x 1170 mm

TM Imperial i880 LQB

A luxurious model with an impressive layout – designed for big journeys. At the rear sits a centrally placed Queen-size bed, framed by a separate toilet and shower on opposite sides. The spacious L-shaped kitchen beside the generous seating area, together with the smart storage solutions, makes this motorhome a comfortable, functional base – wherever the road takes you.

TECHNICAL SPECIFICATION	
Interior length, living area	6060 mm
Interior width	2180 mm

TM Imperial i930 QB

With a spacious Queen-size bed at the rear, an updated, elegant curved kitchen and a larger, well-planned seating area at the front, the i930 QB offers both luxury and function. The toilet and shower sit on either side of the central aisle for extra comfort and a greater sense of privacy. A motorhome that combines generous proportions with sophisticated design, for those who expect the very best from life on the road.

TECHNICAL SPECIFICATION	
Interior length, living area	6564 mm

Options Novum, Royal, Crown, Imperial

Give your KABE an extra touch of class. We know what makes life in a motorhome comfortable. That's why every KABE comes generously equipped as standard. In fact, many of the features we include as standard are extras with other manufacturers. But every traveller has different priorities, and you can, of course, personalise your motorhome to suit your own needs. We offer a wide range of accessories*.

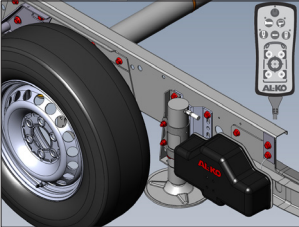

ENGINE / CHASSIS

Air suspension: Air Premium X2 rear – raise/lower the rear (approx. +/- 50 mm from driving position).
Air Premium X4 front/rear – raise/lower front/rear (as above). Levelling function for a flat stance.
(not for Light version, not for TRAQ x750, and X4 not for TRAQ i830)

AL-KO Comfort Drive ACD – active shock absorbers that adjust their firmness to the driving situation in an instant. Improved comfort, stability and steering precision.
(c720, x750, i780, x810 Heavy version)

AL-KO HY4 hydraulic support legs

Level the vehicle at the touch of a button. Press again and the legs retract. The HY4 can also be operated manually, with an individual motor for each leg. The whole system is chassis-mounted. No oil hoses inside the vehicle. Standard on Imperial, available as an option on other models (not for TRAQ models, which have HPC support legs).

170 hp engine (standard on Imperial)
190 hp engine – TRAQ x750

Four-wheel drive – TRAQ x750 and TRAQ i830 (only with 190 hp engine)

Novum Heavy increased gross vehicle weight and 92 liter fuel tank
4,200 kg – TRAQ x750
4,500 kg – c720, x750

Widened front track – Crown (standard on Imperial)

EXTERIOR

Extendable step at the driver's cab door (fully integrated models)

Rear mudflaps (fully integrated models)

Midi Heki skylight (not in combination with drop-down bed)

Pull-out drawer, side skirt package (Novum, Royal, Crown – not for TRAQ models)

Tow bar (max trailer weight 2,000 kg)

Electric awning (black for the off-road package):
4,0 m – c720, x750
4,5 m – x810
5,0 m – i780, i790
5,5 m – i830, i880, x910
6,0 m – i930

Awning lighting

ALDE diesel boiler available with the Winter package (applies to TRAQ x750 in the Novum series and to Royal, Crown, Imperial except for x810 LXL, i780 and i790)

Dometic Fresh Jet FJ2600 – air conditioning, living area (standard on Imperial)

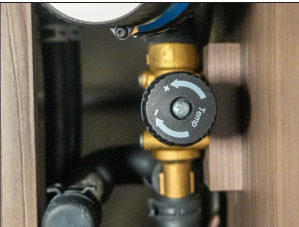

ALDE Flow in the 3030 Plus boiler for continuous hot water to shower in comfort for as long as you like (not for c720)

Ventilated front seats with heating and cooling (Crown, Imperial)

The GoCamp solar panel package delivers 150 W, and the panel's frame is heavy-gauge aluminium with aerodynamic spoilers that reduce wind noise on the road (standard on Imperial)

AGS II Pro underfloor heating system (included in Prime-Comfort, standard on Imperial)

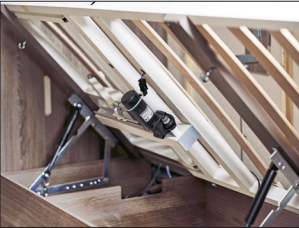

Pleated thermal curtain

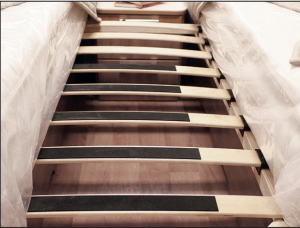

Alde AquaClear UV-C – water purification system (for the Alde Compact 3030 boiler)

Effective water purification that protects the user's health in a gentle, environmentally friendly way. Unwanted viruses and bacteria, pesticides and chemicals are removed. The water is disinfected by UV-C light generated from LEDs. It then passes through a carbon filter that leaves the water odour-free, with no bad taste or colour.

INTERIOR

Electric headboard for the bed (standard on all LQB models). With this option, the garage height is reduced by 10 cm.

Grand Lit (extra-large bed) – convert twin single beds into a double bed (LGB models only). Aluminium ladder included.

Tailored floor mat

Compressor fridge

* When you choose your options, please note that the minimum payload capacity must not be affected, in accordance with the definition in ECE 1230/2012.

New! Thetford convection oven (c720 LXL, x810 LXL, x910 LQB)

Electric locking for the worktop (standard on Imperial)

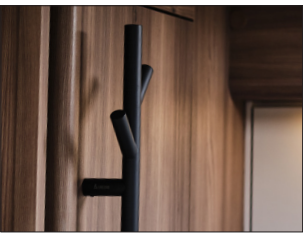

Thetford ceramic toilet (Novum and Royal only)

Cinderella incineration toilet (only for x750 LXL in the Novum series, though it may feel cramped – not for Royal x810 LXL)

Electric heated towel rack with timer (x750 LXL, i780 LGB, x810 LXL, i830 LGB/LQB, i880 LGB/LQB, i930 GB/QB)

Electric heated towel bar, 170 cm long (i790 LGB/LQB, x810 LT/LGB/LQB, x910 LQB)

Shower fan (only for c720 LXL, x750 LXL, x810 LT/LXL, i930 GB/QB)

Wooden shower floor (Imperial only)

Electric drop-down bed above the dinette area (not for TRAQ x750, included in Crown Prime-Comfort – standard Royal)

Possibility to exclude the drop-down bed (Royal, Crown Prime-Comfort)

Curtain for the drop-down bed (not for TRAQ x750)

Panel curtains in the front windows – available in a number of colors and patterns, choose the design that works with your interior

New! Choose between 2, 3, 4 or 5 belted seats (Novum only). Fewer belted seats allow for additional optional equipment.

Cornwall leather upholstery (standard on Imperial)

Somerset leather upholstery (standard on Imperial)

5th belted seat – rear-facing seat behind the entrance door with three-point seat belt and Isofix. Available on models: x750 LGB, x810 LT/LGB/LQB, i790 LGB/LQB, i830 LGB/LQB, TRAQ i830 LGB/LQB

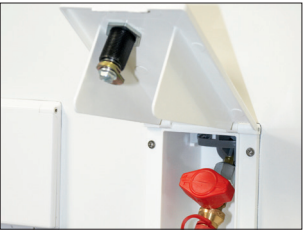

5th belted seat – folding, forward-facing seat behind the entrance door with a three-point seat belt and Isofix. Available on models: x750 LXL, x810 LXL, x910 LQB, i880 LGB/LQB, i930 GB/QB

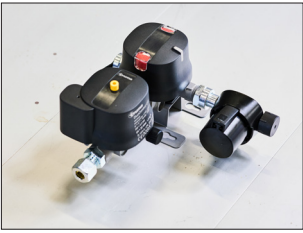

CONNECTIONS

Face-to-face sofa (available on specific Novum and Royal models)

Exterior gas outlet

Duo Control automatic gas changeover

Shower outlet (not for Novum LXL, Royal LXL – standard on Imperial)

ALARM / SAFETY

Intruder alarm including perimeter protection and internal motion detector (standard on Imperial)

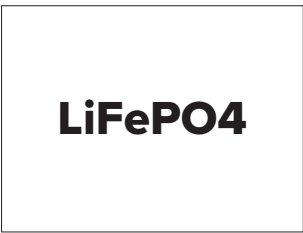

Central locking for external hatches (standard on Imperial)

BATTERY / CHARGER

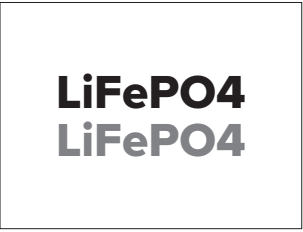

Inverter 1800 W (standard on Imperial)

Upgrade from 100 Ah lithium battery to 150 Ah lithium battery
One additional 150 Ah lithium battery

SOUND / VISUAL

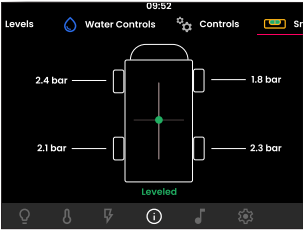

Two 150 Ah lithium batteries (standard on Imperial)

New! Wireless charging pad for your smartphone

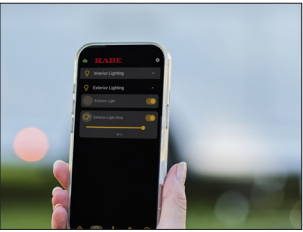

New! Smartphone integration (Apple CarPlay, Android Auto, MirrorLink)

KABE Smart Level with three useful functions tracks your gas level**, tyre pressure and the vehicle's tilt (standard on Imperial). KABE Smart Level is controlled via the KABE Smart D 2.0 panel.

OTHER EQUIPMENT

KABE Connect* lets you control the motorhome's control panel remotely via an app, wherever you are. KABE Connect is built around a 4G router with an internal antenna and a mobile modem (an external antenna is included in the Advanced package).

KABE's practical bike rack – carry and store your bikes in the motorhome's garage. The rack pulls out for better ergonomics and has a smart extra module that lets you turn the handlebars to make the most of the available space (not for Novum LXL and x810 LXL/LT).

New! KABE FlexiStorage – a garage storage package with a tool board and two KABE-design bags (Novum only)

New! Nespresso coffee machine holder (not for Novum Compact and i930)

* A 36-month subscription is included with your purchase of KABE Connect. After that, an annual fee applies for continued app access. A separate mobile data plan is also required. ** Requires a compatible gas cylinder, not for composite bottles.

Standard equipment

What others call optional, we call standard. At KABE, a high level of equipment comes as standard, with thoughtfully designed features that make every journey safer and more comfortable – every day, all year round.
